*The Architecture of Mott B. Schmidt* Mark A. Hewitt,1991      *The Architecture of McKim, Mead, and White* Allan Greenberg,Michael George,2013-06-21 For forty years 1880 1920 the now legendary architectural firm led by Charles Follen McKim William Rutherford Mead and Stanford White was responsible for many of the finest buildings in America The Boston Public Library Pennsylvania Station in New York and the campus of Columbia University are among the national landmarks designed by these men and their partners Bert Fenner and William Mitchell Kendall This anthology of plans elevations and details of major works of McKim Mead and White is an invaluable reference source and inspiration for the student of architecture As Allan Greenberg writes in his introduction The legacy of McKim Mead and White is so vast that both its outer boundaries and its inner characteristics are only barely discernible As architects of some of the most important buildings in the history of American architecture the work of the office of McKim Mead and White reached a level of quality which has never been equaled by any large office before or after Charles Follen McKim cofounded the firm with William Rutherford Mead in 1878 along with his brother in law William B Bigelow One year later Bigelow left the firm and was replaced by young Stanford White Among the commissions that McKim worked on were the Villard Houses the Boston Public Library the Chicago World s Fair Columbian Exposition and the Agriculture Building the Columbia University campus Symphony Hall in Boston alterations to the White House the Pierpont Morgan Library Pennsylvania Station and the University Club in New York Stanford White who ironically had replaced Charles McKim at the firm of Gambrell and Richardson in New York joined the partnership in September 1879 A young enthusiastic man who could draw like a house afire in the words of McKim White was responsible for many of the firm s great architectural projects including Madison Square Garden the Washington Arch the Judson Memorial Church what is now Bronx Community College and the accompanying Hall of Fame of Great Americans the Tiffany Building and the Gorham Building His life and career ended abruptly at the age of fifty three when he was murdered on the roof of Madison Square Garden in a well publicized shooting incident in 1906      *The Classical Orders of Architecture* Robert Chitham,2007-03-14 This is the only publication that presents a modern interpretation of the Classical Orders The new edition of this successful title now includes the proportions in both metric and imperial measurements to make the orders more accessible and to provide a valuable reference for designers The inclusion of both 100 part and 96 part systems of proportion is underpinned by an essay on James Gibbs one of the 18th century authors of standardized proportioning systems and his influence in America Along with additional plates this book gives a clear introduction to those not familiar with the classical genre and is an easy to follow guide which assists architects interior designers and conservators with the quality of their design      *An Architectural Guidebook to Brooklyn* Francis Morrone,2001
