Sihra, 2018-11-19 This book locates the theatre of Marina Carr within a female genealogy that revises the patriarchal origins of modern Irish drama The creative vision of Lady Augusta Gregory underpins the analysis of Carr s dramatic vision throughout the volume in order to re situate the woman artist as central to Irish theatre For Carr writing is more about the things you cannot understand than the things you can and her evocation of pastures of the unknown forms the thematic through line of this work Lady Gregory s plays offer an intuitive lineage with Carr which can be identified in their use of language myth landscape women the transformative power of storytelling and infinite energies of nature and the Otherworld This book reconnects the severed bridge between Carr and Gregory in order to acknowledge a foundational status for all women in Irish theatre **British Books in Print** ,1985 *British Paperbacks in Print* ,1985 *The Best Books for Academic Libraries* ,2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers

D. H. Lawrence and Ambivalence in the Age of Modernity Gaku Iwai, 2024-05-01 D H Lawrence is renowned for his scathing criticism of the ruling class industrialisation of the country and wartime patriotism However his texts bear the imprint of contemporary dominant ideologies and discourses of the period Comparing Lawrence s texts to various major and minor contemporary novels journal articles political pamphlets and history books this book aims to demonstrate that Lawrence s texts are ambivalent his texts harbour the dynamism of conflicting power struggles between the subversive and the reactionary For example in some apparently apolitical texts such as *The White Peacock* and *Movements in European History* reactionary ideologies and wartime propaganda are embedded Some texts like *Lady Chatterley s Lover* are intended to be a radical critique of the period wherein it was composed but they also bear discernible traces of the contemporary frame of reference that they intend to subvert Focusing on Lawrence s stories and novels set in the mining countryside and the works composed under the impact of the First World War this book establishes that Lawrence s texts in fact consist of multiple layers that are often in conflict with each other serving as a testimony to the age of modernity **Marina Carr and Greek Tragedy** Salomé Paul, 2024-03-26 Marina Carr and Greek Tragedy examines the feminist transposition of Greek tragedy in the theatre of the contemporary Irish dramatist Marina Carr Through a comparison of the plays based on classical drama with their ancient models it investigates Carr s transformation not only of

the narrative but also of the form of Greek tragedy As a religious and political institution of the 5th century Athenian democracy tragedy endorsed the sexist oppression of women Indeed the construction of female characters in Greek tragedy was entirely disconnected from the experience of womanhood lived by real women in order to embody the patriarchal values of Athenian democracy Whether praised for their passivity or demonized for showing unnatural agency and subjectivity women in Greek tragedy were conceived to re assert the supremacy of men Carr s theatre stands in stark opposition to such a purpose Focusing on women s struggle to achieve agency and subjectivity in a male dominated world her plays show the diversity of experiencing womanhood and sexist oppression in the Republic of Ireland and the Western societies more generally Yet Carr s enduring conversation with the classics in her theatre demonstrates the feminist willingness to alter the founding myths of Western civilisation to advocate for gender equality **The Mississippi Quarterly** ,1979 Astounding Wonder John Cheng,2012-03-19 When physicist Robert Goddard whose career was inspired by H G Wells s War of the Worlds published A Method of Reaching Extreme Altitudes the response was electric Newspaper headlines across the country announced Modern Jules Verne Invents Rocket to Reach Moon while people from around the world including two World War I pilots volunteered as pioneers in space exploration Though premature Goddard s rocket alas was only imagined the episode demonstrated not only science s general popularity but also its intersection with interwar popular and commercial culture In that intersection the stories that inspired Goddard and others became a recognizable genre science fiction Astounding Wonder explores science fiction s emergence in the era s pulps colorful magazines that shouted from the newsstands attracting an extraordinarily loyal and active audience Pulps invited readers not only to read science fiction but also to participate in it joining writers and editors in celebrating a collective wonder for and investment in the potential of science But in conjuring fantastic machines travel across time and space unexplored worlds and alien foes science fiction offered more than rousing adventure and romance It also assuaged contemporary concerns about nation gender race authority ability and progress about the place of ordinary individuals within modern science and society in the process freeing readers to debate scientific theories and implications separate from such concerns Readers similarly sought to establish their worth and place outside the pulps Organizing clubs and conventions and producing their own magazines some expanded science fiction s community and created a fan subculture separate from the professional pulp industry Others formed societies to launch and experiment with rockets From debating relativity and the use of slang in the future to printing purple fanzines and calculating the speed of spaceships fans enthusiastic industry revealed the tensions between popular science and modern science Even as it inspired readers imagination and activities science fiction s participatory ethos sparked debates about amateurs and professionals that divided the worlds of science fiction in the 1930s and after *Speaking of Writing* Nicholas Delbanco,1990 Essays on the art of writing by some of the nation s finest writers *American Doctoral Dissertations* ,1985 **J.R.R. The Foreign Woman in British Literature Marilyn D. Button,Toni Reed,1999-11-30 While England has been strengthened by a proud isolationism she has simultaneously been enriched by the economic social and political complexities that have emerged as people of different ethnic and cultural backgrounds have moved within her borders or when her own citizens have emigrated among those foreigners to live or rule This book explores the foreign element in English culture and the attempt by English writers from the early 19th to the mid 20th century to portray their complex and often ambiguous responses to that doubly foreign element among them the foreign woman While being foreign may begin with national or ethnic difference the contributors to this book expand it to include other forms of alienation from a dominant culture resulting from gender race class ideology or temperament The many factors shaping English national identity including British imperialism immigration patterns English family and social structures and English common law have been shaped by gender related issues Though not a prominent literary figure the foreign woman in England has received increasingly critical attention in recent years as a psychological and sociological phenomenon By beginning with Byron in the early 19th century and concluding with Lawrence Durrell in the 20th century this study contributes to a more comprehensive vision of the foreign woman as she is portrayed by a number of British authors including Shelley Wordsworth Charlotte Bront Elizabeth Barrett Browning Wilkie Collins George Eliot Joseph Conrad D H Lawrence and Anita Brookner
