*Achieving Science with CubeSats* National Academies of Sciences, Engineering, and Medicine, Division on Engineering and Physical Sciences, Space Studies Board, Committee on Achieving Science Goals with

CubeSats,2016-11-06 Space based observations have transformed our understanding of Earth its environment the solar system and the universe at large During past decades driven by increasingly advanced science questions space observatories have become more sophisticated and more complex with costs often growing to billions of dollars Although these kinds of ever more sophisticated missions will continue into the future small satellites ranging in mass between 500 kg to 0.1 kg are gaining momentum as an additional means to address targeted science questions in a rapid and possibly more affordable manner Within the category of small satellites CubeSats have emerged as a space platform defined in terms of 10 cm x 10 cm x 10 cm sized cubic units of approximately 1.3 kg each called U s Historically CubeSats were developed as training projects to expose students to the challenges of real world engineering practices and system design Yet their use has rapidly spread within academia industry and government agencies both nationally and internationally In particular CubeSats have caught the attention of parts of the U S space science community which sees this platform despite its inherent constraints as a way to affordably access space and perform unique measurements of scientific value The first science results from such CubeSats have only recently become available however questions remain regarding the scientific potential and technological promise of CubeSats in the future Achieving Science with CubeSats reviews the current state of the scientific potential and technological promise of CubeSats This report focuses on the platform s promise to obtain high priority science data as defined in recent decadal surveys in astronomy and astrophysics Earth science and applications from space planetary science and solar and space physics heliophysics the science priorities identified in the 2014 NASA Science Plan and the potential for CubeSats to advance biology and microgravity research It provides a list of sample science goals for CubeSats many of which address targeted science often in coordination with other spacecraft or use sacrificial or high risk orbits that lead to the demise of the satellite after critical data have been collected Other goals relate to the use of CubeSats as constellations or swarms deploying tens to hundreds of CubeSats that function as one distributed array of measurements

**Workplace Health Promotion, 2nd edition** Danijela Gasevic, Leah Okenwa-Emegwa, 2023-01-09 Work related factors have implications for health and wellbeing Due to the amount of time spent at the workplace and the impact of work on health over an individual s life course the workplace has evolved as an important arena for population health promotion Risk factors within the physical and psychosocial working environment as well as inadequate organizational support are associated with increasing work related health problems which result in psychosocial and economic implications for the individual the family the organization and the society Recent estimates revealed an increasing level of sickness absence due to work related factors among others In recognition of the importance of worker health and a healthy working life but also in line with numerous occupational health goals many organisations set aside significant amounts of financial resources annually to promote work well being However studies have shown that

despite this positive disposition among employers both employee participation and the impact of such programs remain minimal According to the Ottawa declaration for health promotion and the Luxembourg declaration for Workplace Health Promotion WHP should be strategic It is recommended that WHP be conducted in a systematic and continuous process of needs analysis priority setting planning implementation and evaluation Unfortunately available studies show that many companies have policies currently in place but lack knowledge regarding proper implementation and evaluation The foregoing phenomenon raises questions regarding the level of knowledge of and attitudes towards WHP among people in management positions This Research Topic aims to address factors affecting workplace health promotion What does WHP mean for employers What forms of WHP packages exist Is there evaluation and follow up of such interventions What are the barriers and facilitators relating to the uptake of WHP interventions among employees Do people in relevant managerial positions possess adequate knowledge regarding WHP Manuscripts that explore factors crucial for WHP including individual and organizational level factors crucial for WHP are welcomed Manuscripts on barriers evidence based interventions best practices analysis of existing policy documents and those with a life course perspective etc are also welcomed Manuscripts can be of national international and global perspectives

**Research into Talent Development in Youth Sports** Carlos Eduardo Gonçalves,Humberto M. Carvalho,Arne Güllich,2023-11-16 The last decade witnessed a plethora of literature about talent identification and talent development Most of the research is descriptive In addition an enormous quantity of publications attempted to define normative guidelines but mostly with relatively little empirical evidence to support them We believe it is time to overview the field critically appraise the situation of research and map the topics trends and gaps The large part of recent research has focused on talent identification and the factors that reveal talents In contrast relatively less research has addressed the question how young talents develop in a long term process towards becoming senior high performers This is an evolving field and research is still in a primarily explorative stage A variety of different study designs and methodological approaches have been employed to explore different factors and outcomes of talent development yielding heterogeneous findings
