difference as a source of creativity and turning it into a form of resistance and a critical intervention Asian American poets engage with broader issues than the merely poetic They confront social injustice against the other and call critical attention to a concept of otherness which differs fundamentally from that underlying racism sexism and colonialism By locating the ethical and political questions of otherness in language discourse aesthetics and everyday encounters Asian American poets help advance critical studies in race gender and popular culture as well as in poetry The Ethics and Poetics of Alterity is not limited however to literary studies it is an invaluable response to the questions raised by increasingly globalized encounters across many kinds of boundaries The Poets Marilyn Chin Kimiko Hahn Myung Mi Kim Li Young Lee Timothy Liu David Mura and John Yau Anthologizing Poe Emron Esplin, Margarida Vale de Gato, 2020-08-06 This collection explores how anthologizers and editors of Edgar Allan Poe play an integral role in shaping our conceptions of Poe as the author we have come to recognize revere and critique today In the spheres of literature and popular culture Poe wields more global influence than any other U S author This influence however cannot be attributed solely to the quality of Poe s texts or to his compellingly tragic biography Rather his continued prominence as a writer owes much to the ways that Poe has been interpreted portrayed and packaged by an extensive group of mediators ranging from anthologizers editors translators and fellow writers to literary critics filmmakers musicians and illustrators In this volume the work of presenting Poe s texts for public consumption becomes a fascinating object of study in its own right one that highlights the powerful and often overlooked influence of those who have edited anthologized translated and adapted the author s writing over the past 170 years **Young Adult Fiction by African American Writers, 1968-1993** Deborah Kutenplon, Ellen Olmstead, 2014-04-08 Comprehensive and up to date The first contemporary publication to go beyond examining broad themes and trends in the field this timely volume looks closely at specific authors and texts The book is comprehensive and as current as possible covering works by African American authors for young adults published between 1968 1993 some 200 titles by close to 50 writers In addition to established authors and bestselling titles the coverage includes material overlooked by previous studies such as works from small presses and talented new authors Guidelines for evaluation An extensive introduction reviews important milestones in this body of literature and analyzes noteworthy bibliographical and critical publications about such writing It includes suggested guidelines for evaluating a work in terms of its direct and indirect treatment of such issues as race gender class ability age sexuality and sexual orientation The book also offers specific guidance for determining the appropriate readership for a work with regard to age and gender Unusually extensive annotations The main body of the book is an annotated bibliography alphabetical by author with the works arranged chronologically by publication date The annotations are much more extensive than those in other bibliographies Each annotation reads more like a full length book review and is from one to two pages long and explores themes plot and character development evaluates the quality of the writing judges the handling of issues of race class and gender and provides a readership recommendation Written in

political scientists analyze the presidency of Donald Trump and its impact on the future of American politics. In virtually all respects the Trump presidency has disrupted patterns of presidential governance. However, does Trump signify a disruption not merely in political style but in regime type in the United States? Assessing Trump's potential impact on democratic institutions requires an analysis of how these institutions, including especially the executive branch, have developed over time, as well as an examination of the intersecting evolution of political parties, racial ideologies, and governing mechanisms. To explore how time and temporality have shaped the Trump presidency, editors Zachary Callen and Philip Rocco have brought together scholars in the research tradition of American political development (APD), which explicitly aims to consider how interactions between a range of institutions result in the shifting of power and authority in American politics, with careful attention paid to complex processes unfolding over time. By focusing on the factors that contribute to both continuity and change in American politics, APD is ideally situated to take a long view and help make sense of the Trump presidency. *American Political Development and the Trump Presidency* features contributions by leading political scientists grappling with the reasons why Donald Trump was elected and the meaning of his presidency for the future of American politics. Taking a historical and comparative approach instead of viewing Trump's election as a singular moment in American politics, the essays here consider how Trump's election coincides with larger changes in democratic ideals, institutional structures, long-standing biases, and demographic trends. The Trump presidency, as this volume demonstrates, emerged from a gradual unsettling of ideational and institutional lineages. In turn, these essays consider how Trump's disruptive style of governance may further unsettle the formal and informal rules of American political life. Contributors: William D. Cohen, 2021-06-08. For a century, the history of the novel has been written in terms of nations and territories: the English novel, the French novel, the American novel. But what if novels were viewed in terms of the seas that unite these different lands? Examining works across two centuries, *The Novel and the Sea* recounts the novel's rise told from the perspective of the ship's deck and the allure of the oceans in the modern cultural imagination. Margaret Cohen moors the novel to overseas exploration and work at sea, framing its emergence as a transatlantic history steeped in the adventures and risks of the maritime frontier. Cohen explores how Robinson Crusoe competed with the best-selling nautical literature of the time by dramatizing remarkable conditions from the wonders of unknown lands to storms, shipwrecks, and pirates. She considers James Fenimore Cooper's refashioning of the adventure novel in postcolonial America and a change in literary poetics toward new frontiers and to the maritime labor and technology of the nineteenth century. Cohen shows how Jules Verne reworked adventures at sea into science fiction, how Melville, Hugo, and Conrad navigated the foggy waters of language and thought, and how detective and spy fiction built on sea fiction's problem-solving devices. She also discusses the transformation of the ocean

from a theater of skilled work to an environment of pristine nature and the sublime A significant literary history The Novel and the Sea challenges readers to rethink their land locked assumptions about the novel Jonathan Dickinson and the Formative Years of American Presbyterianism Bryan F. Le Beau,2014-10-17 During the eighteenth century Presbyterians of the Middle Colonies were separated by divergent allegiances mostly associated with groups migrating from New England with an English Puritan background and from northern Ireland with a Scotch Irish tradition Those differences led first to a fiery ordeal of ecclesiastical controversy and then to a spiritual awakening and a blending of diversity into a new order American Presbyterianism Several men stand out not only for having been tested by this ordeal but also for having made real contributions to the new order that arose from the controversy The most important of these was Jonathan Dickinson Bryan Le Beau has written the first book on Dickinson whom historians have called the most powerful mind in his generation of American divines One of the founders of the College of New Jersey now Princeton University and its first president Dickinson was a central figure during the First Great Awakening and one of the leading lights of colonial religious life Le Beau examines Dickinson s writings and actions showing him to have been a driving force in forming the American Presbyterian Church accommodating diverse traditions in the early church and resolving the classic dilemma of American religious history the simultaneous longing for freedom of conscience and the need for order This account of Dickinson s life and writings provides a rare window into a time of intense turmoil and creativity in American religious history *Overwhelmed* Maurice S. Lee,2019-09-10 As Lee shows in *Overwhelmed* the rapid expansion of print created new relationships between literature and information He presents a new argument rather than being at odds as generations of critics have viewed them literature and information in the 19th century were entangled in surprisingly collaborative ways **Doctrine and Difference** Michael J. Colacurcio,2023-12-22 *Doctrine and Difference* The Thematic Scale of Classic American Literature aims to expand and deepen our knowledge into the inquiry of contextual historicism observing writers of the American nineteenth century and their vastly differing approaches to perceptions such as race gender and national identity Ranging from the religious acuties of the first American Puritans to the more secularized literary awakening of the American Renaissance and into late century texts that deliberately resist the limits of received religious and political opinion this volume seeks to uncover a history of human thought within classic American Literature This volume critically observes these survivable works of literature presenting insight into the difference made by conversation dispute and dramatized self doubt within novels and poems of the historical past
