Looking out a second story window of her family s quarters at the Pearl Harbor naval base on December 7 1941 eleven year old Jackie Smith could see not only the Rising Sun insignias on the wings of attacking Japanese bombers but the faces of the pilots inside Most American children on the home front during the Second World War saw the enemy only in newsreels and the pages of Life Magazine but from Pearl Harbor on the war with its blackouts air raids and government rationing became a dramatic presence in all of their lives Thirty million Americans relocated 3 700 000 homemakers entered the labor force sparking a national debate over working mothers and latchkey children and millions of enlisted fathers and older brothers suddenly disappeared overseas or to far off army bases By the end of the war 180 000 American children had lost their fathers In Daddy s Gone to War William M Tuttle Jr offers a fascinating and often poignant exploration of wartime America and one of generation s odyssey from childhood to middle age The voices of the home front children are vividly present in excerpts from the 2 500 letters Tuttle solicited from men and women across the country who are now in their fifties and sixties From scrap collection drives and Saturday matinees to the atomic bomb and V J Day here is the Second World War through the eyes of America s children Women relive the frustration of always having to play nurses in neighborhood war games and men remember being both afraid and eager to grow up and go to war themselves Not all were willing to wait Tuttle tells of one twelve year old boy who strode into an Arizona recruiting office and declared I don t need my mother s consent I m a midget Former home front children recall as though it were yesterday the pain of saying good bye perhaps forever to an enlisting father posted overseas and the sometimes equally unsettling experience of a long absent father s return A pioneering effort to reinvent the way we look at history and childhood Daddy s Gone to War views the experiences of ordinary children through the lens of developmental psychology Tuttle argues that the Second World War left an indelible imprint on the dreams and nightmares of an American generation not only in childhood but in adulthood as well Drawing on his wide ranging research he makes the case that America s wartime belief in democracy and its rightful leadership of the Free World as well as its assumptions about marriage and the family and the need to get ahead remained

largely unchallenged until the tumultuous years of the Kennedy assassination Vietnam and Watergate As the hopes and expectations of the home front children changed so did their country s In telling the story of a generation Tuttle provides a vital missing piece of American cultural history **The Athenæum** ,1853 **The Lancet** ,1898 **The Educational Times and Journal of the College of Preceptors** ,1870 **The World Almanac and Book of Facts** ,1971 Lists news events population figures and miscellaneous data of an historic economic scientific and social nature **Day-By-Day Math Mats** Mary Rosenberg,2002 This teacher written resource offers engaging activity mats that invite students to explore addition and subtraction patterns time money measurement place value graphs and more every day of the school year Easy to use reproducibles make preparation for whole class small group and learning center lessons a snap Great homework for students at every ability level For use with Grades 1 2 *Black Belt* ,1972-07 The oldest and most respected martial arts title in the industry this popular monthly magazine addresses the needs of martial artists of all levels by providing them with information about every style of self defense in the world including techniques and strategies In addition Black Belt produces and markets over 75 martial arts oriented books and videos including many about the works of Bruce Lee the best known marital arts figure in the world
