## **Against Management Organization In The Age Of Managerialism:**

Against Management Martin Parker, 2002-10-25 *Against Management* argues that management is increasingly being seen as a problem and not a solution. Martin Parker argues that managing is not the only way to organize and that managerialism is a global form of ideology which is being used to justify considerable cruelty and inequality. He also suggests that in a variety of places an odd collection of people seem to be coming to similar conclusions. It is possible to identify cracks in the religion of managerialism as some of its converts begin to lapse and others intensify their protest. In order to illustrate his argument, Parker draws from a wide variety of sources: anti-corporate activism books and films which use management as their backdrop; the movement for business ethics and corporate social responsibility; as well as critical management studies and general social theories of the present. Parker's overall argument is that we can see the beginnings of a cultural shift in the image of management and that this is a significant historical change. Perhaps most importantly, it opens up the possibility of exploring non-managerial alternatives to contemporary assumptions about organizing. *Against Management* deliberately attempts to blur the boundaries between academic and popular writing and encourages some radical questioning of the common sense that tells us that we need management managers and management schools. This will be essential reading for second-year undergraduates and above in business and management studies, including MBA, sociology and cultural studies.

*Medievalism in Play* Karl Fugelso, 2023 Though manifestations of play represent a burgeoning subject area in the study of post-medieval responses to the Middle Ages, they have not always received the respect and attention they deserve. This volume seeks to correct those deficiencies. Though manifestations of play represent a burgeoning subject area in the study of post-medieval responses to the Middle Ages, they have not always received the respect and attention they deserve. This volume seeks to correct those deficiencies via six essays that directly address how the Middle Ages have been put in play with regard to Alice Munro's 1977 short story *The Beggar Maid*, David Lowery's 2021 film *The Green Knight*, medievalist archaisms in Japanese video games, runic play in Norse-themed digital games, medievalist managerialism in the 2020 video game *Crusader Kings III*, and neomedieval architectural praxis in the 2014 video game *Stronghold Crusader II*. The approaches and conclusions of those essays are then tested in the second section's six essays as they examine muscular medievalism in George R. R. Martin's 1996 novel *A Game of Thrones*, the queering of the Arthurian romance pattern in the 2018-20 television show *She-Ra and the Princesses of Power*, the interspecies embodiment of disability in the 2010 film *How to Train Your Dragon*, late nineteenth and early twentieth-century nationalism in Irish reimaginings of the Fenian Cycle, post-bellum medievalism in poetry of the Confederacy, and the medievalist presentation of Israeli Prime Minister Benjamin Netanyahu's 2020-21 COVID inoculation.
