Tuckey, 2018-04-01 Ghost Fishing is the first anthology to focus solely on poetry with an eco justice bent A culturally diverse collection entering a field where nature poetry anthologies have historically lacked diversity this book presents a rich terrain of contemporary environmental poetry with roots in many cultural traditions Eco justice poetry is poetry born of deep cultural attachment to the land and poetry born of crisis Aligned with environmental justice activism and thought eco justice poetry defines environment as the place we work live play and worship This is a shift from romantic notions of nature as a pristine wilderness outside ourselves toward recognition of the environment as home a source of life health and livelihood Ghost Fishing is arranged by topic at key intersections between social justice and the environment such as exile migration and dispossession war food production human relations to the animal world natural resources and extraction environmental disaster and cultural resilience and resistance This anthology seeks to expand our consciousness about the interrelated nature of our experiences and act as a starting point for conversation about the current state of our environment
