

Things You Didn't Know Your Apple Watch Can Do

Your Apple Watch can do much more than you possibly realised. Even if you've ploughed your way through our guides and tutorials, there are still small tips and tricks you might have missed. That's what we'll look at here; little things you might not know your Apple Watch can do, from simple time savers to fantastic features.

Go Back a Page

It's a great trick if you don't know it. To go back to the previous screen on your Apple Watch, tap the top left corner of the watch face. There's usually (but not always), a chevron there to remind you.

Check for New Emails

1 To refresh your email inbox on your Apple Watch, first of all, open the Mail app and navigate to the screen where you choose which inbox to look at. Tap an inbox, or the All Inboxes option.

2 Scroll all the way down on your Digital Crown and at the top of the screen, you'll see 'Checking for Email...'. The watch checks for emails, and the message changes to 'Updated Just Now'.
