El-Moslimany,2020-01-01 IIIT Books In Brief Series is a valuable collection of the Institute s key publications written in condensed form to give readers a core understanding of the main contents of the original The author explores education from the essential principles of Tawhid Oneness of God humanity knowledge fitrah concept of human nature and the role of humans as vicegerents of God on earth responsibility and stewardship The current education system dates back a hundred years or more and is in desperate need of a reboot In developing the industrialized society the education system itself became like a factory the end product being pupils who merely regurgitate facts and themselves end up as cogs in the machine that is the wider industrial complex The legacy of this is a soulless functional educational system that fails to develop pupils to meet the present and future needs of individuals and their expectations This failure inevitably impacts on society and humanity at large Society has long since moved beyond the industrial revolution and into an age of global connectedness where the sum of human knowledge is freely available via the internet It is an age where people are generally more well informed and on a variety of issues An effective holistic educational philosophy is required one that gives full spiritual meaning to all that a child learns It should equip children with spiritual awareness morals and values social responsibility and accountability self discipline and self determination self confidence and empowerment ambition and aspiration tempered with thoughtfulness and a sense of gratitude

The Films of Clint Eastwood Matt Wanat,Leonard Engel,2018-05-15 The indefatigable Clint Eastwood the great old man of American film is still controversial after all these years Many of the critical essays in this collection focus on Eastwood's 2014 American Sniper a particularly controversial film and a devastating personal account of the horrors of war Additional essays within the collection address his films that deserve more recognition than they have received to date The chapters vary by topic and identify themes ranging from aging race and gender to uses of Western conventions and myth to the subtleties of quieter themes and stylistic choices in Eastwood's body of cinematic work As a collection these essays show that none of these

themes account for Eastwood's entire vision which is multifaceted and often contradictory dramatizing complex issues in powerful character driven narratives
