Townsend George H. Townsend,1867 *Gotham's War within a War* Emily Brooks,2023-10-18 A surprising history unfolded in New Deal and World War II era New York City under Mayor Fiorello La Guardia Throughout the late nineteenth and early twentieth centuries members of the NYPD had worked to enforce partisan political power rather than focus on crime That changed when La Guardia took office in 1934 and shifted the city s priorities toward liberal reform La Guardia s approach to low level policing anticipated later trends in law enforcement including broken windows theory and stop and frisk policy Police officers worked to preserve urban order by controlling vice including juvenile delinquency prostitution gambling and the disorderly establishments that officials believed housed these activities This mode of policing was central to La Guardia s influential vision of urban governance but it was met with resistance from the Black New Yorkers youth and working class women it primarily targeted The mobilization for World War II introduced new opportunities for the NYPD to intensify policing and criminalize these groups with federal support In the 1930s these communities were framed as perils to urban order during the militarized war years they became a supposed threat to national security itself Emily M Brooks recasts the evolution of urban policing by revealing that the rise of law and order liberalism was inseparable from the surveillance militarism and nationalism of war **Skiing** ,1979-01
