Romanesque Tadhg O'Keeffe,2024-02-28 This book presents a fresh perspective on eleventh and twelfth century Irish
architecture and a critical assessment of the value of describing it and indeed contemporary European architecture in
general as Romanesque Medieval Irish Architecture and the Concept of Romanesque is a new and original study of medieval
architectural culture in Ireland The book s central premise is that the concept of a Romanesque style in eleventh and twelfth
century architecture across Western Europe including Ireland is problematic and that the analysis of building traditions of
that period is not well served by the assumption that there was a common style Detailed discussion of important buildings in
Ireland a place marginalised within the Romanesque model reveals the Irish evidence to be intrinsically interesting to
students of medieval European architecture for it is evidence which illuminates how architectural traditions of the Middle
Ages were shaped by balancing native and imported needs and aesthetics often without reference to Romanitas This book is
for specialists and students in the fields of Romanesque medieval archaeology medieval architectural history and medieval
