Opera as Anthropology Vlado Kotnik, 2016-09-23 This book contemplates the relationship between opera and anthropology. It rests on the following central arguments: on the one hand opera is quite a new and exotic topic for anthropologists while on the other anthropology is still perceived as an unusual approach to opera. Both initial arguments are indicative of the current situation of the relationship between anthropological discipline and opera research. The book introduces the work of anthropologists and ethnographers whose personal and professional affinity for opera has been explicated in their academic and biographical accounts. Anthropological, ethnological, ethnographic and semiotic accounts of opera by Claude Lévi-Strauss, Michel Leiris, William O'Beaman, Denis Laborde, Paul Atkinson and Philippe Joseph Salazar establish that opera can be a pertinent object of anthropological interest. Ethnographic investigation, cultural analysis and historical reflection. By touching on opera not merely as a musical aesthetic or artistic category but as a social, cultural, historical and transnational phenomenon that over the last four centuries has significantly influenced and reflected the identity of Western culture and society, this monograph suggests that opera and anthropology no longer need be alien to one another.

Courtly Song in Late Sixteenth-Century France Jeanice Brooks, 2020-04-23 In the late

sixteenth century the French royal court was mobile To distinguish itself from the rest of society it depended more on its cultural practices and attitudes than on the royal and aristocratic palaces it inhabited Using courtly song or the air de cour as a window Jeanice Brooks offers an unprecedented look into the culture of this itinerant institution Brooks concentrates on a period in which the court's importance in projecting the symbolic centrality of monarchy was growing rapidly and considers the role of the air in defining patronage hierarchies at court and in enhancing courtly visions of masculine and feminine virtue Her study illuminates the court's relationship to the world beyond its own confines represented first by Italy then by the countryside In addition to the 40 editions of airs de cour printed between 1559 and 1589 Brooks draws on memoirs literary works and iconographic evidence to present a rounded vision of French Renaissance culture The first book length examination of the history of air de cour this work also sheds important new light on a formative moment in French history

amoureux de l'Humour Jean-Loup Chiflet, 2012-10-18 De l'humeur l'humour il n'y a souvent que l'espace d'un bon mot un peu de satire beaucoup d'ironie et encore plus d'esprit Longtemps Jean-Loup Chiflet s'est levé de bonne heure pour se plonger dans le monde jubilatoire de l'humour. De Montesquieu, Coluche, Feydeau, Frédéric Dard, Jules Renard, Bourvil, des Pataphysiciens aux Oulipiens et de Molière à Blondin, il a essayé d'en analyser le manichisme complexe. L'humour est-il vraiment un excès de sérieux comme le pensait Tristan Bernard ou une tentative pour décapiter les grands sentiments de leur connerie comme le laissait peut-être entendre Raymond Queneau ? Dans ce Dictionnaire amoureux et du fait même subjectif, il laisse ainsi cours ses passions pour le nonsense anglo-saxon ou les magiciens de la langue que sont Vialatte, Ponge, Prévost et tant d'autres. Jean-Loup Chifflet est l'auteur entre autres facettes de l'incontournable *Sky my husband Ciel mon mari* et du non moins culte *Oxymore mon amour*. Il est aussi l'adaptateur en France des dessins et légendes du *New Yorker* et l'auteur

King's Cosmos Claire Goldstein, 2025-02-15 Offering a new history of a formative cultural and political era through the cosmic phenomena that captured the public s imagination In the winters of 1664 65 and 1680 81 the French public was galvanized by two bright comets whose elliptical orbits could not be mapped with contemporary geometry and that thus seemed to appear in random and unpredictable locations Bookending the period during which Louis XIV s sun king mythology was created these comets defied the heliocentric order to which French politics and culture aspired As Claire Goldstein demonstrates literary texts cultural institutions and architecture inspired by comets offer a different perspective on the relationship between sensory experience ideology and artistic form In the Sun King s Cosmos Comets and the Cultural Imagination of Seventeenth Century France presents an alternative view of a formative era in cultural and political history when distinctly modern forms of power and control were established through a regime of the spectacular Goldstein shows how comets allow us to see the seventeenth century in ways that complicate the narrative of a race toward rationalization classicism and modernity indexing instead a messy period in which the spectacular was sometimes also inscrutable **Le**
