Spanish Golden Age Poetry in Motion Jean Andrews, Isabel Torres, 2014 The fourteen essays of this volume engage in distinct ways with the matter of motion in early modern Spanish poetics. Los catorce ensayos de este volumen conectan de una manera perceptible con el tema del movimiento en la poesía española del siglo de oro. The fourteen essays of this volume engage in distinct ways with the matter of motion in early modern Spanish poetics without limiting the dialectic of stasis and movement to any single sphere or manifestation. Interrogation of the interdependence of tradition and innovation, poetry power and politics, shifting signifiers, the intersection of topography and deviant temporalities, the movement between the secular and the sacred, tensions between centres and peripheries, issues of manuscript circulation and reception, poetic calls and echoes across continents and centuries, and between creative writing and reading subjects all demonstrate that Helgerson's central notion of conspicuous movement is relevant beyond early sixteenth-century secular poetics. By opening it up, we approximate a better understanding of poetry's flexible spatio-temporal coordinates in a period of extraordinary historical circumstances and conterminous radical cultural transformation. Los catorce ensayos de este volumen conectan de una manera perceptible con el tema del movimiento en la poesía española del siglo de oro sin limitar la

dialctica de la estasis y movimiento a una sola esfera o manifestación única. Entre los múltiples enfoques cabe destacar el cuestionamiento de la interdependencia de la tradición e innovación de la poesía del poder y la política de los siglos que se transforman de los espacios que conectan y cruzan con los tiempos desviados análisis de las tensiones entre lo sagrado y lo secular del conflicto centro-periferia y del complejo sistema de producción, circulación y recepción de los manuscritos del diálogo con el ecopóticamente a través de los siglos y de los continentes y la construcción creativa del sujeto escritor y/o lector. Al abrir la noción central de Helgerson del movimiento como más allá de la poesía nueva secular, este libro propone un entendimiento más completo de las coordenadas espacio-temporales de la poesía en un periodo de circunstancias históricas extrañas.

Reflexión, 1972. *Elias Nandino*. Elías Nandino, 2010-05-12. Though Latin America has a strong tradition of poetry, many of its best poets remain untranslated in the United States. Elías Nandino (1900-1993) was a Mexican poet who made his living as a surgeon and physician. He published twenty volumes of poetry in his lifetime, work often focused on solitude, eroticism, and love. In recognition of his dedication to teaching and assisting young writers, the National Young Poets Prize in Mexico is named in his honor. This is the first book-length English translation of Nandino's poetry.
