The First Book of History for Children and Youth Samuel Griswold Goodrich, 1845 **The First Book of History, for Children and Youth. By the Author of Peter Parley's Tales [i.e. Samuel Griswold Goodrich]. With Sixty Engravings and Sixteen Maps. Revised Edition** BOOK, 1846 **A History of the Original Peoples of Northern Canada** Keith J. Crowe, 1991 For more than fifteen years Keith Crowe's *A History of the Original Peoples of Northern Canada* has informed a multitude of residents in and visitors to the Canadian North and has served as a standard text Now in a new epilogue Crowe describes and analyses the changes in the North which have come about since the book's first publication The success of this book over the years is due in large part to Crowe's approach While the majority of works on Canadian history are essentially European in perspective Crowe has endeavoured to interpret the history of the original peoples of northern Canada from a native standpoint He has attempted to provide a work that native Canadians can use to learn the broad outlines of their cultural and historical development as well as details about their people places and events while giving non native people a more accurate version of northern Canadian history and ethnology Crowe begins with the emergence in prehistoric times of the three great groups of hunting people the Algonkian Athapaskan and Inuit describing their contribution to the cultural heritage of native peoples today He devotes particular attention to the various native tribes and some of their outstanding leaders to the fur trade its effects and the emergence of the Métis people

to the devastating consequences of trading and whaling for the Arctic and the Inuit who lived there to the Yukon Indians and the Gold Rush to the coming of Christianity and to the impact of governmental and economic encroachment on the North and the native peoples response to this moving into the boardroom and elected office In his new epilogue Crowe surveys the major land claims since 1974 some settled most still under negotiation and some like the James Bay hydro electric project being challenged Crowe also explains the complexities of the land claims process and points out the irony inherent in native peoples having to help create numerous foreign laws and institutions in order to protect an essentially simple way of life He describes the native peoples movement into and up the ranks of government at all levels and emphasizes the important role played by regional and national native associations such as the Assembly of First Nations He outlines the changes and developments in education in the North and provides a detailed assessment of the still very difficult economic situation stressing the native peoples concern that economic development in the North not be divorced from environmental considerations Keith J Crowe who served for many years in the Department of Indian and Northern Affairs is now retired but remains privately active in northern and native issues
