Yeats Heather C. Martin, 1986-12-20 W B Yeats spent a great deal of his life immersing himself in magical mystical and philosophic studies in order as he claimed to devise a personal system of thought that would leave his imagination free to create as it chose and yet make all that it created or could create part of the one history and that the soul s He succeeded in developing a cohesive metaphysics and one which is surprisingly original While he set it down in a series of philosophical treatises culminating in A Vision it is most clearly elaborated in his plays which breathe life and meaning into the rather obscure statements of the treatises In this book the author traces the history of the soul as it is developed in Yeats s plays She elucidates the underlying system of thought in the drama and establishes its importance to the aim and execution of the plays by drawing attention to a few of the central themes metaphors and symbols through which it is developed The manuscript and the earliest published versions of the plays are indispensable to this study as they retain much of the abstract thought which Yeats eliminated from the later versions Martin traces the development of the metaphors and images which gradually replaced Yeats s abstractions In the process she is able to uncover new meaning in the plays as many subtle and obscure passages become clearly understandable

Native Intelligence Deepika Bahri,2003 A compelling reclamation of the place of aesthetics in postcolonial literature Literature though it may be postcolonial literature is studied and understood largely and often solely in social and political terms In neglecting its aesthetic dimension as this book forcefully demonstrates we are overlooking not only an essential aspect of this literature but even a critical perspective on its sociopolitical function and value In Native Intelligence Deepika Bahri focuses on postcolonial literature s formal and aesthetic negotiations with sociopolitical concerns How Bahri asks do aesthetic

considerations contest the social function of postcolonial literature In answering her book takes on two tasks First it identifies the burden of representation borne by post colonial literature through its progressive politicization Second it draws on Frankfurt School critical theory to reclaim a place for aesthetics in literary representation by closely engaging works of Rohinton Mistry Salman Rushdie and Arundhati Roy Throughout Bahri shows how attention to the aesthetic innovations and utopian impulses of postcolonial works uncovers their complex and uneven relationship to ideology reanimating their potential to make novel contributions to the larger project of social liberation The Reagan Range James E. Shelley in the composition of *Frankenstein* and his skill as a translator of Greek poetry and drama reflecting his urgent concern with Greek culture His contributions to prose are the focus of essays on his letters the subversive notes to Queen Mab and his complex engagement with Jewish culture Shelley s considerable corpus of fragments is well represented in contributions on the later narrative fiction *Athanasio* Prince *Athanasio* and the significant group of unfinished poems including *Mazenghi* *Fiordispina* *Ginevra* and *The Boat on the Serchio* that treat Italian topics Finally there are explorations of subtle though neglected or underestimated works such as *Rosalind and Helen* *The Sensitive Plant* and the verse drama *Hellas* The Neglected Shelley shows that even the poet s apparently slighter works are important in their own right and are richly instructive as expressions of Shelley s developing art of composition and the diverse interests he pursued throughout his career
