Applied Econometrics William H. Greene, 2015-12-09 A new title from Routledge this is a four volume collection of cutting edge and foundational research Does an Inclusive Citizenship Law Promote Economic Development? Patrick A. Imam, Mr. Kangni R Kpodar, 2019-01-11 This paper analyzes the impact of citizenship laws on economic development We first document the evolution of citizenship laws around the world highlighting the main features of jus soli jus sanguinis as well as mixed regimes and shedding light on the channels through which they could have differentiated impact on economic development We then compile a data set of citizenship laws around the world Using cross country regressions panel data techniques as well as the synthetic control method and subjecting the results to a battery of tests we find robust evidence that jus soli laws being more inclusive lead to higher income levels than alternative citizenship rules in developing countries though to a less extent in countries with stronger institutional environment **Islamic Economics as Mesoscience** Masudul Alam Choudhury, 2020-11-24 This book presents the building blocks of Islamic economics as meso science offering an in depth study of the Qur'anic worldview of the monotheistic unity of knowledge which is the universal and unique message of Tawhid in the Qur'an This primal ontological premise is formalised in an analytical approach that introduces and unpacks the philosophical concepts of ontology epistemology and phenomenology in relation to the Tawhidi methodological worldview The analysis of Qur'anic logical consistency is then cast in a phenomenological perspective by applying the complete model of the unity of knowledge of the Qur'an in a specific study of the Tawhidi methodological approach to Islamic financial economic theory In doing so it tackles the problems of meso economics given its socio scientific holism in world affairs It hones in on the results of the symbiotic modulation of evolutionary learning processes in the world system of the unity of knowledge and its material embedding across knowledge and knowledge induced space and time dimensions The author poses that Shari'ah is only partial in its scope and excludes an analytical methodological worldview Shari'ah is thus cast in the midst of a meso socio scientific absence of any appertaining methodology The book is a landmark work in the conceptual and applied understanding of Tawhid as the methodological worldview of the monotheistic unity of knowledge in the meso socio scientific realm of everything particularised to Islamic economics Adopting an inter disciplinary view integrating various fields it challenges pervasive Western academic and institutional thinking in terms of economics It will be of interest to students and researchers in Islamic economics religious theory Islamic philosophy development studies and finance *Applied Choice Analysis* David A. Hensher, John M. Rose, William H. Greene, 2015-06-11 A fully updated second edition of this popular introduction to applied choice analysis written for graduate students researchers professionals and consultants *What do Economists Know?* Robert F Garnett Jr, 2002-01-04 A provocatively rethink of the questions of what how and for whom economics is produced Academic economists in the twentieth century have presumed to monopolise economic knowledge seeing themselves as the only legitimate producers and consumers of this highly specialized commodity

Economics Melvin W. Reder,1999 Since the 1930s economists have increasingly emphasized the scientific quantitative side of their field which has directed research to topics that can be elaborated through mathematical models Economist Melvin Reder argues that this ongoing historical shift has been the result of pressure from two directions from society's demand that expert advice be based on scientific findings and from economists themselves who have wanted to view their own profession as a science Economics The Culture of a Controversial Science describes the profession of economics as it has developed in response to these challenges
