*Consumer-Driven Technologies in Healthcare: Breakthroughs in Research and Practice* Management Association, Information Resources, 2018-07-06 The world of medical technologies is undergoing a sea change in the domain of consumer culture. Having a grasp on what appeals to consumers and how consumers are making purchasing decisions is essential to the success of any organization that thrives by offering a product or service. As such, it is vital to examine the consumer centered aspects of medical technological developments that have a patient centered focus and allow patients to take part in their own personal health and wellness. Consumer Driven Technologies in Healthcare Breakthroughs in Research and Practice is a critical source of academic knowledge on the use of smartphones and other technological devices for cancer therapy, fitness and wellness, chronic disease monitoring and other areas. The tracking of these items using technology has allowed consumers to take control of their own healthcare. Highlighting a range of pertinent topics such as clinical decision support systems, patient engagement and electronic health records, this publication is an ideal reference source for doctors, nurse practitioners, hospital administrators, medical professionals, IT professionals, academicians and researchers interested in advancing medical practice through technology.

Telepsychiatry and Health Technologies Peter Yellowlees, Jay H. Shore, 2018-01-22 The only current book on the topic Telepsychiatry and Health Technologies: A Guide for Mental Health Professionals is a practical, comprehensive and evidence based guide to patient centered clinical care delivered in whole or in part by technological devices and applications. Not a technology centered health informatics book but rather one that describes basic technological concerns and emphasizes clinical issues and workflows, it is designed for psychiatrists, psychologists and other mental health clinicians who seek to learn the modes, models and methods of telepsychiatry. More than 30 practitioners of telepsychiatry across the core mental health disciplines were involved in development of the text, contributing knowledge and clinical

examples Rich with case studies and hands on guidance the book introduces strategies then clearly illustrates how to put them into practice The editors believe that psychiatry increasingly will focus on the treatment of populations and that technology offers the best hope of doing so efficiently and effectively Careful thought went into the book s conception and design resulting in a marriage of structure and content that meets the needs of today s clinicians The editors employed a unique process of manuscript development first outlining each chapter in its entirety then assigning sections to contributors selected for their specific clinical experience and therapeutic expertise The result is a text that flows logically and creates synergy across chapters without duplication The book provides how to guidance on setting up a new telepsychiatry practice or integrating technologies into a current practice covering critically important topics such as data collection security and electronic health records Technologies addressed include telephony smartphones apps e mail secure texting and videoconferencing all of which are increasingly being used in the assessment and treatment of patients with psychiatric disorders More than 30 case examples of patients or programs are included illustrating the range of clinical techniques that can be used and the types of patient that can be treated using available technologies whether in person online or in a hybrid form of care combining both modalities Every chapter concludes with a summary of major learning objectives or findings covered Telepsychiatry and Health Technologies A Guide for Mental Health Professionals is destined to become a core resource in the training of mental health professionals from all disciplines as well as an indispensable reference for those already integrating new technologies into their practices
