expansion undermining our ability to enact these linked strategies and preempt the mounting suffering and dislocation of both humans and nonhumans Abundant Earth urges us to confront the reality that humanity will not advance by entrenching its domination over the biosphere On the contrary we will stagnate in the identity of nature colonizer and decline into conflict as we vie for natural resources Instead we must chart another course choosing to live in fellowship within the vibrant ecologies of our wild and domestic cohorts and enfolding human inhabitation within the rich expanse of a biodiverse living planet
