Against The Law Labor Protests In Chinas Rustbelt And Sunbelt:

Against the Law Ching Kwan Lee, 2007-06-07 This study opens a critical perspective on the slow death of socialism and the rebirth of capitalism in the world's most dynamic and populous country. Based on remarkable fieldwork and extensive interviews in Chinese textile apparel machinery and household appliance factories, *Against the Law* finds a rising tide of labor unrest mostly hidden from the world's attention. Providing a broad political and economic analysis of this labor struggle together with fine-grained ethnographic detail, the book portrays the Chinese working class as workers' stories unfold in bankrupt state factories and global sweatshops in crowded dormitories and remote villages at street protests as well as in quiet disenchantment with the corrupt officialdom and the fledgling legal system.

Against the Law Ching Kwan Lee, 2007 This powerful study opens a critical perspective on the slow death of socialism and the rebirth of capitalism in the world's most dynamic and populous country. Based on remarkable fieldwork and extensive interviews in Chinese textile apparel machinery and household appliance factories, *Against the Law* dissects the world of Chinese workers today and finds a rising tide of labor unrest mostly hidden from the world's attention. Intense working class agitation is being spurred by massive unemployment of Mao's socialist proletariat in the northern rustbelt and by the exploitation of millions of young workers in the southern sunbelt. Providing a broad comparative political and economic analysis of the vast mosaic of this labor struggle together with unprecedented fine-grained ethnographic detail, the book portrays the multi-faceted humanity of the Chinese working class as their stories unfold in bankrupt state factories and global sweatshops in crowded dormitories and remote villages at heroic moments of street protests as well as in quiet disenchantment with the corrupt officialdom and the fledgling legal system.

The Challenge of Labour in China Chris King-chi Chan, 2012 China's economic success has been founded partly on relatively cheap labour. In recent years, however, there has been growing concern about wages and labour standards in China. This book examines how wages are bargained, fought over and determined in China, exploring how the pattern of labour conflict has changed over time.

Handbook of Protest and Resistance in China Teresa Wright, 2019 Featuring contributions from top scholars and emerging stars in the field, the *Handbook of Protest and Resistance in China* captures the complexity of protest and dissent in contemporary China while simultaneously exploring a number of unifying themes. Examining how, when and why individuals and groups have engaged in contentious acts and how the targets of their complaints have responded, the volume sheds light on the stability of China's existing political system and its likely future trajectory.

Popular Protest in China Kevin J. O'Brien, 2008-11-21 Unrest in China from the dramatic events of 1989 to more recent stirrings offers a rare opportunity to consider how popular contention unfolds in places where speech and assembly are tightly controlled. The contributors to this volume argue that ideas inspired by social movements elsewhere can help explain popular protest in China.

Social Protest and Contentious Authoritarianism in China Xi Chen, 2012 Xi Chen explores the dramatic rise in and routinization of social protests in China since the early 1990s.

Chinese Society

Elizabeth J. Perry, Mark Selden, 2010 This bestselling introduction to Chinese society uses the themes of resistance and protest to explore the complexity of life in contemporary China An interdisciplinary and international team of China scholars draw on perspectives from sociology anthropology psychology history and political science and covers a broad range of issues Topics covered include labour and environmental disputes rural and ethnic conflict migration legal challenges intellectual and religious dissidence opposition to family planning The newly revised third edition adds two new chapters on gender and the family and the reform of the Hukou system thus providing a comprehensive text for both undergraduates and specialists in the field encouraging the reader to challenge conventional images of contemporary Chinese society **Political Science**

and Chinese Political Studies Sujian Guo, 2012-07-25 We have witnessed the substantial transformation of China studies particularly Chinese political studies in the past 30 years due to changes in China and its rising status in the world as well as changes in our ways of conducting research As area studies specialists we are no longer isolated from the larger disciplines of Political Science and International Relations IR but an integral part of them This book contains theoretically innovative contributions by distinguished political scientists from inside and outside China who together offer up to date overviews of the state of the field of Chinese political studies combines empirical and normative researches as well as theoretical exploration and case studies explore the relationship between Western political science scholarship and contemporary Chinese political studies examine the logic and methods of political science and their scholarly application and most recent developments in the study of Chinese politics and discuss the hotly contested and debated issues in Chinese political studies such as universality and particularity regularity and diversity scientification and indigenization main problems challenges opportunities and directions for the disciplinary and intellectual development of Chinese political studies in the context of rising China Renewing International Labour Studies

Marcus Taylor, 2013-09-13 This volume seeks to re energise the paradigm of the New International Labour Studies by detailing how struggles over the construction reproduction utilisation and restructuring of labour forces are the contested social foundations upon which the global economy stands Through a combination of theoretical works and a series of case studies the volume highlights the cutting edge of international labour studies Its expands on three pivotal areas of study within the discipline 1 the social construction of new labour forces across an expanding international division of labour 2 the self organising potential of workers particularly within non traditional sectors and 3 the possibilities for transborder labour movements to help address the asymmetrical power relationships between globalised capital and localised labour In addressing these themes the volume helps explain not only how the contemporary international division of labour is produced and reproduced but also the strengths and limits to current attempts to overcome its unequal and divisive nature This book was published as a special issue of Third World Quarterly

Handbook on Critical Political Economy and Public Policy Christoph Scherrer, Ana Garcia, Joscha Wullweber, 2023-01-20 This comprehensive and stimulating Handbook examines the contribution of political economy to public policy It provides an

The Communist Road to Capitalism Ralf Ruckus,2021-07-27 The Communist Road to Capitalism explores how a dynamic of social struggles from below followed by countermeasures of the Chinese Communist Party CCP regime has pushed the historical evolution of the People s Republic of China PRC since 1949 Under socialism until the mid 1970s during the ensuing transition until the mid 1990s and in the capitalist period since the CCP regime responded to the struggles of workers peasants migrants and women with a mix of repression concession cooptation and reform Ralf Ruckus shows that this dynamic took the country into a new phase each time and eventually all the way from socialism to capitalism in the 1950s labor struggles and the Hundred Flowers Movement were followed by the regime s Great Leap Forward in the 1960s the Cultural Revolution led to the CCP s failed attempt to revitalize socialism in the 1970s social unrest and movements for a democratic socialism made room for the regime s Reform and Opening policies in the late 1980s the Tian anmen Square uprising triggered more radical reforms in the 1990s peasant and state worker unrest could not stop the capitalist restructuring and in the 2000s migrant worker struggles led to concessions tightened repression and the regime s global capitalist expansion strategy in the 2010s The Communist Road to Capitalism breaks with established orthodoxies about the PRC s socialist successes and myths on its later rise as an economic power It combines a historiography of workers peasants migrants and women s struggles with a searing critique of exploitation authoritarian state power and gender discrimination under socialism and capitalism Drawing lessons from PRC history Ralf Ruckus finally outlines political aims and methods for the left that avoid past mistakes and allow to fight on for a society free of all forms of exploitation and oppression

The Making of Global Capitalism Leo Panitch,Sam Gindin,2012-10-09 No Marketing Blurb

The Party and the People Bruce J. Dickson,2023-05-23 Since 1949 the Chinese Communist Party CCP has maintained an unrivaled grip over the country Despite economic calamity widespread social

upheaval and even violence against its own people the party has overseen the fastest economic growth in history and only strengthened its hold on power How has it achieved this and how exactly does the party and the government function What is political life like for the people of China and how has this changed over the decades of the party's rule Is democracy on the horizon These are some of the questions that animate Bruce Dickson's exploration of Chinese politics today At the core of the party's practices is a dual approach repression when faced with existential political threats and responsiveness when faced with more localized economic or social unrest Yet while the regime is responsive to a degree often unacknowledged by international observers ultimately it is not accountable to the public The opportunity for the public to choose leaders is limited to very local levels and it is the party itself that chooses when to compromise and when to repress Dickson uses this lens to illuminate a number of key questions How are leaders chosen and how are policies made When is protest and civic engagement allowed and when is it suppressed Acknowledging that the inner workings of the party remain shrouded in secrecy Dickson draws from the full landscape of sources available to lay out what we know and what the future may hold as Xi's rule extends and takes an increasingly repressive approach to governing

Perspectives on Neoliberalism, Labour and Globalization in India K.R. Shyam Sundar, 2019-04-30 This book employs a variety of perspectives such as Institutional Social Democratic Marxist Gender and Informal Biblical and Dalit to critically examine the impact of neo liberal globalisation on both formal and informal sectors of the labour market and the industrial relations system The narratives not only interrogate current institutions and paradigms but also outline future developments

International Perspectives on Participation Jaime Ortega, 2014-11-17 Volume 15 of the successful series Advances in the Economic Analysis of Participatory and Labor Managed Firms AEAP provides a leading forum for high quality original theoretical and empirical research in the broad area of participatory and labor managed organizations

Dynamics of Local Governance in China During the Reform Era Tse-Kang Leng, Yun-han Chu, 2010-01-01 Since the Chinese economic reform was realized in the early 1990s a significant revolution has been launched socially economically and politically in China At present China is an indispensable actor in the international arena so that the transitions domestically bring about substantial influence on the whole world Dynamics of Local Governance in China during the Reform takes close look at China's current transformation and its broader implications Through their thought provoking essays the contributors to this volume dissect China's transformation by examining various topics in the field of contemporary China studies such as rural industrialization development of civic society socio economic transformation and local self governance

Assessing Treaty Performance in China Pitman B. Potter, 2014-03-10 This volume outlines a new approach for understanding China's treaty performance around international standards on trade and human rights using the paradigms of selective adaptation and institutional capacity Selective adaptation reveals how local interpretation and implementation of international treaty standards are affected by normative perspectives derived from perception complementarity and legitimacy Institutional capacity explains how operational

dimensions of legal performance are affected by structural and relational dynamics of institutional purpose location orientation and cohesion The author also offers policy suggestions for more effective engagement with China on trade and human rights issues *From Iron Rice Bowl to Informalization* Sarosh Kuruvilla, Ching Kwan Lee, Mary E.

Gallagher, 2011-08-15 In the thirty years since the opening of China's economy China's economic growth has been nothing short of phenomenal At the same time however its employment relations system has undergone a gradual but fundamental transformation from stable and permanent employment with good benefits often called the iron rice bowl to a system characterized by highly precarious employment with no benefits for about 40 percent of the population Similar transitions have occurred in other countries such as Korea although perhaps not at such a rapid pace as in China This shift echoes the move from breadwinning careers to contingent employment in the postindustrial United States In *From Iron Rice Bowl to Informalization* an interdisciplinary group of authors examines the nature causes and consequences of informal employment in China at a time of major changes in Chinese society This book provides a guide to the evolving dynamics among workers unions NGOs employers and the state as they deal with the new landscape of insecure employment **Southern**

Insurgency Immanuel Ness, 2015-10-20 The site of industrial struggle is shifting Across the Global South peasant communities are forced off the land to live and work in harsh and impoverished conditions Inevitably new methods of combating the spread of industrial capitalism are evolving in ambitious militant and creative ways This is the first book to theorise and examine the present and future shape of global class struggles Immanuel Ness looks at three key countries China India and South Africa In each case he considers the broader historical forces at play the effects of imperialism the decline of the trade union movement the class struggle and the effects of the growing reserve army of labour For each case study he narrows his focus to reveal the specifics of each grassroots insurgency export promotion and the rise of worker insurgency in China the new labour organisations in India and the militancy of the miners in South Africa This is a study about the nature of the new industrial worker in the Global South about people living a terrifying precarious existence but also one of experimentation solidarity and struggle
