Volunteers are central to providing opportunities to play sport whether helping to run sports clubs helping in school sport or at sports events This volume focuses on the volunteers who support clubs Approximately 150 000 sports clubs in the UK are supported by volunteers in roles such as coaches treasurers membership secretaries and other formal roles as well as a myriad of other volunteers who help on a more informal basis This structure of clubs run by volunteers is common to other countries such as Germany Canada Finland and Australia It is a valuable community resource not only for the opportunities it provides for sports participation but also the more general contribution to the quality of communities This club structure has been central to government policy to increase sports participation and has developed from the second half of the 19th century Yet its maintenance relies on a nucleus of core volunteers in each club who take the major roles Recruiting new volunteers especially for these core roles is always difficult Despite central government in the UK having a commitment to developing volunteering clubs are having to adjust to new relationships with local government as funding and subsidy of facility use is reduced Trends in sports participation are away from the traditional team sports and towards more individual participation Club members may demand an experience benchmarked against private or local government providers

regarding the club as providing a service as much as an organisation they contribute to The chapters in this book contribute an international perspective to understanding these issues It will be of great value to community sport leaders and scholars of sport sociology and leisure studies This book was published as a special issue of the International Journal of Sport Policy and Politics Entrepreneurship, Business and Economics - Vol. 1 Mehmet Huseyin Bilgin,Hakan Danis,2016-03-18 This volume of Eurasian Studies in Business and Economics focuses on latest results from entrepreneurship and SME research Human Resources along with a focus on the Tourism industry The first part deals with topics ranging from entrepreneurial intentions social entrepreneurship and technological entrepreneurship to EU policies such as the 7th Framework program Bridging the themes the second part on Human Resources and General Management deals with human capital issues labor force education employer branding and aligning HR practices to knowledge management outcomes The third part in particular concentrates on the tourism industry in exploring innovative marketing strategies WEB 2 0 Challenges tourism product innovation and success in international markets **Treaties in Force** United States.
