Aratus Phaenomena Cambridge Classical Texts And Commentaries:

Aratus: Phaenomena Aratus,2004-06-10 The Phaenomena is a didactic epic poem modelled on Hesiod s Works and Days and cleverly updated to appeal to contemporary readers interested in new trends in Greek poetry philosophy and science Aratus invokes a beneficent Stoic Zeus who has created the constellations and their movements to help men follow the progress of the solar year and also provides a great variety of signs in sky air earth and sea as warnings of weather changes This volume presents for the first time in English an edition of the poem with a full introduction a facing translation and a line by line commentary The introduction explains the literary and scientific background the characteristic features of Aratus language style and metre and the transmission of the text to the end of the Middle Ages The commentary gives help with the content of the poem and aims to discuss and resolve the many problems of text and interpretation caused by Aratus innovative use of language The text is based on a new reading of the MSS including one not used before BOOK JACKET

Phaenomena Aratos,1997 The Apocrypha through History Edmon L. Gallagher,2025-03-19 The deuterocanonical books otherwise called the Apocrypha have been a part of Christian Bibles for as long as there has been a Christian Bible For just as long there have been disputes about their authority Are they canonical Scripture or merely edifying literature These opposing positions can be found in the Church Fathers of the fourth and fifth centuries who in turn influenced the entire subsequent discussion The deuterocanonical books were almost always considered beneficial often canonical though there emerged with the Reformation in the sixteenth century Christian writers who disputed even the value of these books suggesting that they might pose dangers to the faithful The Apocrypha through History surveys the entire history of this issue with a concentration on materials in Hebrew Greek and Latin for the earlier period or English and German for the later period Edmon L Gallagher explores the origins of the deuterocanonical books and their reception in Judaism and Christianity with separate chapters on the New Testament the patristic period the Latin West the Greek East the Reformation and the English Bible At each stage the book investigates who considered the deuterocanonical books to be fully canonical or not and why The Apocrypha through History provides a thorough yet accessible examination of one aspect of the history of the Bible concluding with a chapter reflecting on whether it makes a difference if one s bible includes the deuterocanonical books

Reading Between the Letters of the Gospels Mark C. Kiley,2024-01-26 What if the texts of the canonical Gospel authors provide commentary alongside the texts they created That is the interpretative question pursued in many of these essays that supplement the collection done in 2012 for Wipf and Stock Taking a cue from Aratos and Vergil among others these studies point to configurations of letters that reference some aspect of the topic dealt with in already integral words in the main text Attention to letters sprinkled throughout a passage may uncover integral words on their own but the beholder wanting Through this lens one may trace the formative influence of the letters Yhwh on Isaiah and Matthew hear more echoes of Homer and Pindar in Mark observe extensive engagement with Aratos in Luke Acts and the descriptor beloved used of Judas

in John Through this lens one may detect that Matthew and Luke focused on the Pentateuch as a whole when they supplement Mark The intercalated letters of the Gospel writers names in the Farewell Discourse of John also suggest that he self consciously works within the lineup that we now know This reading strategy is an art as much as a science but when used responsibly it opens a new question within traditional redactional investigations The Rhetoric of Explanation in Lucretius' De rerum natura Daniel Markovic, 2008-08-31 Alleged incompatibility of Epicurus philosophy with rhetoric has led modern scholars to isolate rhetorical procedures in Lucretius De rerum natura and regard them as non Epicurean accessory features This study of Lucretius rhetorical procedures is based on a wider understanding of the term rhetoric not limited to the genre of oratory In a fresh discussion of the guestions of provenance and the role of the most important formal procedures of exposition in De rerum natura the author argues that instead of injecting rhetorical strategies from non Epicurean sources Lucretius in fact intensified rhetorical elements already present in the work of Epicurus These elements are used for the purpose of explanation and function as cognitive and mnemonic aids for the reader Apocryphal Prophets and Athenian Poets Gregory R. Lanier, 2024-11-01 The first comprehensive analysis of non canonical influences Jewish non Jewish and early Christian on the formation of the New Testament writings In Apocryphal Prophets and Athenian Poets Noncanonical Influences on the New Testament Gregory R Lanier presents in one volume an overarching compendium and analysis of over five hundred relevant instances of non Old Testament influence on the New Testament across three categories Jewish non Jewish mostly Greco Roman and early Christian pre canonical The abundance of non canonical influences on the New Testament testifies to the breadth of apostolic cultural engagement and the scope and pace of information exchange in the early Christian circles This comprehensive work will allow scholars and students to give closer attention to the sheer complexity of the crisscrossing lines of direct and indirect influences on the New Testament Scriptures

Metamorphosis, Landscape, and Trauma in Greco-Roman Myth Esther Eidinow, 2025-09-30 This study explores the hidden histories offered by Greco Roman myths of metamorphosis and what they can reveal about the lived experience of ancient men and women It investigates the role of the body and the embodied experiences of emotions in these stories arguing that these narratives of transformation allow us to glimpse aspects of our historical subjects which in other sources remain largely unseen In these narratives of metamorphosis we discover ancient worldviews they disclose the perceived inter relationships of human non human and more than human entities They show us that the human body was understood not only as a part of an extended network of beings but also to consist of and interact with the same substances that were believed to comprise the surrounding landscapes earth air fire and water By grouping together stories according to these elements this study highlights the patterns that underline different metamorphoses comparing the experiences of male and female protagonists These stories it argues express risks of transgressions both for individuals and for the wider community They tell us about the dangers that were perceived to be inherent in social roles and in relations with the gods they describe

bodies both at risk and of risk And among those risks are extreme emotions appearing as both cause and result of these startling bodily changes These are narratives of the body that capture one of its most ephemeral aspects the experience of intense even traumatic emotions in which a person and the world around them comes to seem transformed Drawing on psychological research this study suggests that these stories evoke experiences that persist across time and place conveying an experience of the emotional body that speaks to us still An open access title available under the terms of a CC BY NC ND 4 0 licence Markers of Allusion in Archaic Greek Poetry Thomas J. Nelson,2023-05-25 Presents a new view of literary history by demonstrating how the earliest known Greek poets signposted their allusions to tradition The Cosmos in Ancient Greek Religious Experience Efrosyni Boutsikas,2020-10-29 Reconstructs ancient rituals in their day night season combining them with relevant mythology and astronomical observations to understand the ritual s cosmological links

Roman Theories of Translation Siobhán McElduff, 2013-08-29 For all that Cicero is often seen as the father of translation theory his and other Roman comments on translation are often divorced from the complicated environments that produced them The first book length study in English of its kind Roman Theories of Translation Surpassing the Source explores translation as it occurred in Rome and presents a complete culturally integrated discourse on its theories from 240 BCE to the 2nd Century CE Author Siobh n McElduff analyzes Roman methods of translation connects specific events and controversies in the Roman Empire to larger cultural discussions about translation and delves into the histories of various Roman translators examining how their circumstances influenced their experience of translation This book illustrates that as a translating culture a culture reckoning with the consequences of building its own literature upon that of a conquered nation and one with an enormous impact upon the West Rome s translators and their theories of translation deserve to be treated and discussed as a complex and sophisticated phenomenon Roman Theories of Translation enables Roman writers on translation to take their rightful place in the history of translation and translation theory Teaching Through Song in Antiquity Matthew E. Gordley, 2011 While scholars of antiquity have long spoken of didactic hymns no single volume has defined or explored this phenomenon across cultural boundaries in antiquity In this monograph Matthew E Gordley provides a broad definition of didactic hymnody and examines how didactic hymns functioned at the intersection of historical circumstances and the needs of a given community to perceive itself and its place in the cosmos and to respond accordingly Comparing the use of didactic hymnody in a variety of traditions this study illuminates the multifaceted ways that ancient hymns and psalms contributed to processes of communal formation among the human audiences that participated in the praise either as hearers or active participants The author finds that in Greek Roman Jewish and Christian contexts many hymns and prayers served a didactic role fostering the ongoing development of a sense of identity within particular communities God as Creator in Acts 17:24 Jennifer Marie Creamer, 2017-08-25 The Areopagus speech of Acts provides a helpful study of how Paul both engaged and confronted the contemporary culture of his day to present the message of

Christianity to his hearers in Athens How does Paul as a Jew contextualize the message for his audience of Stoic and Epicurean philosophers in Athens on the topic of God as Creator in Acts 17 24 Paul touches on a subject of contentious debate between Stoics and Epicureans when he identifies God as Creator Stoics believed in a creating deity something akin to Plato's demiurge of the Timaeus Epicureans ridiculed such an idea By using the identification of God as Creator Paul engages a common controversy between schools of philosophy The Oxford Handbook of Biblical Narrative Danna Nolan Fewell, 2016 The Oxford Handbook of Biblical Narrative is a state of the art anthology that highlights biblical narrative s aesthetic characteristics its ethical and religious appeal its organic qualities as communal literature its witness to social and political negotiation and its uncanny power to affect readers and hearers across disparate time frames and global communities The Cambridge Companion to the Age of Attila Michael Maas, 2015 This book considers the great cultural and geopolitical changes in western Eurasia in the fifth century CE It focuses on the Roman Empire but it also examines the changes taking place in northern Europe in Iran under the Sasanian Empire and on the great Eurasian steppe Attila is presented as a contributor to and a symbol of these transformations Cleomedes' Lectures on Astronomy Cleomedes, 2004-01-19 At some time around 200 A D the Stoic philosopher and teacher Cleomedes delivered a set of lectures on elementary astronomy as part of a complete introduction to Stoicism for his students The result was The Heavens Caelestia the only work by a professional Stoic teacher to survive intact from the first two centuries A D and a rare example of the interaction between science and philosophy in late antiquity This volume contains a clear and idiomatic English translation the first ever of The Heavens along with an informative introduction detailed notes and technical diagrams This important work will now be accessible to specialists in both ancient philosophy and science and to readers interested in the history of astronomy and cosmology but with no knowledge of ancient Greek Simplicius on the Planets and Their Motions Alan C. Bowen, 2012-11-29 The book contends that the digression ending Simplicius In de caelo 2 12 is not a proper history of early Greek planetary theory but a creative atempt to show that to accept Ptolemy's planetary hypotheses one need not Paul in Athens Clare K. Rothschild, 2014-11-26 Paul s visit to repudiate Aristotle's argument that the cosmos is eternal Athens in particular the Areopahus speech is one of the most well known excerpts of early Christian literature It is the most significant speech by Paul to a Gentile audience in Acts functioning as a literary crest of the overall narrative Yet critical analysts also describe it as an ad hoc blend of Green and Jewish elements In this study Clare K Rothschild examines how the nexus of popular second century traditions crystallizing around the Cretan prophet Epimenides explains these seemingly miscellaneous and impromptu aspects of the text Her investigation exposes correspondences between Epimenidea and the Lukan Paul not limited to the altar to an unknown god and the saying In him we live and move and have our being 17 28a concluding that in addition to popular philosophical ideals the episode of Paul in Athens utilizes popular religious topoi to reinforce a central narrative aim The Rhetoric of Interruption Daniel Lynwood Smith, 2012-08-31 Why are so many

speakers interrupted in Luke and in Acts For nearly a century scholars have noted the presence of interrupted speech in the Acts of the Apostles but explanations of its function have been limited and often contradictory A more effective approach involves grounding the analysis of Luke Acts within a larger understanding of how interruption functions in a wide variety of literary settings An extensive survey of ancient Greek narratives epics histories and novels reveals the forms frequency and functions of interruption in Greek authors who lived and wrote between the eighth century B C E and the second century C E This comparative study suggests that the frequent interruptions of Jesus and his followers in Luke 4 28 Acts 4 1 7 54 57 13 48 etc are designed both to highlight the pivotal closing words of the discourses and to draw attention to the ways in which the early Christian gospel was received In the end the interrupted discourses are best understood not as historical accidents but as rhetorical exclamation points intended to highlight key elements of the early Christian message and their varied Literary Territories Scott Fitzgerald Johnson, 2016 Literary Territories argues that the reception by Jews and Gentiles literature of Late Antiquity shared a defining aesthetic sensibility which treated the classical inhabited world the oikoumene as a literary metaphor for the collection and organization of knowledge Cosmic Christology in Paul and the Pauline School Geurt Hendrik van Kooten, 2003 How did the understanding of Jesus as the universal Son of Man of Apocalyptic Judaism develop into the notion of a cosmic god the cosmic Christ George van Kooten traces the earliest encounters between antiquity and Christianity
