Daddy Dear Jeff Flagel,2001-01-09 I have never taken anything more seriously than parenting say nothing of doing it alone in a virtual vacuum every day bringing a new challenge problem and occasionally a fantastic event involving one of my boys that I ll remember as long as I live Eric asked me once some time ago if I would do it all again marry his mother again go it alone with two helpless children to care for Even to this day as I look at him and although his brother Travis has been a challenge to say the least when I think of all our triumphs I couldn t imagine living life without them So I guess I didn t really answer the question did I The events in this book are true and they have been written in the hopes that my boys can learn more about their Dad later when they dont want or need anything from me except of course my love and friendship I was married and divorced inside of two years and only six weeks later woke up to the responsibility of raising a 3 year old and 11 month old all by myself I hadnt even adopted Travis yet as his mother would play head games with us both I suppose punishing me for not being his natural father so go figure This book documents in almost a timeline by chapter significant events and the emotional consequences that accompanied most all of them It follows my career and desperation for monetary support early on as well as the boys lives from diapers through young adulthood including childhood adolescence and the incredible task of letting go as they assert their independence It is a journey of love one that I hope my children will understand at some point when and if they take the time to sit and read this story of single fatherhood and of their own young lives

adherence to return to play guidance Athletes their teammates and in some cases coaches and parents may not fully appreciate the health threats posed by concussions Similarly military recruits are immersed in a culture that includes devotion to duty and service before self and the critical nature of concussions may often go unheeded According to Sports Related Concussions in Youth if the youth sports community can adopt the belief that concussions are serious injuries and emphasize care for players with concussions until they are fully recovered then the culture in which these athletes perform and compete will become much safer Improving understanding of the extent causes effects and prevention of sports related concussions is vitally important for the health and well being of youth athletes The findings and recommendations in this report set a direction for research to reach this goal [Congressional Record Index](#) ,1991 Includes history of bills and resolutions
