Solomon,2012-08-14 Despite the best hopes of the past half century black urban pathologies persist in America The inner cities remain concentrations of the uneducated unemployed underemployed and unemployable Many fail to stay in school and others choose lives of drugs violence and crime Most do not marry leading to single parent households and children without a father figure The cycle repeats itself generation after generation It is easy to argue that nothing works given the policy failures of the past For Lewis D Solomon fatalism is not acceptable A complex and interrelated web of issues plague inner city black males joblessness the failure of public education crime mass incarceration and drugs the collapse of married two parent families and negative cultural messages Rather than abandon the black urban underclass Solomon presents strategies and programs to rebuild lives and revitalize America s inner cities These approaches are neither government oriented nor dependent on federal intervention and they are not futuristic Focusing on rehabilitative efforts Solomon describes workforce development prisoner reentry and the role of nonprofit organizations Solomon s strategies focus on the need to improve the quality of America s workforce through building human capital at the socioeconomic bottom

The goal is to enable more people to fend for themselves thereby weaning them from dependency on public sector handouts
Solomon shows a path forward for inner city black males

Restoring Opportunity Greg J. Duncan, Richard J. Murnane, 2014-01-01 In this landmark volume Greg J Duncan and Richard J Murnane lay out a meticulously researched case showing how in a time of spiraling inequality strategically targeted interventions and supports can help schools significantly improve the life chances of low income children The authors offer a brilliant synthesis of recent research on inequality and its effects on families children and schools They describe the interplay of social and economic factors that has made it increasingly hard for schools to counteract the effects of inequality and that has created a widening wedge between low and high income students Restoring Opportunity provides detailed portraits of proven initiatives that are transforming the lives of low income children from prekindergarten through high school All of these programs are research tested and have demonstrated sustained effectiveness over time and at significant scale Together they offer a powerful vision of what good instruction in effective schools can look like The authors conclude by outlining the elements of a new agenda for education reform Restoring Opportunity is a crowning contribution from these two leading economists in the field of education and a passionate call to action on behalf of the young people on whom our nation s future depends Copublished with the Russell Sage Foundation

Handbook of Education Policy Research Gary Sykes, Barbara Schneider, David N. Plank, 2012-09-10 Co published by Routledge for the American Educational Research Association AERA Educational policy continues to be of major concern Policy debates about economic growth and national competitiveness for example commonly focus on the importance of human capital and a highly educated workforce Defining the theoretical boundaries and methodological approaches of education policy research are the two primary themes of this comprehensive AERA sponsored Handbook Organized into seven sections the Handbook focuses on 1 disciplinary foundations of educational policy 2 methodological perspectives 3 the policy process 4 resources management and organization 5 teaching and learning policy 6 actors and institutions and 7 education access and differentiation Drawing from multiple disciplines the Handbook s over one hundred authors address three central questions What policy issues and questions have oriented current policy research What research strategies and methods have proven most fruitful And what issues questions and methods will drive future policy research Topics such as early childhood education school choice access to higher education teacher accountability and testing and measurement cut across the 63 chapters in the volume The politics surrounding these and other issues are objectively analyzed by authors and commentators Each of the seven sections concludes with two commentaries by leading scholars in the field The first considers the current state of policy design and the second addresses the current state of policy research This book is appropriate for scholars and graduate students working in the field of education policy and for the growing number of
