A Guide to the UNCITRAL Arbitration Rules Clyde Croft, Christopher Kee, Jeff Waincymer, 2013-04-25 The first version of the UNCITRAL Arbitration Rules was endorsed by the General Assembly of the United Nations in December 1976 Now considered one of UNCITRAL s greatest successes the rules have had an extraordinary impact on international arbitration as both instruments in their own right and as guides for others The Iran US Claims Tribunal for example employs a barely modified version of the rules for all claims and many multilateral and bilateral foreign investment treaties adopt the UNCITRAL Rules as an arbitral procedure The Rules are so pervasive and the consequences of the new version potentially so significant that they cannot be ignored This commentary on the Rules brings the official documents together in one volume and includes the insights and experiences of the Working Group that are not included in the official reports **The Cambridge Companion to International Arbitration** C. L. Lim, 2021-10-21 A convenient single volume introduction to international arbitration written by experts including discussion of the latest developments *The Plurality and Synergies of Legal Traditions in International Arbitration* Nayla Comair Obeid, Stavros Brekoulakis, 2024-02-20 The cultural diversity characterizing international arbitration today is as much a source of enrichment as it is sometimes a source of practical difficulties affecting both the arbitration procedure and the application of substantive law Consequently it is becoming clearer that the critical project for international arbitration in the immediate future will be how to best answer the fundamental question of cultural pluralism This book presents an informative and well argued discussion on many aspects of international arbitration clarifying the main procedural and substantive similarities and differences between different legal systems around the world focusing not only on common and civil law traditions but also the role played by regional legal traditions including Islamic law and African perspectives With contributions from fifty arbitrators counsel and academics representing every region of the world where international arbitration has secured a foothold the volume consolidates and synthesizes a series of discussions sponsored by the Chartered Institute of Arbitrators that took place in Dubai Johannesburg and Paris in 2017 The essays identify and address the cultural distinctions that affect the key ever present factors which have forged the character of modern international arbitration such as the following the seat of the arbitration and the legal regime to which the arbitration is attached due process which has different and specific meanings in different national legal systems

international standards such as international public policy illegality arbitrability and sanctions the immunity of international arbitrators form of presentation of evidence production of documents oral and written submissions and expert evidence the specific context of international investment arbitration disputes in specific industries or legal areas telecommunications construction mining intellectual property the role of national judges and the legal traditions they embrace throughout and after arbitration proceedings how to incorporate more conciliatory cultural traditions which are notably shared in many African and Asian countries and training and opportunities for the next generation in international arbitration The book is replete with tools and recommendations to ensure synergy and harmony between the different legal traditions that coexist in today's arbitral proceedings All users of arbitration whether the arbitrators themselves lawyers involved as counsel for parties or judges applying arbitration law will greatly appreciate this matchless elucidation of the different systems and alternative ways of presenting the divergent procedures and ways of conducting international arbitrations The book's immeasurable value to arbitration academics goes without saying
