Board of assessors,1891 Defining the Mission Scott A. Moseman,2025-03-18 From 1882 to 1947 the year the CIA was established strategic military intelligence organizations struggled to define their missions The American public government and military leaders and intelligence professionals all had competing ideas of what military intelligence should be and do The quest of strategic military intelligence organizations to define themselves and their mission was directly influenced by the trends of a growing American military and maturing American society in the late nineteenth and early twentieth centuries This dynamic and insightful facet of intelligence history however has remained largely in the shadows How did government leaders and American society define strategic military intelligence organizations How did these organizations describe themselves in their service to the US military and the American public as they evolved from a four man office in 1882 to a multi organizational operation with a staff of thousands by the 1940s In *Defining the Mission* Scott Moseman examines how US strategic military intelligence organizations have adapted to several external and internal factors in finding their raison d tre Focusing on the Office of Naval Intelligence and the Military Intelligence Division Moseman explores themes including the growth of the American military internationalism versus isolationism the increasing

Posner,2010 While many books talk about forecasting and decision making this one is particularly engaging because of Kenneth A Posner s personal experience and the honesty with which he discusses it As a longtime analyst at Morgan Stanley Posner had to make decisions about whether to invest in many recent high profile high stakes Black Swan anomalies He explains general models and approaches to dealing with uncertainty sorting information and developing your analytical skills and judgment That alone is worthwhile but the book is especially lively when Posner reviews his specific decisions He shares his reasoning and exposes his successes and his failures to public view The result is a knowledge dense but very readable work that getAbstract recommends to all analysts but also to those who want to deal with information overload and improve their decision making     *Army List and Directory* ,     *Naval Register* ,1904
