Valentine, 2016-05-23 This book offers a chronology subheadings and terms to provide the reader a pedagogical framework for understanding the central themes and events in the American military experience and their relation to American history It serves as a foundation for undergraduate courses in military history

American Military History, 2009 From the Publisher This latest edition of an official U S Government military history classic provides an authoritative historical survey of the organization and accomplishments of the United States Army This scholarly yet readable book is designed to inculcate an awareness of our nation s military past and to demonstrate that the study of military history is an essential ingredient in leadership development It is also an essential addition to any personal military history library

American Military History: The United States Army and the forging of a nation, 1775-1917 Richard Winship Stewart, 2009 From the Publisher This latest edition of an official U S Government military history classic provides an authoritative historical survey of the organization and accomplishments of the United States Army This scholarly yet readable book is designed to inculcate an awareness of our nation s military past and to demonstrate that the study of military history is an essential ingredient in leadership development It is also an essential addition to any personal military history library

The Oxford Companion to American Military History, Atlas of American Military History James C. Bradford, 2003 From the Battle of Bunker Hill to the Battle of Midway from Vietnam to the Persian Gulf from George Washington to Douglas MacArthur The Atlas of American Military History covers the full span of America at war exploring the personalities methods strategies and historical contexts of each conflict Following a loose chronological framework this book examines every significant military campaign and war in which the United States has been engaged both domestically and internationally from the Revolutionary War to the present Written by trusted military historians each section combines analysis with a strong narrative account and an assessment of major campaigns and battle taking up the American viewpoint as well as those of its allies and opponents Military method weaponry and communication technology receive detailed treatment in the text and in the maps The center point of the book is its stunning color maps including historical military cartography specially commissioned maps and graphic reconstructions These maps show troop ship and aircraft movements of major campaigns and battles the theaters of fighting the balance of forces and the wider strategic picture It also features hundreds of illustrations appendixes and a glossary and information on military commanders events treaties code names and civilian personalities Edited by noted historian James Bradford The

Atlas of American Military History is a beautiful and informative volume for history buff and general reader alike

Philippine-American Military History, 1902-1942 Richard B. Meixsel, 2015-10-02 Military obligations rested lightly upon the Filipino people for much of the period that America occupied the Philippines but Filipinos could enlist in the United States Army and Navy attend the service academies at West Point and Annapolis or join military organizations restricted to duty in the islands such as the Philippine Scouts Philippine Constabulary Philippine National Guard and the navy's insular force In the 1930s the Philippine government established its own armed forces Throughout much of this time the U S army also kept a substantial portion of its troop strength in the Philippines This annotated bibliography of nearly 700 titles highlights the extent and variety of the Philippine American military experience from the conquest of the islands by the United States in 1902 to the defeat of Philippine and American forces by the Japanese in 1942 The bibliography includes memoirs and biographies of Filipino and American officers and enlisted men from MacArthur to Ferdinand Marcos unit histories army post and navy base histories medals and insignia books and the most extensive list of prisoner of war memoirs yet published Annotations address controversies such as the widely disparate estimates of American deaths on the Bataan Death March and include previously unpublished information such as casualty figures for American and Philippine forces in 1941 1942

American Military History Daniel K. Blewett, 2008-12-30 In this companion volume to his 1995 bibliography of the same title Daniel Blewett continues his foray into the vast literature of military studies As did its predecessor it covers land air and naval forces primarily but not exclusively from a U S perspective with the welcome emergence of small wars from publishing obscurity In addition to identifying relevant organizations and associations Blewett has gathered together the very best in chronologies bibliographies biographical dictionaries indexes journals abstracts glossaries and encyclopedias each accompanied by a brief descriptive annotation This work remains a pertinent addition to the general reference collections of public and academic libraries as well as special libraries government documents collections military and intelligence agency libraries and historical societies and museums

The Oxford Encyclopedia of American Military and Diplomatic History Timothy J. Lynch, 2013 Entries written by renowned diplomatic and military historians as well as key scholars in international relations Provides assessments and analyses of key episodes issues and actors in the military and diplomatic history of the United States Based on the award winning Oxford Companion to United States History Comprehensive collection of entries that span the founding of the U S to its present state Offers a wide range of perspectives to provide an encompassing context of the United States military and diplomatic legacies Expansive bibliographies and suggested readings for each article to aid in research The Oxford Encyclopedia of American Military and Diplomatic History a two volume set will offer both assessment and analysis of the key episodes issues and actors in the military and diplomatic history of the United States At a time of war in which ongoing efforts to recalibrate American diplomacy are as imperative as they are perilous the Oxford Encyclopedia will present itself as the first recourse for scholars wishing to deepen their

understanding of the crucial features of the historical and contemporary foreign policy landscape and its perennially martial components. Entries will be written by the top diplomatic and military historians and key scholars of international relations from within the American academy supplemented as is appropriate for an encyclopedia of diplomacy with entries from foreign based academics in the United Kingdom and elsewhere. The crucial importance of the subject is reflected in the popularity of university courses dedicated to diplomatic and military history and the enduring appeal of international relations IR as a political science discipline drawing on both. The Oxford Encyclopedia will be a basic reference tool across both disciplines a potentially very significant market. Readership: University level undergraduate and graduate students in History.

William Harding Carter and the American Army Ronald Glenn Machoian, 2006. In this first full length biography of William Harding Carter Ronald G Machoian explores Carter's pivotal role in bringing the American military into a new era and transforming a legion of citizen soldiers into the modern professional force we know today. Machoian follows Carter's career from his boyhood in Civil War Nashville where he volunteered to carry Union dispatches through his involvement in bitter campaigns against Apaches in the Southwest to his participation in the Indian Wars tragic final chapter at Wounded Knee in 1890. Carter's life and work reflected his times the Gilded Age and the Progressive era. Machoian shows Carter as an able intellectual attuned to contemporary cultural trends and tirelessly devoted to ensuring that the U S Army kept abreast of them. In collaboration with Secretary of War Elihu Root he created the U S Army War College and pushed through Congress the General Staff Act of 1903 which replaced the office of commanding general with a chief of staff and modernized the staff structure. Later he championed the replacement of the state militia system with a more capable national reserve and advocated wartime conscription. Since his death in 1925 Carter's important contributions toward modernizing the U S Army have been overlooked. Machoian redresses this oversight by highlighting Carter's contributions to the U S military's growth as a professional institution and the nation's transition to the twentieth century.

Vietnam's American War Pierre Asselin, 2024-06-13. This new edition masterfully explains the origins and outcome of America's war in Vietnam by focusing on its local dimensions.

The Modern American Military David Kennedy, 2013-06-27. The Modern American Military is composed of essays surveying the mission and character of the United States armed forces in the twenty first century.

Correspondence of Major General Emory Upton, Vol. 1, 1857-1875 Salvatore Cilella, 2024-01-12. Emory Upton 1839-1881 was thrust into the Civil War immediately upon graduation from the United States Military Academy at West Point in May of 1861. He was wounded three times during the war. He participated in nearly every major battle in the Eastern Theater including Fredericksburg Gettysburg and Spotsylvania where he led a prominent attack on entrenched Confederate positions a signal of Upton's brilliance as an officer and of his military creativity that foreshadowed his later work in revising the Army's tactics. Upton was mustered out of service in 1866 and later named commandant of cadets at West Point a position that carved a path for Upton to focus more on Army tactics and reforms. Until now the only lenses through which scholars could

study Upton were two biographies published nearly a century apart but practically identical in scope and treatment. The two volume *Correspondence of Major General Emory Upton* follows Upton through his enrollment at West Point to his extensive Army activities following the Civil War and contains the bulk of his wartime correspondence. Volume one with Upton's Civil War correspondence encompasses both larger battle details and day to day activities in the life of a soldier. His letters reveal a mercurial individual, a humorous person used to suffering and rejoicing who could be flawed and brilliant, vain and humble. These selected letters and reports expertly annotated and gathered from repositories across the country present a more complex human Emory Upton. He is both the clean pure and spotless individual of biographies and the ambitious yet flawed Army officer obsessed with his career. These volumes explore his trials and frustrations as well as his triumphs. Salvatore G Cilella Jr, now retired, was president of the Atlanta Historical Society. He is the author of *Upton's Regulars: The 121st New York Infantry in the American Civil War and Fund Raising for Small Museums in Good Times and Bad*. [Correspondence of Major General Emory Upton, Vol. 2, 1875-1881](#) Salvatore Cilella, 2024-01-12. Emory Upton (1839-1881) was thrust into the Civil War immediately upon graduation from the United States Military Academy at West Point in May of 1861. He was wounded three times during the war. He participated in nearly every major battle in the Eastern Theater including Fredericksburg, Gettysburg, and Spotsylvania where he led a prominent attack on entrenched Confederate positions, a signal of Upton's brilliance as an officer and of his military creativity that foreshadowed his later work in revising the Army's tactics. Upton was mustered out of service in 1866 and later named commandant of cadets at West Point, a position that carved a path for Upton to focus more on Army tactics and reforms. Until now, the only lenses through which scholars could study Upton were two biographies published nearly a century apart but practically identical in scope and treatment. The two volume *Correspondence of Major General Emory Upton* follows Upton through his enrollment at West Point to his extensive Army activities following the Civil War and contains the bulk of Emory Upton's wartime correspondence. Volume two collects Upton's foreign correspondence and observations on military tactics and Army reform. At the behest of U.S. Army Commanding General William T. Sherman, Upton was sent on a tour to study the armies of Asia and Europe and more specifically the German army after conclusion of the Franco-Prussian War. This tour resulted in the publication of his monumental *The Armies of Europe and Asia*, which warned that the U.S. Army was woefully below the standards of European nations and between Upton's death in 1881 and the turn of the twentieth century, military policy was fiercely debated in both the military and popular press. Upton's ideas on reform were often central to the arguments and his letters and writings provoked a wide range of discussion over military and inevitably civilian issues. These selected letters and reports expertly annotated and gathered from repositories across the country present a more complex human Emory Upton. He is both the clean pure and spotless individual of Michie's biographies and the ambitious yet flawed Army officer obsessed with his career. These volumes explore his trials and frustrations as well as his triumphs. Salvatore G Cilella, now retired, was president of the

Atlanta Historical Society He is the author of *Upton's Regulars: The 121st New York Infantry in the American Civil War* and *Fund Raising for Small Museums in Good Times and Bad* Power and Complacency Phillip T. Lohaus, 2021-07 Introduction Russia Iran China The United States Conclusions **McClellan's War** Ethan S. Rafuse, 2011-11-23 An important book that rescues George B. McClellan's military reputation. Chronicles bold, brash and full of ambition. George Brinton McClellan seemed destined for greatness when he assumed command of all the Union armies before he was 35. It was not to be. Ultimately deemed a failure on the battlefield by Abraham Lincoln, he was finally dismissed from command following the bloody battle of Antietam. To better understand this fascinating, however flawed character, Ethan S. Rafuse considers the broad and complicated political climate of the earlier 19th Century. Rather than blaming McClellan for the Union's military losses, Rafuse attempts to understand his political thinking as it affected his wartime strategy. As a result, Rafuse sheds light not only on McClellan's conduct on the battlefields of 1861-62 but also on United States politics and culture in the years leading up to the Civil War. Any historian seriously interested in the period will come away from the book with useful material and a better understanding of George B. McClellan. *Journal of Southern History* Exhaustively researched and lucidly written, Rafuse has done an excellent job in giving us a different perspective on Little Mac. *Civil War History* Rafuse's thoughtful study of Little Mac shows just how enthralling this complex and flawed individual continues to be. *Blue Gray* magazine

Surviving Vietnam Bruce Philip Dohrenwend, Nick Turse, Thomas J. Yager, Melanie M. Wall, 2019 Uniquely using historical material and military records as well as personal interviews and clinical diagnoses, *Surviving Vietnam* focuses on veterans' war zone experiences and the development in some of PTSD. It addresses controversies regarding reported rates of PTSD and the importance of exposure to traumatic events compared with pre-war personal vulnerability. *The American Army in Germany, 1918-1923* Dean A. Nowowiejski, 2021-11-15 *The American Army in Germany, 1918-1923: Success against the Odds* by Dean A. Nowowiejski fills a gap in American military and political history through thorough research and a compelling narrative of the Rhineland occupation. After the armistice ended the fighting on the Western Front in World War I, the US Third Army marched into the American occupation zone around the city of Koblenz, Germany, in December 1918. American forces remained there as part of an inter-Allied coalition until early 1923. Nowowiejski reintroduces us to a successful military diplomat, Major General Henry T. Allen, who faced two major challenges: build an efficient army and handle the complexity of working with the Allied powers of France, Britain, and Belgium in the Inter-Allied Rhineland High Commission (IARHC). Allen's ability to balance the interests of the French with those of the occupied Germans made him an indispensable participant in the High Commission. As the French sought revenge and added security against Germany, Allen moderated their actions with diplomatic skill. When the French sent forces into Germany in 1920 and 1921, Allen ensured that the US zone around Koblenz remained free of French interference. These achievements were without the support of the administration and Congress, which had no desire to take part in European affairs. Allen also had to create a competent American army in the Rhineland so that the

Allied powers and the Germans would respect American views and interests He successfully took a large number of new recruits who replaced World War I combat veterans and molded them into a professional fighting force As a result the American Forces in Germany became an exemplar for the entire US Army and a symbol to the Allies and Germans of American power and resolve This force competently accomplished the difficult task of postwar occupation according to the highest international standards The US administration made the decision in 1922 to radically cut back the size of Allen s army and in 1923 to remove all US troops from Germany The author analyzes this withdrawal as a missed opportunity for US leverage on diplomatic developments in Europe

A Bibliography of Military Geography Eugene J. Palka,1988 This four volume document is designed to enhance scholarly research in the area of military geography and to serve as a reference tool It is anticipated that this will meet the research needs of professors and students of military science geography and history along with members of the Armed Forces government officials and planners This bibliography is organized following the accepted scheme for military geography utilizing three main categories systematic topical and regional Volume I is a complete alphabetized list Volume II is organized systematically Volume III is organized topically and Volume IV collects regional sources

A Military History of the New World Disorder, 1989-2022 Jonathan M. House,2025-05-06 The collapse of the Soviet Union in 1989 freed the world of the political and military perils and imperatives of the Cold War But it also introduced a whole new constellation of risks and challenges as Jonathan M House brings into sharp relief in A Military History of the New World Disorder 1989 2022 the third and final volume in his comprehensive trilogy of military developments around the globe since the Second World War What followed the breaking of the Cold War s grip on global affairs was not so much a new world order as a new world disorder as the United States and its allies suddenly found themselves without the sort of coherent grand strategy previously deployed to contain the Soviet Union Focusing largely but not exclusively on the US House surveys subsequent developments in military strategy and operations the processes by which politicians and military leaders of the major powers designed organized resourced and then employed military forces to conduct or deter conflicts His overview ranges from conflicts in Iraq and Afghanistan to American interventions in Panama Somalia former Yugoslavia and Haiti Israel vs Hezbollah in Lebanon and the resurgence of the Russian military in Syria Georgia and Ukraine Throughout House provides a compelling analysis of recent military developments including the strengths and weaknesses of employing precision guided munitions counter insurgency techniques and other controversial methods of current warfare His work reveals the complex relationship between national political decisions to commit armed forces to conflicts and the results on the battlefield and offers a timely perspective on military power and practice in the current day
