Zicari, 2010-09-21

According to Francois Bancillon and Won Kim SIGMOD RECORD Vol 19 No 4 December 1990 object oriented databases started in around 1983 Twen seven years later this publication contains the proceedings of the Third International Conference on Object Oriented Databases ICOODB 2010 Two questions arise from this why only the third and what is of interest in the eld of object oriented databases in 2010 The rst question is easy in the 1980s and 1990s there were a number of conferences supporting the c munity the International Workshops on Persistent Object Systems started by Malcolm Atkinson and Ron Morrison the EDBT series and the International Workshop on Database Programming Languages These database oriented c ferences complimented other OO conferences including OOPSLA and ECOOP but towards the end of the last century they dwindled in popularity and ev tually died out In 2008 the First International Conference on Object Databases was held in Berlin In 2009 the second ICOODB conference was held at the ETH in Zurich as a scienti c peer reviewed conference What is particular about ICOODB is that the conference series was est lished to address the needs of both industry and researchers who had an interest in object databases in innovative ways to bring objects and databases together and in alternatives extensions to relational databases The rst conference set the mould for those to follow a combination of theory and practice with one day focusing on the theory of object databases and the second focusing on their practical use and implementation **Unveiling the Digital Nexus: Navigating the Digital Epoch** Pasquale De Marco, Unlock the potential
