Ab Guide To Music Theory Part 2:

The AB Guide to Music Theory Eric Robert Taylor, 1991 *The Songwriting Secrets Of The Beatles* Dominic Pedler, 2010-05-25 Thirty years after The Beatles split up the music of Lennon McCartney Harrison and Starr lives on What exactly were the magical ingredients of those legendary songs Why are they still so influential for today's bands This ground breaking book sets out to explore The Beatles songwriting techniques in a clear and readable style It is aimed not only at musicians but anyone who has ever enjoyed the work of one of the most productive and successful songwriting partnerships of the 20th Century Author Dominic Pedler explores the chord sequences melodies harmonies rhythms and structures of The Beatles self penned songs while challenging readers to enhance their appreciation of the lyrics themselves with reference to the musical context Throughout the book the printed music and lyrics of The Beatles songs appear alongside the text illustrating the author's explanations *The Songwriting Secrets Of The Beatles* is an essential addition to Beatles literature a new and perceptive analysis of both the music and the lyrics written and performed by what Paul McCartney still calls a really good tight little band *The Silver Mask* Olga Yu Soboleva, 2008 A highly significant movement within the Silver Age harlequinade did not surface in Russian high culture until the turn of the twentieth century when it suddenly began to attract the close attention of symbolist authors In the present work an attempt is made to show that the proliferation of the new cultural idiom was indicative of the fundamental concerns of the time and intimately related to the development of artistic thought Although the theme is considered in its cultural totality visual arts literature and drama the work is focused on symbolist poetry It provides a close analysis of the harlequinade verse of Blok and Belyi two leading figures of the movement in whose writings the symbolist theory found its maturity and perfection The poems in question are conceptually centred on the dialectical unity of self and other one of the key notes in the new symbolist outlook This is traced at various levels of poetic representation in the imagery system and the principles of text construction in linguistic features and poetic devices employed by the authors Special attention is given to the sound organization of the poems which heightens considerably the semantic potential of the text **Contemporary Dance Choreography and Spectatorship** Lucía Piquero Álvarez, 2023-12-02 This book offers an approach which unites choreographic and spectatorial perspectives and argues for dance itself its materials its structures as a medium of emotional communication Contemporary dance often seems to contend with issues of understanding regularly being read in languages which alienate it Even if emotion seems a significant part of people's engagement with dance its workings are often surrounded by an air of mysticism Engaging with these issues this study investigates the experience of emotion in Euro American contemporary dance theatre It questions its dependence on the artist's personal emotions and the assumption that it is mediated by representational meaning Instead this book proposes that the emotional import of dance emerges from an interplay between perceptual properties and symbolic elements in an embodied affective cognitive experience This experience includes the background of the spectator as

well as the context of work choreographer performer s and other creative agents **The Visual Music Film** Aimee Mollaghan,2016-01-23 Adopting an interdisciplinary approach The Visual Music Film explores the concept and expression of musicality in the visual music film in which visual presentations are given musical attributes such as rhythmical form structure and harmony *The Routledge Companion to Teaching Music Composition in Schools* Kirsty Devaney,Martin Fautley,Joana Grow,Annette Ziegenmeyer,2023-08-18 The Routledge Companion to Teaching Music Composition in Schools International Perspectives offers a comprehensive overview of teaching composing from a wide range of countries around the world Addressing the current state of composition pedagogy from primary to secondary school levels and beyond the volume explores issues including different curricular and extracurricular settings cultural aspects of composing aesthetics musical creativity the role of technology and assessment With contributors from over 30 countries this volume encompasses theoretical historical empirical and practical approaches and enables comparisons across different countries and regions Chapters by experienced educators composers and researchers describe in depth the practices taking place in different international locations Interspersed with these chapters interludes by the volume editors contextualize and problematize the teaching and learning of composing music The volume covers a range of contexts including formal and informal those where a national curriculum is mandated or where composing is a matter of choice and a range of types styles and genres of musical learning and music making Providing a wide ranging and detailed review of international approaches to incorporating music composition in teaching and learning this volume will be a useful resource for teachers music education researchers graduate and undergraduate students and all those working with children and young people in composing music Journal of the American Musicological Society American Musicological Society,1992 音乐与视觉,2014-10-16
