Fair and Equitable Treatment and the Fabric of General Principles Fulvio Maria Palombino, 2017-11-27 This book moves from the circumstance whereby currently the obligation to provide fair and equitable treatment FET to foreign investments is included in the majority of international investment agreements and has proved to be the most invoked standard in investor State arbitration Hence it is no overstatement to describe this standard as the basic norm of international investment law Yet both its meaning and normative basis continue to be shrouded in ambiguity and as a consequence to inspire a considerable number of interpretations by legal writers The book s precise aim is to unravel such ambiguity arguing from the idea that FET has become part of the fabric of general international law but has done so by means of a source somewhat neglected in legal doctrine This being the category of general principles peculiar to a certain field of international law i e those principles having their own foundations in the international legal order itself but which through the mediation of the judge end up being shaped according to the features typical of a specific normative field The book as well as having a solid theoretical backdrop as its basis offers a careful and critical analysis of pertinent case law and will prove useful to both scholars and practitioners Fulvio Maria Palombino is Professor of International Law at the Law Department of the University of Naples Federico II and a member of the Executive Board of the European Society of International Law Specific to this book Explains the ICSID practice clearly and concisely Useful in practical terms Excerpts from a review Fair and Equitable Treatment and the Fabric of General Principles is an original and well researched book in which the author challenges a number of conventional wisdoms on FET Among the strengths of the book one can mention the solid discussion of public international law principles relevant to FET and the interesting incursions into domestic law legal systems which play an important role in the understanding of FET components such as due process legitimate expectations or proportionality In particular the section on promises provides a convincing analysis of the issues that arise when the administration makes an assurance or representation to an investor Against the backdrop of the examination of unilateral

acts under public international law Palombino's analysis sheds new light on what ought to be the proper scope of protection under the legitimate expectations doctrine in case of governmental promises clarifying a number of points which have received insufficient attention by arbitral tribunals thus far Michele Potest Attorney with Lvy Kaufmann Kohler Geneva Senior Researcher Geneva Center for International Dispute Settlement CIDS book review in International and Comparative Law Quarterly 2018 67 4 1036 1037 For the full review see <https://doi.org/10.1017/S0020589318000246> ,

Role of RNA Modification in Disease Emanuele Buratti,Amit Bhardwaj,2020-02-03 Application of Most-Favoured-Nation Clauses by Investor-State Arbitral Tribunals Tanjina Sharmin,2020-04-01 This book comprehensively examines various issues regarding the scope of Most Favoured Nation MFN Clauses in International Investment Agreements IIAs and addresses the reform interpretation and enforcement of IIAs with a specific focus on the MFN clause The book begins with a study of the history and evolution of the MFN It then presents a substantive analysis focusing on the drafting style and how it affects the scope of the MFN rules of interpretation and arbitral case law on the scope of the MFN procedural prerequisites to arbitration and jurisdiction of arbitral tribunals and the implications of adopting an expansive approach to the MFN clause The book's argument centres on the need for arbitral tribunals to interpret the MFN in a manner that reflects the expressed intent of the parties This requires taking into consideration the text of the MFN its purpose and the overall context of the IIA rather than relying on values and assumptions that have nothing to do with the original intent of the parties In making this argument the book draws on Articles 31 and 32 of the Vienna Convention on the Law of Treaties and other interpretative rules What sets the book apart is its comprehensive coverage of issues concerning the interpretation and application of the MFN in IIAs At the same time it addresses issues in connection with an expansive interpretation of MFN clauses as well as concerns regarding the legitimacy crisis in investor state arbitration Accordingly it contributes to future Investor State Dispute Settlement ISDS reform while also offering a wealth of theoretical and practical insights for future treaty drafters arbitrators and policymakers *International Investment Law and Arbitration* C.
