Mackey, Dr Albert G Mackey appears as author of this Encyclopedia of Freemasonry and its Kindred Sciences which being a library in itself superseded most of the Masonic works which have been tolerated by the craft chiefly because none better could be obtained Here is a work which fulfils the hope which sustained the author through ten years literary labor that under one cover he would furnish every Mason who might consult its pages the means of acquiring a knowledge of all matters connected with the science the philosophy and the history of his order Up to the present time the modern literature of Freemasonry has been diffuse lumbering unreliable and out of all reasonable proportions There is in Mackey's Encyclopaedia of Masonry well digested well arranged and confined within reasonable limits all that a Mason can desire to find in a book exclusively devoted to the history the arts science and literature of Masonry This is volume two out of four and covering the letters D to L *Tell el-Borg II* James K. Hoffmeier, 2019-04-09 This is the second and final volume of scientific and interdisciplinary reports on the excavations and research conducted at Tell el Borg north Sinai between 1998 and 2008 written by the scholars and specialists who worked on the site under the direction of Professor James K Hoffmeier This volume focuses on the cemetery areas which yield more than a dozen tombs typically made of mud brick some of which were constructed for a single occupant and some of which were larger tombs that accommodated multiple family members Included is a treatment of an area of public space featuring a temple and a well

among other things and a study of the geological results of the nearby ancient Ballah Lakes that offers new data on the history of the Nile distributary that flowed by Tell el Borg The balance of the work deals with specialty reports including the faunal and botanical remains the clay coffins and elite stones A concluding chapter offers a synthesis of the decade of work and ties together the finds published in both volumes In addition to the editor the contributors to this volume include Stephen Moshier Bahaa Gayed Gregory D Mumford Scott D Haddow Mark Janzen Thomas W Davis Rexine Hummel Hesham M Hussein Carole McCartney Michelle A Loyet Louise Bertini and Salima Ikram

The Wide Lens in Archaeology Allan Gilbert, Justin Lev-Tov, Paula Wapnish, 2017-06-01 This book honors the memory of Brian Hesse a scholar of Near Eastern archaeology a writer of alliterative and punned publication titles and an accomplished amateur photographer Hesse specialized in zooarchaeology but he influenced a wider range of excavators and ancient historians with his broad interpretive reach He spent much of his career analyzing faunal materials from different countries in the Middle East including Iran Yemen and Israel and his publications covered themes particular to animal bone studies such as domestication ancient market economics as well as broader themes such as determining ethnicity in archaeology The essays in this volume reflect the breadth of his interests Most chapters share an Old World geographic setting focusing either on Europe or the Middle East The topics are diverse with the majority discussing animal bones as was Hesse's specialization but some take a nonfaunal perspective related to the problems with which Hesse grappled The volume is also broad in temporal scope ranging from Neolithic Iran to early Medieval England and it addresses theoretical matters as well as methodological innovations including taphonomy and the history of computers in zooarchaeology Several of the essays are direct revisits to inspirations from or extensions of Hesse's own research All the contributions reflect his intense interest in social questions about antiquity the theme of social archaeology informed much of Brian Hesse's thinking and it is why his work made such an impact on those working outside his own disciplinary research

Publications in Archeology, 1974 The North American Journals of Prince Maximilian of Wied Prince Alexander Philipp Maximilian of Wied, 2014-04-09 Few historical chronicles are as informative and eloquent as the journal written by Prince Maximilian of Wied as a record of his journey into the North American interior in 1833 following the route Lewis and Clark had taken almost thirty years earlier Maximilian's memorable descriptions of topography Native peoples and natural history were further brought to life through the now familiar watercolors and sketches of Karl Bodmer the young Swiss artist who accompanied him The first of the three volumes of the North American Journals recounts the prince's journey from Europe to St Louis then the edge of the frontier Volume II vividly narrates his experiences on the upper Missouri and offers an unparalleled view of the region and the peoples native to it In these pages we accompany Maximilian as he travels far up the Missouri River to Fort McKenzie a trading post some 2 500 river miles from St Louis near what is now Fort Benton Montana The handsome oversize volume not only reproduces this historic document but also features every one of Maximilian's illustrations more than 200 in all including nearly 50 in color from the original journal now housed at Joslyn Art Museum in Omaha Nebraska Maximilian recorded detailed observations of flora fauna geology and climate From his unique scientifically trained perspective he also undertook a serious field study of the cultures and languages of the central and northern Great Plains Indians he encountered His journal contains important firsthand descriptions of tribal social customs religious rituals material culture and art as well as an account of Native interactions with Euro Americans engaged in the then burgeoning fur trade This book is published with the assistance of the National Historical Publications and Records Commission *Lightning Warrior* Matthew G. Looper, 2003-12-01 Using epigraphic iconographic and stylistic analyses this study explores the integrated political religious meanings of Quirigua's monumental sculptures during the eighth century A D reign of the city's most famous ruler K'ak Tiliw In particular Matthew Looper focuses on the role of stelae and other sculpture in representing the persona of the ruler not only as a political authority but also as a manifestation of various supernatural entities with whom he was associated through ritual performance publisher description *Library Journal* Melvil Dewey, Richard Rogers Bowker, L. Pylodet, Charles Ammi Cutter, Bertine Emma Weston, Karl Brown, Helen E. Wessells, 2005 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **The Ethics of Anthropology and Amerindian Research** Richard J. Chacon, Rubén G. Mendoza, 2011-12-15 The decision to publish scholarly findings bearing on the question of Amerindian environmental degradation warfare and or violence is one that weighs heavily on anthropologists This burden stems from the fact that documentation of this may render descendant communities vulnerable to a host of predatory agendas and hostile modern forces Consequently some anthropologists and community advocates alike

argue that such culturally and socially sensitive and thereby politically volatile information regarding Amerindian induced environmental degradation and warfare should not be reported This admonition presents a conundrum for anthropologists and other social scientists employed in the academy or who work at the behest of tribal entities This work documents the various ethical dilemmas that confront anthropologists and researchers in general when investigating Amerindian communities The contributions to this volume explore the ramifications of reporting and specifically of non reporting instances of environmental degradation and warfare among Amerindians Collectively the contributions in this volume which extend across the disciplines of archaeology anthropology ethnohistory ethnic studies philosophy and medicine argue that the non reporting of environmental mismanagement and violence in Amerindian communities generally harms not only the field of anthropology but the Amerindian populations themselves

Native Americans State by State Rick Sapp, 2018-10-16

Native Americans State by State details the history of the tribes associated with every state of the Union and the provinces of Canada from past to present Each state entry contains its own maps and timeline The 2010 census identified 5.2 million people in the United States as American Indian or Alaskan Natives less than 2% of the overall population of nearly 309 million In Canada the percentage is 4% 1.1 million of a total population of around 34 million Most of these people live on reservations or in areas set aside for them in the nineteenth century The numbers are very different from those in the sixteenth century when European colonists brought disease and a rapacious desire for land and wealth with them from the Old World While estimates vary considerably it seems safe to estimate the native population as being at least 10 million Ravaged by smallpox chicken pox measles and what effectively amounted to genocide this number had fallen to 600 000 in 1800 and 250 000 in the 1890s Those who were left often had been moved many miles away from their original tribal lands

Native Americans State by State is a superb reference work that covers the history of the tribes from earliest times till today examining the early pre Columbian civilizations the movements of the tribes after the arrival of European colonists and their expansion westwards and the reanimation of Indian culture and political power in recent years It covers the area from the Canadian Arctic to the Rio Grande and the wide range of cultural differences and diverse lifestyles that exist Illustrated with regional maps and a dazzling portfolio of paintings photographs and artwork it provides a dramatic introduction not only to the history of the 400 main tribes but to the huge range of American Indian material culture
