Blair Kamin, 2022-11-21 A vividly illustrated collaboration between two of Chicago's most celebrated architecture critics casts a wise and unsparing eye on inequities in the built environment and attempts to rectify them From his high profile battles with Donald Trump to his insightful celebrations of Frank Lloyd Wright and front page takedowns of Chicago mega projects like Lincoln Yards Pulitzer Prize winning architecture critic Blair Kamin has long informed and delighted readers with his illuminating commentary Kamin's newest collection Who Is the City For does more than gather fifty five of his most notable Chicago Tribune columns from the past decade it pairs his words with striking new images by photographer and architecture critic Lee Bey Kamin's former rival at the Chicago Sun Times Together they paint a revealing portrait of Chicago that reaches beyond its glamorous downtown and dramatic buildings by renowned architects like Jeanne Gang to its culturally diverse neighborhoods including modest structures associated with storied figures from the city's Black history such as Emmett Till At the book's heart is its expansive approach to a central concept in contemporary political and architectural discourse equity Kamin argues for a broad understanding of the term one that prioritizes both the shared spaces of the public realm and the urgent need to rebuild Black and brown neighborhoods devastated by decades of discrimination and disinvestment At best he writes in the book's introduction the public realm can serve as an equalizing force a democratizing force It can spread life's pleasures and confer dignity irrespective of a person's race income creed or gender In doing so the public realm can promote the social contract the notion that we are more than our individual selves that our common humanity is made manifest in common ground Yet the reality in Chicago as Who Is the City For powerfully demonstrates often falls painfully short of that ideal

Dialogical Planning in a Fragmented Society Thomas L. Harper,Stanley Stein,2018-02-06 The culmination of a critical study of neo pragmatism philosophy and its application to planning *Dialogical Planning in a Fragmented Society* begins with philosopher Stanley M Stein s examination of neo pragmatism and his thoughts on how it can be useful in the field of environmental design specifically how it can be applied to planning procedures and problems Neo pragmatism is an approach that has been in the past best expressed or implied in the writing of Hilary Putnam Richard Rorty and in particular Donald Davidson John Rawls and Ludwig Wittgenstein Thomas L Harper furthers this tradition by providing the context for this theoretical application from his academic background in economics and management as well as his practical experience with political decision making processes community planning and economic development The result is a fresh synthesis of ideas a new approach to thinking about planning theory and its implications for and relationship with practice Philosopher Michael Walzer has asserted that philosophy reflects and articulates the political culture of its time and politics presents and enacts the arguments of philosophy Similarly the authors view planning theory as planning reflected upon in tranquility away from the tumult of battle and planning practice as planning theory acted out in the confusion of the trenches Each changes the other in a dynamic way and the authors demonstrate the intimate and inextricable link between them *What is Happening in Your Community?* Matthew J. Hanka,2021-05-03 Communities are not static or stationary organisms They are fluid and dynamic and change over time The role of community development in the change and transformation of a community is critical to improving and enhancing the quality of life of the community and its residents This book examines

how community development changes a community and why that change matters while also examining the relationship between community development and social capital When a community improves its social capital change can happen because people can leverage their networks to produce better results for themselves This book also looks at comprehensive community development and collective impact models and several case studies that utilize these models It also looks at how the transformation and revitalization of a neighborhood through new housing creates opportunities for people everywhere and how effective placemaking strategies empower diverse groups of people in a community to reimagine their public spaces and the built environment to be more livable walkable creative and sustainable while fostering greater connections with people in their community [A Guide to Chicago's Murals](#) Mary Lackritz Gray,2001-04 The first definitive handbook to the treasures that can be found all over the city Full color illustrations of nearly two hundred Chicago murals and accompanying entries that describe their history who commissioned them and why how artists collaborated with architects the subjects of the murals and their context
