After Modernity Archaeological Approaches To The Contemporary Past:

After Modernity Rodney Harrison, John Schofield, 2010-07-22 This book summarizes archaeological approaches to the contemporary past and suggests a new agenda for the archaeology of late modern societies The principal focus is the archaeology of developed de industrialized societies during the second half of the twentieth century and the beginning of the twenty first This period encompasses the end of the Cold War and the beginning of the internet age a period which sits firmly within what we would recognize to be a period of lived and living memory Rodney Harrison and John Schofield explore how archaeology can inform the study of this time period and the study of our own society through detailed case studies and an in depth summary of the existing literature Their book draws together cross disciplinary perspectives on contemporary material culture studies and develops a new agenda for the study of the materiality of late modern societies *After Modernity: Archaeological Approaches to the Contemporary Past* Rodney Harrison, John Schofield, 2010 The authors explore how archaeology can inform the study of our own society and other late modern societies through detailed case studies and a summary of the existing literature They draw together cross disciplinary perspectives and develop a new agenda for the study of the materiality of contemporary societies

After Modernity Rodney Harrison, John Schofield, 2010-07-22 Rodney Harrison and John Schofield explore how archaeology can inform the study of our own society and other late modern societies through detailed case studies and a summary of the existing literature They draw together cross disciplinary perspectives and develop a new agenda for the study of the materiality of contemporary societies

Contemporary Archaeology and the City Laura McAtackney, Krysta Ryzewski, 2017 This book argues archaeology is uniquely placed to contribute a variety of perspectives on the current life cycles of cities including processes of decay revitalization and transformation It foregrounds the materialities of post industrial post modern and other urban transformations through a diverse international collection of case studies

The Oxford Handbook of the Archaeology of the Contemporary World Paul Graves-Brown, Rodney Harrison, Angela Piccini, 2013-10 This Handbook is the first comprehensive survey of a rapidly expanding sub field in archaeology the study of the present and recent past It seeks to explore the boundaries of this emerging area to develop a tool kit of concepts and methods which are applicable to this new sub field and to suggest important future trajectories for research

Empowering Contemporary Fiction in English Ralf Hertel, Eva-Maria Windberger, 2021-03-08 Empowerment as a concept is making its impact on the field of literary studies This volume shows its intricate relation to contemporary fiction in English applying a broad range of approaches such as feminist transcultural and intersectional studies Dealing with genres as diverse as dystopia science fiction TV adaptations the historical novel and immigrant fiction this collection offers the first in depth study of empowerment in literature How and to which end do texts endow characters with power In which ways can fiction become a tool of authorial self empowerment And which effects do such narratives have on readers With this book empowerment is put on the map of literary studies as a new highly relevant

critical concept stimulating fresh perspectives on contemporary fiction Contributors Peter Childs Britta Maria Colligs Sarah Dillon Paul Hamann Rose Ralf Hertel David Malcolm Diana Thiesen Eleanor Ty Eva Maria Windberger **Archaeological Theory Today** Ian Hodder, 2014-02-27 Now in a revised and updated second edition this volume provides an authoritative account of the current status of archaeological theory as presented by some of its major exponents and innovators over recent decades It summarizes the latest developments in the field and looks to its future exploring some of the cutting edge ideas at the forefront of the discipline The volume captures the diversity of contemporary archaeological theory Some authors argue for an approach close to the natural sciences others for an engagement with cultural debate about representation of the past Some minimize the relevance of culture to societal change while others see it as central some focus on the contingent and the local others on long term evolution While few practitioners in theoretical archaeology would today argue for a unified disciplinary approach the authors in this volume increasingly see links and convergences between their perspectives The volume also reflects archaeology's new openness to external influences as well as the desire to contribute to wider debates The contributors examine ways in which archaeological evidence contributes to theories of evolutionary psychology as well as to the social sciences in general where theories of social relationships agency landscape and identity are informed by the long term perspective of archaeology The new edition of **Archaeological Theory Today** will continue to be essential reading for students and scholars in archaeology and in the social sciences more generally **The Archaeology of Science** Michael Brian Schiffer, 2013-04-19 This manual pulls together and illustrates with interesting case studies the variety of specialized and generalized archaeological research strategies that yield new insights into science Throughout the book there are templates consisting of questions to help readers visualize and design their own projects The manual seeks to be as general as possible applicable to any society and so science is defined as the creation of useful knowledge the kinds of knowledge that enable people to make predictions The chapters in Part I discuss the scope of the archaeology of science and furnish a conceptual foundation for the remainder of the book Next Part II presents several specialized but widely practiced research strategies that contribute to the archaeology of science In order to thoroughly ground the manual in real life applications Part III presents lengthy case studies that feature the use of historical and archaeological evidence in the study of scientific activities [The Routledge Handbook of Social Studies of Outer Space](#) Juan Francisco Salazar, Alice Gorman, 2023-07-10 The Routledge Handbook of Social Studies of Outer Space offers state of the art overview of contemporary social and cultural research on outer space International in scope the thirty eight contributions by over fifty leading researchers and artists across a variety of disciplines and fields of knowledge present a range of debates and pose key questions about the crafting of futures in relation to outer space The Handbook is a call to attend more carefully to engagements with outer space empirically affectively and theoretically while characterizing current research practices and outlining future research agendas This recalibration opens profound questions of intersectional

politics race equity and environmental justice around the contested topics of space exploration and life off Earth Among the many themes included in the volume are the various infrastructures networks and systems that enable and sustain space exploration space heritage the ethics of outer space social and environmental justice fundamental debates about life in outer space as it pertains to both astrobiology and SETI the study of scientific communities the human body and consciousness Indigenous astronomical systems of Knowledge contemporary space art and ongoing critical interventions to overcome the legacies of colonialism and dismantle hegemonic narratives of outer space *Critical Public Archaeology* Camille Westmont,2022-09-13 Critical approaches to public archaeology have been in use since the 1980s however only recently have archaeologists begun using critical theory in conjunction with public archaeology to challenge dominant narratives of the past This volume brings together current work on the theory and practice of critical public archaeology from Europe and the United States to illustrate the ways that implementing critical approaches can introduce new understandings of the past and reveal new insights on the present Contributors to this volume explore public perceptions of museum interpretations as well as public archaeology projects related to changing perceptions of immigration the working classes and race *The Routledge Handbook of Archaeology and Plastics* Genevieve Godin,Þóra Pétursdóttir,Estelle Praet,John Schofield,2024-09-17 The Routledge Handbook of Archaeology and Plastics investigates the archaeology of the contemporary world through the lens of its most distinguishing and problematic material Plastics are ubiquitous and have been so for nearly three generations since they became widely used in the early 1950s Plastics will persist for millennia their legacies as toxic heritage being felt deep into the future In this book comprising 32 original at times disturbing and critically engaged contributions scholars from archaeology and other cognate disciplines explore plastics from a number of different angles and perspectives Together these contributions highlight the dilemma that plastics present their usefulness on the one hand and the threats they present to environmental health on the other The volume also explores the lessons that archaeologists can learn from plastics about episodes of mass production consumption and toxicity in the past and also importantly about the future This important and timely collection will therefore be of interest to all archaeologists irrespective of their period of study or their geographical focus and to students of archaeology and cultural heritage It will also be relevant for researchers and students in other fields of study that focus on plastics and their environmental and social impacts Ultimately this book concerns the contemporary world and the impact of people upon it through the archaeological lens *Archaeology's Visual Culture* Roger Balm,2015-12-14 Archaeology s Visual Culture explores archaeology through the lens of visual culture theory The insistent visuality of archaeology is a key stimulus for the imaginative and creative interpretation of our encounters with the past Balm investigates the nature of this projection of the visual revealing an embedded subjectivity in the imagery of archaeology and acknowledging the multiplicity of meanings that cohere around artifacts archaeological sites and museum displays Using a wide range of case studies the book highlights how archaeologists can view objects and the consequences that ensue from

these ways of seeing Throughout the book Balm considers the potential for documentary images and visual material held in archives to perform cultural work within and between groups of specialists With primary sources ranging from the mid nineteenth to the early twenty first century this volume also maps the intellectual and social connections between archaeologists and their peers Geographical settings include Britain Cyprus Mesoamerica the Middle East and the United States and the sites of visual encounter are no less diverse ranging from excavation reports in salvage archaeology to instrumentally derived data sets and remote sensing imagery By forensically examining selected visual records from published accounts and archival sources enduring tropes of representation become apparent that transcend issues of style and reflect fundamental visual sensibilities within the discipline of archaeology

The Rosewood Massacre Edward González-Tennant, 2019-09-16 The Rosewood Massacre investigates the 1923 massacre that devastated the predominantly African American community of Rosewood Florida The town was burned to the ground by neighboring whites and its citizens fled for their lives None of the perpetrators were convicted Very little documentation of the event and the ensuing court hearings survives today

The Oxford Handbook of Industrial Archaeology Eleanor Casella, Michael Nevell, Hanna Steyne, 2022 Through international and multi period chapters this volume explores the origins and development of industrialization from its emergence in 18th century Europe to its contemporary ubiquity It interrogates the widespread exploitation of natural resources that forged industrialization and its environmental and social legacy in our globalized world
