Bastions of the Believers Yoginder Sikand,2005 The emergence of radical Islamist movements in various parts of the world the rise and fall of the Taliban in Afghanistan the 9 11 attacks widespread vilification spearheaded by Hindutva groups all these and more have made madrasas a much talked about institution Focussing on the madrasas of India Bastions of the Believers seeks to critically interrogate sensationalist and stereotypical images of the madrasas by highlighting their diversity and the complex social roles that they play in the lives of many Muslims Madrasas as a rule represent a conservative form of theology and jurisprudence that is in many ways ill suited to a modern pluralistic society Much of what is taught in madrasas is outdated and unscientific the Deoband madrasa for instance still insists that the sun revolves around the earth and it has special seating arrangements for invisible jinns Yet obscurantism need not necessarily lead to militancy and hostility against others For instance in the decades leading to India s independence the Deobandis representing an extreme form of religious conservatism insisted on Hindu Muslim amity and a joint struggle for a free and united India It is this integrated view of madrasas and a more liberal and open understanding of Islam and indeed of all faiths which Yoginder Sikand seeks to promote for he believes this is one of the principal duties confronting committed believers if we have to learn to live together despite our differences Bastions of the Believers covers a wide range of thought provoking issues from the origins and development of the institution to critiques of madrasa curricula and the alleged links between madrasas and

Islamist militancy making this a must read for all those interested in creating and preserving a just social order *Modern Arabic* Clive Holes, 2004 The revised and updated edition of *Modern Arabic* takes this authoritative concise linguistic description of the structure and use of modern Arabic to an invaluable new level Clive Holes traces the development of the Arabic language from Classical Arabic the written language used in the 7th century for the Qur'an and poetry through the increasingly symbiotic use of Modern Standard Arabic or MSA the language of writing and formal speech and dialectal Arabic the language of normal conversation He shows how Arabic has been shaped over the centuries by migration urbanization and education giving us a balanced dispassionate and accurate picture of the structures functions and varieties of the contemporary Arabic language Holes explains the structural characteristics phonology morphology syntax semantics and lexical and stylistic developments that the majority of the dialects share as distinguished from Modern Standard Arabic He also shows how native speakers use both types of Arabic for different purposes with MSA being the language of power and control as used on television and in political speeches and the dialects serving as the language of intimacy and domesticity He further shows how MSA and spoken dialects are not as compartmentalized as one might be led to believe *Modern Arabic* illustrates the use of the Arabic language in real life whether in conversation news bulletins and newspaper articles serious literature or song This new edition takes into account research published in several areas of Arabic linguistics since the first edition was published in 1995 It includes more extensive comment on the North African Arabic vocabulary of Modern Standard Arabic more information about mixed varieties of written Arabic that are not in MSA especially in Egypt updated references explanations and many new examples All Arabic is transcribed except for an appendix presenting the Arabic alphabet and script Students of the Arabic language will find *Modern Arabic* without peer as will those general linguists who are interested in discovering how Arabic compares structurally and sociolinguistically with European languages **World Englishes in the Arab Gulf States** Kay Gallagher, 2025-04-29 Kay Gallagher gathers insightful research from across the lower Arabian gulf to uncover the richness and diversity of World Englishes within the contemporary Arab Gulf states Her volume presents novel research from this emerging nexus of rapid economic social and linguistic development The countries of the lower Arabian Gulf Bahrain Kuwait Oman Qatar Saudi Arabia and the United Arab Emirates have to varying degrees harnessed English as an internal working language and as a means to communicate globally Gulf countries that have not featured much in the WE literature to date are highlighted in this volume including Bahrain and Kuwait and the use of English in the emerging colossus of Saudi Arabia is examined Novel insights from more prominent locations are presented here for the first time including the use of English to counter negative Islamic stereotypes during the FIFA World Cup 2022 in Qatar and its role in ensuring safety in a multilingual high risk industry in the UAE New research into the challenges encountered in English medium higher education in Oman and Kuwait is reported also The linguistic features of Gulf English are explored and the interplay and tensions between Arabic and English and other

languages are addressed The Englishes of expatriate populations in the Gulf are examined including the English identity of majority and minority resident transnational groups The issue of whether a distinctive variety of Gulf English has emerged in this multilingual melting pot characterized by transience and flux is debatable and the establishment of Gulf English as an endonormative new variety remains elusive This book will appeal to those with an interest in World Englishes in general as well as those who are interested in the roles and varieties of English in use in this globally unique and rapidly evolving context The six states of the Lower Gulf Bahrain Kuwait Oman Qatar Saudi Arabia and the United Arab Emirates UAE form an economic and political alliance known as the Gulf Cooperation Council GCC The region's oil rich economies have attracted millions of migrant workers both blue collar and white collar from East and West Transnational workers have brought linguistic diversity along with multiple varieties of English to this traditionally Arabic speaking region amplifying an increased internal demand for English such that English is shifting in the Gulf from a foreign language to a lingua franca

The Hadrami Diaspora Leif Manger, 2010-09-01 The Hadramis of South Yemen and the emergence of their diasporic communities throughout the Indian Ocean region are an intriguing facet of the history of this region's migratory patterns In the early centuries of migration the Yemeni or Hadrami traveler was both a trader and a religious missionary making the migrant community both a trade diaspora and a religious diaspora This tradition has continued as Hadramis around the world have been linked to networks of extremist Islamic inspired movements Osama bin Laden leader of Al Qaeda and descendant of a prominent Hadrami family as the most infamous example However communities of Hadramis living outside Yemen are not homogenous The author expertly elucidates the complexity of the diasporic process showing how it contrasts with the conventional understanding of the Hadrami diaspora as an unchanging society with predefined cultural characteristics originating in the homeland Exploring ethnic social and religious aspects the author offers a deepened understanding of links between Yemen and Indian Ocean regions including India Southeast Asia and the Horn of Africa and the emerging international community of Muslims
