**A Known Scribbler** Frances Burney, 2002-09-19 Frances Burney's journals and letters composed between 1768 and 1839 contain a unique account of the creative social and commercial ambitions and achievements of an eighteenth century female writer. Focusing on Burney's literary life, this selection from her journals and correspondence combines Burney's own accounts of the creation of her popular novels, her aspirations for her dramatic writings, and her reflections upon her letters and journals as literary productions in their own right. In addition to Burney's letters and journal entries, this Broadview edition includes selections from Burney's Brief Reflections relative to the Emigrant French Clergy 1793 and Memoirs of Doctor Burney 1832, letters by family and friends about her literary activities, and contemporary reviews of The Diary and Letters of Madame d'Arblay.

**A Celebration of Frances Burney** Lorna J. Clark, 2009-10-02 On the two hundred and fiftieth anniversary of the birth of the writer Frances Burney 1752-1840, a window to her memory was placed in the arched recess of stained glass that graces Poets' Corner. Novelist, playwright, and diarist Frances Burney is one of the few women accorded such an honour. She joins the likes of Jane Austen, Charlotte Brontë, and George Eliot, who might in some ways be seen as her literary heirs. Burney's journey to recognition on the stage of the world has been a long one, crowned finally with triumph. The service marked the mid-point of a two-day conference in which various aspects of Burney's life and achievement were canvassed. Her journals and letters, her novels and plays, both comedies and tragedies, her life, family, and context were all given serious scholarly treatment. This volume includes the papers presented at the conference, which cover the many facets of a remarkable career and represent the broad spectrum of scholarly approaches to the entire opus of Frances Burney. It shows how far Burney has come from being dismissed as a minor precursor to Jane Austen to being recognized in her own right as a powerful, complex, and influential writer whose works had considerable impact on her own and subsequent generations.

**Women and the Material Culture of Death** Beth Fowkes Tobin, 2017-07-05 Examining the compelling and often poignant connection between women and the material culture of death, this collection focuses on the objects women make, the images they keep, the practices they use or are responsible for, and the places they inhabit and construct through ritual and custom. Women's material practices ranging from wearing mourning

jewelry to dressing the dead stitching memorial samplers to constructing skull boxes collecting funeral programs to collecting and studying diseased hearts making and collecting taxidermies and making sculptures honoring the death are explored in this collection as well as women's affective responses and sentimental labor that mark their expected and unexpected participation in the social practices surrounding death and the dead The largely invisible work involved in commemorating and constructing narratives and memorials about the dead from family members and friends to national figures calls attention to the role women as memory keepers for families local communities and the nation Women have tended to work collaboratively making collecting and sharing objects that conveyed sentiments about the deceased whether human or animal as well as the identity of mourners Death is about loss and many of the mourning practices that women have traditionally and are currently engaged in are about dealing with private grief and public loss as well as working to mitigate the more general anxiety that death engenders about the impermanence of life

**The Feminization of Fame 1750-1830** C. Brock, 2006-07-11 This book addresses the literary cultural and historical questions surrounding the reconceptualization of fame between 1750 1830 It examines genres from history writing to literature public and private memoirs to political treatises in English and in French in order to explore The age of personality's obsession with instantaneous publicity

The Bluestockings Susannah Gibson, 2024-07-23 One of The New Yorker's Best Books of the Year Intimate social history New York Times Book Review An illuminating group portrait of the eighteenth century women who dared to imagine an active life for themselves in both mind and spirit In England in the 1700s a woman who was an intellectual spoke out or wrote professionally was considered unnatural After all as the wisdom of the era dictated a clever woman if there were such a thing would never make a good wife But a circle of women called the Bluestockings did something extraordinary coming together in glittering salons to discuss and debate as intellectual equals with men they fought for women to be educated and to have a public role in society In this intimate and revelatory history Susannah Gibson delves into the lives of these pioneering women Elizabeth Montagu established one of the most famous salons of the Bluestocking movement with everyone from royalty to revolutionaries clamoring for an invitation to attend Her younger sister Sarah Scott imagined a female run society and created a women's commune Meanwhile Hester Thrale who also had a salon saved her husband's brewery from bankruptcy and after being widowed married a man she loved Italian Catholic and not of her social class Other women made a name for themselves through their publications including Catharine Macaulay author of an eight volume history of England and Frances Burney author of the audacious novel Evelina In elegant prose Gibson reveals the close and complicated relationships between these women how they supported and admired each other and how they sometimes judged and exploited one another Some rebelled quietly while others defied propriety with adventurous and scandalous lives With moving stories and keen insight The Bluestockings uncovers how a group of remarkable women slowly built up an eviscerating critique of their male dominated world that society was not yet ready to

hear **Reimagining Illness** Heather Meek, 2023-11-15 In eighteenth century Britain the worlds of literature and medicine were closely intertwined and a diverse group of people participated in the circulation of medical knowledge In this pre professionalized milieu several women writers made important contributions by describing a range of common yet often devastating illnesses In *Reimagining Illness* Heather Meek reads works by six major eighteenth century women writers Jane Barker Anne Finch Lady Mary Wortley Montagu Hester Lynch Thrale Piozzi Mary Wollstonecraft and Frances Burney alongside contemporaneous medical texts to explore conditions such as hysteria melancholy smallpox maternity consumption and breast cancer In novels poems letters and journals these writers drew on their learning and literary skill as they engaged with and revised male dominated medical discourse Their works provide insight into the experience of suffering and interrogate accepted theories of women s bodies and minds In ways relevant both then and now these women demonstrate how illness might be at once a bodily condition and a malleable construct full of ideological meaning and imaginative possibility *Reimagining Illness* offers a new account of the vital period in medico literary history between 1660 and 1815 revealing how the works of women writers not only represented the medicine of their time but also contributed meaningfully to its developments **Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur** ,2003

*Inheritance Matters* Suzanne Lenon, Daniel Monk, 2023-09-21 This book makes a compelling case for placing the social and legal practices of inheritance centre stage to make sense of fundamental questions of our time Drawing on historical literary sociological and legal analysis this rich collection of original interdisciplinary and international contributions demonstrates how inheritance is and has always been about far more than the set of legal processes for the distribution of wealth and property upon death The contributions range from exploring the intractable tensions underlying family disputes and the legal and political debates about taxation to revisiting literary plots in the past and presenting a contemporary artistic challenge of heirship With an introduction that presents a critical mapping of the field of inheritance studies this collection reveals the complexity of ideas about passing on legacies and heirlooms troubles some of the enduring consequences of charitable bequests family money and estate planning and deepens our understanding of the intimate and political practices of inheritance *The Cambridge Companion to English Novelists* Adrian Poole, 2009-12-10 A survey of the most important British novelists of the past 250 years for students of British fiction **Mere Bagatelles: Women's Diaries from Ireland, 1760-1810** Amy Prendergast, 2024-09-13 Honorable Mention in the ACIS Robert Rhodes Prize for Books on Literature 2024 An Open Access edition of this book will be available on publication on the Liverpool University Press website and the OAPEN library Engaging with previously overlooked diaries by women in Ireland written between 1760 and 1810 this book opens new avenues concerning authorship and female agency transforming our understanding of women s contributions to both literature and culture The result of extensive archival research across multiple international archives this book presents an entirely new corpus that demonstrates the creativity and literary capabilities of women in this period

The surviving diaries showcase these women's engagement with a form that allowed them to explore their subjectivity and to experiment with the presentation of self. This book demonstrates how these bagatelles should be treated as literary works that were shaped by and in turn influenced wider cultures of reading and writing underlining the generic fluidity at play. The diary form forces a dismantling of the neat binaries of public and private of imaginative and non imaginative prose writing complicating our understandings of each. The content of these diaries prompts a re-evaluation of the very contours of Irish writing and what we consider as literature while allowing us to rediscover the importance of manuscripts to our explorations of literary culture.

*Approaching Cultures Through English*, 2007      **Editing Women's Writing, 1670-1840** Amy Culley, Anna M. Fitzner, 2017-09-18

This edited volume is the first to reflect on the theory and practice of editing women's writing of the 18th century. The list of contributors includes experts on the fiction drama poetry life writing diaries and correspondence of familiar and lesser known women including Jane Austen Delarivier Manley Eliza Haywood and Mary Robinson. Contributions examine the demands of editing female authors more familiar to a wider readership such as Elizabeth Montagu Mary Robinson and Helen Maria Williams as well as the challenges and opportunities presented by the recovery of authors such as Sarah Green Charlotte Bury and Alicia LeFanu. The interpretative possibilities of editing works published anonymously and pseudonymously are considered across a range of genres. Collectively these discussions examine the interrelation of editing and textual criticism and show how new editions might transform understandings not only of the woman writer and women's literary history but also of our own editorial practice.

*Women and Gift Exchange in Eighteenth-Century Fiction* Linda Zionkowski, 2016-05-26

This book analyzes why the most influential novelists of the long eighteenth century centered their narratives on the theory and practice of gift exchange. Throughout this period fundamental shifts in economic theories regarding the sources of individual and national wealth along with transformations in the practices of personal and institutional charity profoundly altered cultural understandings of the gift's rationale purpose and function. Drawing on materials such as sermons conduct books works of political philosophy and tracts on social reform Zionkowski challenges the idea that capitalist discourse was the dominant influence on the development of prose fiction. Instead by shifting attention to the gift system as it was imagined and enacted in the formative years of the novel the volume offers an innovative understanding of how the economy of obligation shaped writers' portrayals of class and gender identity property and community. Through theoretically informed readings of Richardson's *Clarissa* and Sir Charles Grandison Burney's *Cecilia* and *The Wanderer* and Austen's *Mansfield Park* and *Emma* the book foregrounds the issues of donation reciprocity indebtedness and gratitude as it investigates the conflicts between the market and moral economies and analyzes women's position at the center of these conflicts. As this study reveals the exchanges that eighteenth century fiction prescribed for women confirm the continuing power and importance of gift transactions in the midst of an increasingly commercial culture. The volume will be essential reading for scholars of the eighteenth century novel economic literary criticism women and

gender studies and book history      **Literary Salons Across Britain and Ireland in the Long Eighteenth Century** Amy Prendergast, 2015-08-25 The eighteenth century salon played an important role in shaping literary culture while both creating and sustaining transnational intellectual networks Focusing on archival materials this book is the first detailed examination of the literary salon in Ireland considered in the wider contexts of contemporary salon culture in Britain and France      **Canadian Books in Print**, 2001      *Poetic Sisters* Deborah Kennedy, 2013 In *Poetic Sisters* Deborah Kennedy explores the personal and literary connections among five early eighteenth century women poets Anne Finch Countess of Winchelsea Elizabeth Singer Rowe Frances Seymour Countess of Hertford Sarah Dixon and Mary Jones Richly illustrated and elegantly written this book brings the eighteenth century to life presenting a diverse range of material from serious religious poems to amusing verses on domestic life The work of Anne Finch author of *A Nocturnal Reverie* provides the cornerstone for this well informed study But it was Elizabeth Rowe who achieved international fame for her popular religious writings Both women influenced the Countess of Hertford who wrote about the beauty of nature centuries before modern Earth Day celebrations Sarah Dixon a middle class writer from Kent had a strong moral outlook and stood up for those whose voices needed to be heard including her own Finally Mary Jones who lived in Oxford was praised for both her genius and her sense of humor *Poetic Sisters* presents a fascinating female literary network revealing the bonds of a shared vocation that unites these writers It also traces their literary afterlife from the eighteenth century to the present day with references to contemporary culture demonstrating how their work resonates with new generations of readers      **Canadian Books in Print. Author and Title Index**, 1975      **The Hyperlocal in Eighteenth- and Nineteenth-Century Literary Space** Nicholas Birns, 2019-08-26 This book examines literary representations of hyperlocal spaces that subvert the idea of grounded and organic spatial identities Figures such as the pond the scientific particle and Wedgwood creamware often go unnoticed but they exemplify important shifts in culture and aesthetics in the eighteenth and nineteenth centuries The *Hyperlocal in Eighteenth and Nineteenth Century Literary Space* argues that these objects as well as locations such as alcoves in remote shires city inns and mountain retreats were portrayed by writers in the late eighteenth and early to mid nineteenth centuries as gambits that challenged cultural hegemonies It shows that the hyperlocal space or object though particular reaches beyond itself affording an elasticity that can allow those things that seem beneath notice to reveal broader cultural significance      **The Self and It** Julie Park, 2009-10-21 Objects we traditionally regard as mere imitations of the human dolls automata puppets proliferated in eighteenth century England's rapidly expanding market culture During the same period there arose a literary genre called the novel that turned the experience of life into a narrated object of psychological plausibility Park makes a bold intervention in histories of the rise of the novel by arguing that the material objects abounding in eighteenth century England's consumer markets worked in conjunction with the novel itself a commodity fetish as vital tools for fashioning the modern self As it constructs a history for the psychology of objects *The Self*

and It revises a story that others have viewed as originating later in an age of Enlightenment things have the power to move affect people s lives and most of all enable a fictional genre of selfhood The book demonstrates just how much the modern psyche and its thrilling projections of artificial life derive from the formation of the early novel and the reciprocal activity between made things and invented identities that underlie it
