and actions of each cohort during a time when Americans tried to impose gender asymmetry and to undermine the Arapahos hierarchical age relations Fowler examines the Arapaho gender system and its transformations by considering the partnerships between rather than focusing on comparisons of women and men She argues that in particular cohorts partnerships between women and men both in households and in the community shaped Arapahos social and cultural transformations while they struggled with American domination Over time Arapahos both reinforced and challenged Arapaho hierarchies while accommodating and resisting American dominance Fowler shows how in the process of reconfiguring their world Arapahos confronted Americans by uniting behind strategies of conciliation in the early nineteenth century of civilization in the late nineteenth century and of confrontation in the early twentieth century At the same time women and men in particular cohorts were revamping Arapaho politico religious ideas and organizations Gender played a part in these transformations giving shape to new leadership traditions and other adaptations Inyo National Forest (N.F.), Motorized Travel Management ,2009 *21st Century Anthropology: A Reference Handbook* H.
