Trampled by Unicorns Maelle Gavet, 2020-10-06 A Wall Street Journal Bestseller An insider s revealing and in depth examination of Big Tech s failure to keep its foundational promises and the steps the industry can take to course correct in order to make a positive impact on the world *Trampled by Unicorns* Big Tech s Empathy Problem and How to Fix It explores how technology has progressed humanity s most noble pursuits while also

grappling with the origins of the industry's destructive empathy deficit and the practical measures Big Tech can take to self-regulate and make it right again. Author Maïe Gavet examines the tendency for many of Big Tech's stars to stray from their user-first ideals and make products that actually profoundly damage their customers and ultimately society. Offering an account of the world of tech startups in the United States and Europe from Amazon, Google, and Facebook to Twitter, Airbnb, and Uber to name a few, *Trampled by Unicorns* argues that the causes and consequences of Big Tech's failures originate from four main sources: the Valley's cultural insularity, the hyper-growth business model, the sector's stunning lack of diversity, and a dangerous self-sustaining ecosystem. However, the book is not just an account of how an industry came off the rails but also a passionate call to action on how to get it back on track. Gavet, a leading technology executive and former CEO of Ozon, an executive vice president at Priceline Group, and chief operating officer of Compass, formulates a clear call to action for industry leaders, board members, employees, and consumers: users to drive the change necessary to create better, more sustainable businesses, and the steps Western governments are likely to take should tech leaders fail to do so. Steps that include reformed tax codes, reclassification of platforms as information companies, new labor laws, and algorithmic transparency and oversight. *Trampled by Unicorns* is perfect for anyone with an interest in entrepreneurship, tech, and global commerce, and a hope of technology's all-empowering prospect. An illuminating book full of insights, *Trampled by Unicorns* describes a realistic path forward even as it uncovers and explains the errors of the past. As Gavet puts it, we don't need less tech; we need more empathetic tech. And how that crucial distinction can be achieved by the tech companies themselves driving change as governments actively pave the road ahead. [Platform Economics](#) Cristiano Codagnone, Athina Karatzogianni, Jacob Matthews, 2018-11-23. *Platform Economics* tackles head-on the rhetoric surrounding the so-called sharing economy, which has muddled public debate and has contributed to a lack of policy and regulatory intervention. *Management Communication* James S. and an emergency services fee These aren't taxes strictly speaking The government imposes these administrative and regulatory costs and your wireless provider passes them along to you But the effect is exactly the same What about your cable bill Your power bill Your water bill The cost of a gallon of gas a cab ride a hotel stay and a movie ticket are all inflated by hidden fees How much of what you pay at the pump the box office or the airport is really an indirect tax In a series of short pointed fact laden humorous chapters Tate exposes the vast government shakedown that consumes up to half of your income and also explains where these hidden fees and taxes come from
