A History of the World in 10 1/2 Chapters Julian Barnes, 2010-02-23 Beginning with an unlikely stowaway's account of life on board Noah's Ark *A History of the World in 10 1/2 Chapters* presents a surprising subversive fictional history of earth told from several kaleidoscopic perspectives Noah disembarks from his ark but he and his Voyage are not forgotten they are revisited in other centuries and other climes by a Victorian spinster mourning her father by an American astronaut on an obsessive personal mission We journey to the Titanic to the Amazon to the raft of the Medusa and to an ecclesiastical court in medieval France where a bizarre case is about to begin This is no ordinary history but something stranger a challenge and a delight for the reader's imagination Ambitious yet accessible witty and playfully serious this is the work of a brilliant novelist

A History of the World in 10 1 2 Chapters by Julian Barnes is neither easy to understand nor to classify. Both problems, comprehensibility and classification, emerge from the same root. The book's complex structure: The 10 1 2 chapters seem to be autonomous episodes rather than parts of the same novel. Therefore, some critics have argued that it was rather a gathering of prose pieces, some fiction, others rather like essays, and no homogeneous piece of prose. On the other hand, they have also discovered elements which do connect the chapters. Therefore, one could conclude that if A History does not fit into established patterns of the genre novel, it must be a post-modern novel as the linking elements make it more than just a collection of prose pieces. The other main problem, comprehensibility, is tightly connected with the issues structure and categorisation. Given that readers have discovered connecting elements and found that they add common meaning to the single chapters, they might still have unanswered questions. Does such a complicated structure imply a certain meaning that is beyond the content of the single stories and their common motifs? Many post-modern books do not provide explanations, but A History of the World in 10 1 2 Chapters does. The half chapter called Parenthesis is the key to the novel. It contains clear, unambiguous statements about three major issues: history, love, and truth. Although it does not explain the novel, it philosophises about its main topics and thus implies the significance of the book's literary patterns. I have chosen to examine Parenthesis because it contains essential thoughts which make the book more accessible and are above all interesting in their own right. Consequently, I will consider the contents of the chapters as well as their linking elements only in regard to Parenthesis. This also holds true for literary aspects such as genre transgression and the established concept of historical novel, which will be part of the argument but are not the object of this paper. Nevertheless, it is indispensable to introduce the whole novel, that is every chapter, in order to get an impression of the diversity as well as of common underlying issues which are then reflected in Parenthesis.
