A Reader's Guide to Contemporary Literature William Swan Sonnenschein, 1896 **Thomas Aquinas's Summa Theologiae** Brian Davies, 2014-06-18 Following a scholarly account of Thomas Aquinas's life Davies explores his purposes in writing the Summa Theologiae and works systematically through each of its three Parts He also relates their contents and Aquinas's teachings to those of other works and other thinkers both theological and philosophical The concluding chapter considers the impact Aquinas's best known work has exerted since its first appearance and why it is still studied today Intended for students and general readers interested in medieval philosophy and theology Davies's study is a solid and reflective introduction both to the Summa Theologiae and to Aquinas in general **The Nomadic Object** Christine Göttler, Mia Mochizuki, 2017-11-06 At the turn of the sixteenth century the notion of world was dramatically being reshaped leaving no aspect of human experience untouched The Nomadic Object The Challenge of World for Early Modern Religious Art examines how sacred art and artefacts responded to the demands of a world stage in the age of reform Essays by leading scholars explore how religious objects resulting from cross cultural contact defied national and confessional categories and were re contextualised in a global framework via their collection exchange production management and circulation In dialogue with current discourses papers address issues of idolatry translation materiality value and the agency of networks The Nomadic Object demonstrates the significance of religious systems from overseas logistics to philosophical underpinnings for a global art history Contributors are Akira Akiyama James Clifton Jeffrey L Collins Ralph Dekoninck Dagmar Eichberger Beate Fricke Christine Göttler Christiane Hille Margit Kern Dipti Khera Yoriko Kobayashi Sato Urte Krass Evonne Levy Meredith Martin Walter S Melion Mia M Mochizuki Jeanette Favrot Peterson Rose Marie San Juan Denise Marie Teece Tristan Weddigen and Ines Gupanov **Recruiting the Ancients for the Creation Debate** Andrew J. Brown, 2023-10-05 A careful and unbiased analysis of how thinkers from church history interpreted the creation narrative in Genesis How literally are we meant to take the creation week of Genesis 1 In this polarizing debate contemporary interpreters invoke great theologians from history to support their own side whether that be a young Earth theistic evolution or any other view The problem lies in trying to force ancient authors into contemporary boxes as Andrew J Brown shows in this thought provoking volume Covering Philo Basil Augustine Thomas Aquinas Martin Luther John Calvin John Wesley and more Brown carefully interprets great thinkers readings of Genesis 1 in their intellectual contexts He then assesses how these authors have been subject to cherry picking and misappropriation in the trenches of the modern creation debate By studying the intellectual history of the church in this way to revisit rather than recruit the ancients we can enrich our own biblical interpretation Irenic and magisterial Brown's guide will interest both scholars of historical theology and anyone invested in the creation debate [Reader's Guide to Periodical Literature Supplement](#), 1914 These vols contain the same material as the early vols of Social sciences humanities index **Two Guides for the Journey** Sheryl Overmyer, 2016-10-27

Thomas Aquinas and William Langland inherited the dynamic metaphor of journeying as a fundamental concept of the Christian life and harnessed it to animate their magisterial texts the *Summa Theologiae* and *Piers Plowman* Christians journey back to God consists in the way of charity yet it is far from straightforward or sequential Rather it is impinged upon by epistemic ambiguity our willful continued habits of resistance and inherent limitations on our perfection In sum the virtues are divine gifts humanly received treasure in earthen vessels Together these authors show the complexity we ourselves will find along this life s journey enable our understanding to appreciate that complexity and in limited ways cultivate in us the virtues they describe

Lest We Lose Love Scherto Gill, 2023-04-18 Few are aware that since antiquity there has always been the philosophy of love at the core of Western culture It articulates what makes life meaningful and worthwhile and how we can live a good life together through an ethic of love This book fills this significant gap not only reconnecting the reader with such important wisdom and more crucially also reorienting our socio economic institutions and collective actions towards more loving and caring and more concerned with the qualities of our lived experiences By re discovering the gifts of love we may challenge the existing systemic dehumanisation and draw from knowledge and understanding already present in our culture This is timely because the global crises we are facing are catastrophic especially when it comes to climate change Therefore we must respond from a place of love rather than fear Whether it is reducing the use of fossil fuels lowering greenhouse emission choosing the right food to eat or advocating for structural transformation our concerted endeavours start with an appropriate appreciation of the nature of our well being which includes the planet s well ness This book highlights a clear pathway forward to ensure collective healing and co flourishing with nature we must practise the art of loving

Speaking in Tongues: A Critical Historical Examination, Volume 2 Philip E. Blosser, Charles A. Sullivan, 2023-08-21 In three carefully researched volumes this ground breaking study examines the gift of tongues through two thousand years of church history Starting in the present

and working back in time these volumes consider 1 the modern redefinition of tongues as a private prayer language 2 the church's perennial understanding of tongues as ordinary human languages and 3 the Corinthian tongues which in light of Jewish liturgical tradition turn out to have been a Semitic liturgical language requiring bilingual interpreters This second volume tracks the perception and practice of tongues back through the first eighteen hundred years of church history demonstrating that tongue speaking was always active but puzzlingly different from today's glossolalia From Pope Benedict XIV's detailed treatise in the 1700s it works back through long forgotten scholastic and patristic debates to the earliest Christian writers such as Irenaeus No other resource on the subject approaches the depth and scope of the present volume

Reconciling Law and Morality in Human Rights Discourse Willy Moka-Mubelo, 2016-12-13 In this book I argue for an approach that conceives human rights as both moral and legal rights The merit of such an approach is its capacity to understand human rights more in terms of the kind of world free and reasonable beings would like to live in rather than simply in terms of what each individual is legally entitled to While I acknowledge that every human being has the moral entitlement to be granted living conditions that are conducive to a dignified life I maintain at the same time that the moral and legal aspects of human rights are complementary and should be given equal weight The legal aspect compensates for the limitations of moral human rights the observance of which depends on the conscience of the individual and the moral aspect tempers the mechanical and inhumane application of the law Unlike the traditional or orthodox approach which conceives human rights as rights that individuals have by virtue of their humanity and the political or practical approach which understands human rights as legal rights that are meant to limit the sovereignty of the state the moral legal approach reconciles law and morality in human rights discourse and underlines the importance of a legal framework that compensates for the deficiencies in the implementation of moral human rights It not only challenges the exclusively negative approach to fundamental liberties but also emphasizes the necessity of an enforcement mechanism that helps those who are not morally motivated to refrain from violating the rights of others Without the legal mechanism of enforcement the understanding of human rights would be reduced to simply framing moral claims against injustices From the moral legal approach the protection of human rights is understood as a common and shared responsibility Such a responsibility goes beyond the boundaries of nation states and requires the establishment of a cosmopolitan human rights regime based on the conviction that all human beings are members of a community of fate and that they share common values which transcend the limits of their individual states In a cosmopolitan human rights regime

Reeves,2019-10-01 Creeds and confessions throughout Christian history provide a unique vantage point from which to study the Christian faith To this end Donald Fairbairn and Ryan Reeves construct a story that captures both the central importance of creeds and confessions over the centuries and their unrealized potential to introduce readers to the overall sweep of church history The book features texts of classic creeds and confessions as well as informational sidebars **The Oxford Handbook of English Law and Literature, 1500-1700** Lorna Hutson,2017 This

Handbook triangulates the disciplines of history legal history and literature to produce a new interdisciplinary framework for the study of early modern England For historians of early modern England turning to legal archives and learning more about legal procedure has seemed increasingly relevant to the project of understanding familial and social relations as well as political institutions state formation and economic change Literary scholars and intellectual historians have also shown how classical forensic rhetoric formed the basis both of the humanist teaching of literary composition poetry and drama and of new legal epistemologies of fact finding and evidence evaluation In addition the post Reformation jurisdictional dominance of the common law produced new ways of drawing the boundaries between private conscience and public accountability This Handbook brings historians literary scholars and legal historians together to build on and challenge these and similar lines of inquiry Chapters in the Handbook consider the following topics in a variety of combinations forensic rhetoric poetics and evidence humanist and legal learning political and professional identities at the Inns of Court poetry drama and visual culture local governance and legal reform equity conscience and religious law legal transformations of social and affective relations property marriage witchcraft contract corporate personhood authorial liability libel censorship press regulation rhetorics of liberty slavery torture and due process nation sovereignty and international law the British archipelago colonialism empire

more satisfying than dry tedious doctrinal textbooks This book surveys 12 pieces of historical fiction that feature notable Christian thinkers They include an illustrated children s book about St Irenaeus of Lyons a novel about Martin Luther s Reformation a screenplay focusing on Dietrich Bonhoeffer and even a story about Pope Francis narrated in popular manga style Rather than arcane literary analyses this book provides thoughtful and sometimes painful interviews with the authors of the covered works Most interviewees are little known or emerging writers Some have published their work with a church or denominational press others with a major publishing empire or popular print on demand platforms Storytellers reflect on their literary choices and the contexts of their writing sharing what modern Christians can learn from historical religious fiction

A Companion to the Latin Medieval Commentaries on Aristotle's Metaphysics Gabriele Galluzzo, Fabrizio Amerini, 2013-10-31 Few philosophical books have been so influential in the development of Western thought as Aristotle s Metaphysics For centuries Aristotle s most celebrated work has been regarded as a source of inspiration as well as the starting point for every investigation into the structure of reality Not surprisingly the topics discussed in the book the scientific status of ontology and metaphysics the foundations of logical truths the notions of essence and existence the nature of material objects and their properties the status of mathematical entities just to mention some are still at the centre of the current philosophical debate and are likely to excite philosophical minds for many years to come This volume reconstructs in fourteen chapters a particular phase in the long history of the Metaphysics by focusing on the medieval reception of Aristotle s masterpiece specifically from its introduction in the Latin West in the twelfth through fifteenth centuries Contributors include Marta Borgo Matteo di Giovanni Amos Bertolacci Silvia Donati Gabriele Galluzzo Alessandro D Conti Sten Ebbesen Fabrizio Amerini Giorgio Pini Roberto Lambertini William O Duba Femke J Kok and Paul J J M Bakker
