A Matter Of Trust Relationship Struggles:

A Matter of Trust Donna Carroll Batton, Shannon Yarbrough, 2014-03 Suddenly ripped out of her safe happy life at age 16 Carly found herself far from her former home and best friend Trying hard to make the best of a bad situation Carly threw herself into making new friends and fulfilling her dream of trying out for a school play Forming a close bond with a new friend and nurturing a new romance soon had Carly forging a new life in her new surroundings But Carly discovered too soon that something was very wrong with her new friend And this was causing serious problems in her relationship with Jared who was fast becoming very special in her life Carly soon realized the drama on stage was nothing compared to the drama her life was fast becoming She had no idea of the pain and horror that lay ahead *Power of Emotions: On the Affective*

Constitution of Political Struggle Andreas Ventsel, Peeter Selg, 2025-07-11 The emergence of political identities and communities in social media is largely driven by affective responses to current events a tendency facilitated by the dominance of emotionally and visually oriented communication However this mode of community formation leads first to the inherent instability and transience of these groups and second to the oversimplification of complex socio political issues into binary yes no alternatives Within this framework deliberation and argumentation based problem solving become increasingly difficult as discourse is supplanted by emotional reactions that position individuals either for or against an issue Particularly significant is the role of affect and emotion in communication during times of crisis whether in the context of migration the COVID 19 pandemic or the war in Ukraine This affective role is evident in the anchoring of public discourse to personal emotions and the generation and dissemination of hashtags and tags that consolidate diverse phenomena under a unified label Such collective identity coalesces around connective action which is primarily driven either by opposition to the established order or by the reinforcement of a preexisting system s foundations Consequently the emergence of these affective publics must be analyzed within the broader context of power dynamics and evolving forms of identification in the contemporary media sphere forms rooted in shared practices of expression action and interpretation This edited volume will explore the manifestations of affective semiosis meaning making at the socio cultural and discursive levels Cultural context emotional reactions and affective semiosis play a crucial role in shaping how issues related to identity and security are articulated in both domestic and foreign policy as well as in the ways solutions to these challenges are sought By adapting the concept of affective semiosis for the analysis of discursive structures this volume offers an innovative and effective approach to identifying the triggers of emotional reactions in discourse and examining their impact on the construction of political identities fear scenarios misinformation campaigns polarization and other dynamics within networked societies The volume includes both theoretically oriented papers as well as analyses of empirical materials **Organizational Culture, Business-to-Business Relationships, and Interfirm Networks** Arch G. Woodside, 2010-08-18 Provides in depth understanding about business to business B2B and organizational relationships This title includes descriptions on how B2B

networks form function and develop and is for readers who want to delve into how B2B relationships actually work and frequently do not work

 Marc A. Cohen,2023-01-30 Across the social sciences and even in philosophy trust is most often characterized in terms of
 expectations and probabilities This book defends an alternative conception of trust as a moral phenomenon When one person
 trusts another to do something the first relies on the second s commitment s So trust reflects and is a product of agreement
 about the commitments and obligations that bind persons who live and work together These commitments and obligations
 can be implicit but building or rebuilding trust often requires making these commitments and obligations explicit defining the
 terms of cooperation Part 1 argues that this account of trust better captures our actual trust practices and it draws out
 connections with both the philosophy and the social science literatures It also describes the process of creating trust
 relationships with reference to trust invitations Part 2 addresses practical applications of the account defended here in the
 context of social relationships economic systems and within business organizations These applications emphasize the
 material benefits of trust but separate from those Part 2 argues that trust is an intrinsic good so we have moral reason to
 trust The Nature and Practice of Trust will appeal to scholars and advanced students working in ethics social and political
 philosophy and the social sciences Chapter 6 of this book is available for free in PDF format as Open Access from the
