Assessment of RUFORUM member universities in Kenya Mose, Lawrence, Gao, Lang, Beintema, Nienke M., 2018-11-29 Credible quantitative and qualitative information on existing capacities in agricultural higher education agencies in Africa are important for decisionmakers at national regional and international levels Decisionmakers require data and indicators for strategic planning policy formulation setting priorities and benchmarks measuring progress toward benchmarks and identifying capacity gaps Decisionmakers need a better understanding of the specifics of existing staffing and student capacities in the higher education sector as well as in the wider agricultural innovation systems in Africa south of the Sahara Access to such information will result in better policies addressing capacity issues in agricultural higher education research extension and other areas The existence of such information however remains extremely limited

Thin Film Coatings Fredrick Madaraka Mwema, Tien-Chien Jen, Lin Zhu, 2022-06-19 Thin Film Coatings Properties Deposition and Applications discusses the holistic subject of conventional and emerging thin film technologies without bias to a specific technology based on the existing literature It covers properties and delves into the various methods of thin film deposition including the most recent techniques and a direction for future developments It also discusses the cutting edge applications of thin film coatings such as self healing and smart coatings biomedical hybrid and scalable thin films Finally the concept of Industry 4 0 in thin film coating technology is examined This book Explores a wide range and is not specific to material and method of deposition Demonstrates the application of thin film coatings in nearly all sectors such as energy and anti microbial applications Details the preparation and properties of hybrid and scalable ultra thin materials for advanced applications Provides detailed bibliometric analyses on applications of thin film coatings Discusses Industry 4 0 and 3D printing in thin film technology With its broad coverage this comprehensive reference will appeal to a wide audience of materials scientists and engineers and others studying and developing advanced thin film technologies

Handbook of Phytonutrients in Indigenous Fruits and Vegetables Dharini Sivakumar, Yasmina Sultanbawa, Michael Netzel, 2022-10-31 The effects of inadequate diets on the population include malnutrition non communicable diseases and obesity Hidden hunger also known as micronutrient deficiencies leads to various health related disorders and diseases Indigenous plants in the form of indigenous fruits and leafy vegetables are gaining interest as a source of nutrients and bioactive phytochemicals satisfying both food demand and health needs Moreover with the impact of climate change and the importance of sustainability of food systems it is essential that we investigate new forgotten and alternative crops that can thrive in harsh conditions require low fertilizer input and are easily harvestable This is an essential resource for academic researchers and industry professionals in the fields of horticulture agriculture crop science human health and nutrition

Hydrology and Water Resources Management in Arid, Semi-Arid, and Tropical Regions Ondieki, Christopher Misati, Kithika, Johnson Utu, 2019-06-28 Hydrology is a key influence on water security environmental sustainability agricultural production energy and transport especially in unique

environments such as arid regions and the tropics where degradation issues on water and land can threaten the livelihoods of poor communities. With implications in urbanization, landscape architecture and sanitation, enhancing the practice of water use management and planning is imperative for the sustainable development of these regions. *Hydrology and Water Resources Management in Arid, Semi-Arid and Tropical Regions* is an essential research publication that seeks to improve scientific understanding and sharing of data in hydrology and integrated water resources management of arid, semi-arid and tropical regions in order to enhance water governance and alleviate reduction in the vulnerability of water resources systems to global changes. Featuring a wide range of topics such as hydrometeorology, sustainable development and climate change, this book is ideal for researchers, technology developers, academicians, policymakers, government officials and students.

Handbook of Research on Advancements in the Processing, Characterization, and Application of Lightweight Materials Kumar, Kaushik, Babu, B. Sridhar, Davim, J. Paulo, 2021-11-19. In the automotive industry, the need to reduce vehicle weight has given rise to extensive research efforts to develop aluminum and magnesium alloys for structural car body parts. In aerospace, the move toward composite airframe structures urged an increased use of formable titanium alloys. In steel research, there are ongoing efforts to design novel damage-controlled forming processes for a new generation of efficient and reliable lightweight steel components. All these materials and more constitute today's research mission for lightweight structures. They provide a fertile materials science research field aiming to achieve a better understanding of the interplay between industrial processing, microstructure development and the resulting material properties. The *Handbook of Research on Advancements in the Processing, Characterization and Application of Lightweight Materials* provides the recent advancements in the lightweight materials processing, manufacturing and characterization. This book identifies the need for modern tools and techniques for designing lightweight materials and addresses multidisciplinary approaches for applying their use. Covering topics such as numerical optimization, fatigue characterization and process evaluation, this text is an essential resource for materials engineers, manufacturers, practitioners, engineers, academicians, chief research officers, researchers, students and vice presidents of research in government, industry and academia. **Hydrology and Best**

Practices for Managing Water Resources in Arid and Semi-Arid Lands Ondieki, Christopher Misati, Kitheka, Johnson U., 2017-07-12. The management of water resources is extremely important for survival. Depending on the climate, certain regions require different strategies to maintain sustainable hydrological systems. *Hydrology and Best Practices for Managing Water Resources in Arid and Semi-Arid Lands* is a crucial scholarly resource that outlines current trends in water management and offers solutions for the future of this growing field. Highlighting pertinent topics such as hydrological processes, modelling, satellite hydrology, water pollution and climate resources, this publication is ideal for environmental engineers, academicians, graduate students and researchers that are eager to discover more about the issues and processes currently shaping water management technology. *Fused Deposition Modeling* Fredrick Madaraka Mwema, Esther Titilayo

Akinlabi,2020-05-29 In this book fused deposition modeling FDM is described with focus on product quality control and enhancement The book begins by introducing the basics of FDM and its associated process parameters Then strategies for quality control and enhancement are described using case studies of both original results by the authors and from published literature Resolution and print orientation multi objective optimizations and surface engineering are identified and discussed as the strategies for enhancing the quality of FDM products in this book *Multisectoral approach for the prevention and control of vector-borne diseases* World Health Organization,2020-04-24 *Generative AI* Dr. Mohammad Shahid,Ms. Teresa Kwamboka Abuya,Mrs. A. Nazreen,Mr. B. Sivakumar,2025-08-27 Generative AI is a comprehensive exploration of the transformative power of artificial intelligence in creating original and dynamic digital content This book introduces readers to the fundamentals of generative models tracing their evolution from early machine learning techniques to advanced architectures such as GANs VAEs diffusion models and large language models LLMs It explains how these systems learn patterns mimic creativity and generate text images music and even code that closely resembles human output The book goes beyond theory offering practical insights case studies and real world applications of generative AI in diverse fields including healthcare education design finance entertainment cybersecurity and scientific research It also highlights the ethical and societal challenges posed by this technology such as misinformation deepfakes intellectual property concerns and bias in AI generated content while emphasizing the importance of responsible innovation and governance Designed for students researchers professionals and technology enthusiasts this book serves as both an academic reference and a practical guide By bridging conceptual understanding with applied knowledge it empowers readers to harness generative AI for creativity innovation and problem solving Richly detailed and future focused Generative AI provides a roadmap to understanding one of the most significant technological revolutions of our time Polymer-Silica Based Composites in Sustainable Construction Harrison Shagwira,Fredrick Madaraka Mwema,Thomas Ochuku Mbuya,2021-12-26 This book presents the application of Polymer Silica Based Composites in the Construction Industry providing the fundamental framework and knowledge needed for the sustainable and efficient use of these composites as building and structural materials It also includes characterization of prepared materials to ascertain mechanical chemical and physical properties and analyses results obtained using similar methods Topics such as life cycle analysis of plastics application of plastics in construction and elimination of plastic wastes are also discussed The book also provides information on the outlook and competitiveness of emerging composites materials Covers theory preparation and characterizations of polymer silica based composites for green construction Discusses technology reliability manufacturing cost and environmental impact Reviews the classification application and processing of polymer silica composites Gives a deeper analysis on the various tests carried out on polymer silica composite Highlights role of such composites in the Industry 4 0 and emerging technologies This book is aimed at graduate students and researchers in civil engineering built environment construction materials and materials science *Aflatoxin B1 Occurrence, Detection and*

Toxicological Effects, 2020-06-03 This book consists of 11 chapters divided into four parts The chapters are written by experts in the field of aflatoxins Select topics are presented here to provide a snapshot of current understanding of the occurrence and metabolism of aflatoxin B1 the contamination exposure and detection of aflatoxin B1 and the toxicological effects and detoxification of aflatoxin The book is intended for students and scientists working in the field of aflatoxins

Supply Chain Management Phases Omuombo Arthur Ngaji, Rhodah Nzovila, Sheila Kabachia, Audrey Christine Awuor Arunga, Urbanus Kioko Mutiso, Agnes Mutheu Justus, 2023-02-07 TOPICS IN THE BOOK Influence of Risk Management on Supply Chain Projects in Kenya A Case of Deloitte Kenya End User Involvement and Supply Chain Performance in Kenyan Universities A Case of Chuka University Kenya Effect of Procurement Outsourcing on Performance of Kenya Airways Limited Factors Affecting Implementation of Preference and Reservation Directive on Government Procurement Opportunities in Kenya A Case of the Central Bank of Kenya Influence of Supplier Evaluation Criteria on Procurement Performance of Non Governmental Organizations in Kenya *African Parliaments Volume 1* Linda Khumalo, Candice Morkel, Caitlin Blaser Mapitsa, Hermine Engel, Aisha Jore Ali, 2021-11-23 Parliaments play a pivotal role in governance and yet little is known about how evidence is used for decision making in these complex political environments Together with its practice companion volume *African Parliaments Systems of evidence in practice* this volume explores the multiple roles legislatures play in governance the varied mandates and allegiances of elected representatives and what this means for evidence use Given the tensions in Africa around the relationships between democracy and development government and citizen agency this volume considers the theories around parliamentary evidence use and interrogates what they mean in the context of African governance *Sustainable Management of Invasive Pests in Africa* Saliou Niassy, Sunday Ekesi, Lorna Migiro, Washington Otieno, 2020-07-13 Invasive species generally affect economically important crops thus affecting the livelihoods of millions of people along crop value chains Typically invasive species have high migratory capabilities and because of plant material exchanges made during trade they cannot be contained by one country Usually African countries react after a pest has invaded and established itself in the country making the cost of mitigating the pest even more expensive This book presents a pan African view of the impacts of invasive insect pests on agriculture and of how invasive species impact on productivity in Africa It not only describes their importance but also presents a diversity of research findings in the field ranging from the use of early warning and monitoring systems for quarantine purposes agricultural extension all the way to control strategies The IPM arsenal presented in this book includes the use of botanical bioactive compounds semiochemicals resistant varieties biological control agents such as entomopathogens endophytes predators and natural enemies Aspects of technology transfer strategies regional coordination and farmers perceptions have not been overlooked because these affect the adoption of mitigation strategies The book also presents measures that would help agricultural research services to estimate the damage and take actions for preparedness and readiness to face invasive insect pests This starts with a basic knowledge of taxonomy

to enable concerned persons to describe the insects and the vast inventory of affected crops Physiological and ecological aspects of invasive pests are strongly highlighted to strengthen Integrated Pest Management Strategies The threat of invasive species will remain permanent therefore the book encourages knowledge exchange and collaboration between researchers and scientists on the continent while encouraging the establishment of a platform or a fund for preparedness and rapid response

Research and Development on Genetic Resources Evanson Chege Kamau, Gerd Winter, Peter-Tobias Stoll, 2015-06-05 National implementation of the Convention on Biological Diversity CBD provisions has yielded enough challenges for providers and users of genetic resources and associated traditional knowledge alike The Nagoya Protocol brings novel ideas for resolving the challenges plaguing the Access and Benefit Sharing ABS process in general and non commercial research in particular This is one of the first books to address research cooperation and facilitated access for non commercial biodiversity research It uniquely offers concrete and practicable solutions based on experiences of researchers and administrative officials with ABS and on the interpretation of the Nagoya Protocol on how free and lively taxonomic research can be ensured while at the same time observing obligations of obtaining prior informed consent and sharing of benefits This book will be useful to students of International Environmental Law International Biodiversity Law Intellectual Property Law Climate Law and Law of Indigenous Populations With foreword from Executive Secretary CBD Bráulio Ferreira de Souza Dias
