A History Of Modern Sudan:

A History of Modern Sudan Robert O. Collins, 2008-05-29 Sudan's modern history has been consumed by revolution and civil war. The country attracted international attention in the 1990s as a breeding ground of Islamist terrorism and recently tensions between the prosperous centre and the periphery between north and south have exploded in Darfur. In his latest book Robert Collins, a frequent visitor and veteran scholar of the region, traces Sudan's history across two hundred years to show how many of the tragedies of today have been planted in its past. The story begins with the conquest of Muhammad Ali in 1821 and moves through the Anglo-Egyptian condominium to independence in 1956. It then focuses on Sudanese rule in the post-independence years when the fragile democracy established by the British collapsed under sectarian strife. It is these religious and ethnic divides the author contends, in conjunction with failed leadership, which have prolonged and sustained the conflict in Sudan.

A History of the Sudan P.M. Holt, 2014-09-11 *A History of the Sudan* by Martin Daly and P.M. Holt sixth edition has been fully revised and updated and covers the most recent developments that have occurred in Sudan over the last nine years, including the crisis in Darfur. The most notable developments that this text covers include the decades-long civil war in the South with the signing of the Comprehensive Peace Agreement in January 2005, the emergence of the Sudan as an oil producer and exporter and its resulting higher profile in global economic affairs, notably as a partner of China, the emergence of al-Qaeda, the relations of Sudanese authorities with Osama bin Laden whose headquarters were in the Sudan in the 1990s and the Sudanese government's complicated relations with the West. This text is key introductory reading for any student of North Africa.

History Of Modern Sudan Mohammed Saeed Al-Qadaf, 2018 **A History of Modern Africa** Richard J. Reid, 2012-01-17 Updated and revised to emphasise long-term perspectives on current issues facing the continent, the new 2nd Edition of *A History of Modern Africa* recounts the full breadth of Africa's political, economic and social history over the past two centuries. It adopts a long-term approach to current issues, stressing the importance of nineteenth-century and deeper indigenous dynamics in explaining Africa's later twentieth-century challenges. It places a greater focus on African agency, especially during the colonial encounter. It includes more in-depth coverage of non-Anglophone Africa. It offers expanded coverage of the post-colonial era to take account of recent developments, including the conflict in Darfur and the political unrest of 2011 in Egypt, Tunisia and Libya.

A Concise History of South Sudan Anders Breidlid,2010 This textbook in history is primarily intended for secondary schools in South Sudan The focus is on the history of South Sudan and is in this sense a pioneer work since it is the country s first secondary school book dealing primarily with the history of the South Even though the focus is on South Sudan its history cannot be interpreted in a vacuum and particularly North South relations are discussed extensively in the book Secondary school students in Sudan have either studied the history of Kenya and Uganda or the history of North Sudan since no history book for South Sudan has existed The book may also be of interest to academics politicians historians and college and university students as well civil society groups such as churches youth and women s groups Military Integration during War-to-Peace Transitions Lesley Anne Warner,2023-06-07 In the 1960s only 10% of peace agreements included some element of political military accommodation namely military integration From Burundi to Bosnia to Zimbabwe that number had increased to over 50% by the 2000s However relatively little is understood about this dimension of power sharing often utilized during war to peace transitions Through an examination of the case of South Sudan between 2006 and 2013 this book explores why countries undergoing transitions from war to peace decide to integrate armed groups into a statutory security framework This book details how integration contributed to short term stability in South Sudan allowing the government to overcome wartime factionalism and consolidate political military power prior to the referendum on self determination in 2011 It also examines how the integration process in South Sudan was flawed by its open ended nature and lack of coordination with efforts to right size the military and transform the broader defense sector and how this led the military to fragment during periods of heightened political competition Furthermore the book explains why integration ultimately failed in South Sudan and identifies the wider lessons that could be applied to current or future war to peace transitions This book will be of great interest to students of war and conflict studies peacebuilding post conflict reconstruction African security issues and International Relations in general as well as to practitioners **Ordinary Sudan, 1504-2019** Elena Vezzadini,Iris Seri-Hersch,Lucie Revilla,Anael Poussier,Mahassin Abdul Jalil,2023-07-24 This book starts from the premise that the study of exceptionally normal women and men as conceived by microhistory has radical implications for understanding history and politics and applies this notion to Sudan Against a historiography dominated by elite actors and international agents it examines both how ordinary people have brought about the most important political

shifts in the country's history including the recent revolution in 2019 and how they have played a role in maintaining authoritarian regimes. It also explores how men and women have led their daily lives through a web of ordinary worries, desires, and passions. The book includes contributions by historians, anthropologists, and political scientists who often have a dual commitment to Middle Eastern and African studies. While focusing on the complexity and nuances of Sudanese local lives in both the past and the present, it also connects Sudan and South Sudan with broader regional, global, and imperial trends. The book is divided into two volumes and six parts ordered thematically. The first part tackles the entanglement between archives, social history, and power. The second focuses on women's agency in history and politics from the Funj era to the recent 2018-2019 revolution. Part 3 includes contributions on the history and global connections of the Sudanese armed forces. In the second volume, part 4 intersects the themes of urban life, leisure, and colonial attitudes with queerness. In part 5, labour, identities, practices, and institutions are discussed both in urban milieus and against the background of war and expropriation in rural areas. Finally, part 6 studies the construction of social consent under various self-styled Islamic regimes, as well as the emergence of alternative imaginaries and acts of citizenship in times of political openness.

Sudan's Wars and Peace Agreements Stephanie Beswick, Jay Spaulding, 2010-07-12. Originating from the 2008 27th annual conference of the Sudan Studies Association (SSA) of the same title, these essays document and analyze Sudan's chronic history of conflict since independence in 1956, as well as its own and international efforts to bring an end to these conflicts. As the country moves toward what some see as the inevitable separation of South Sudan in 2011, honoring the principle of self-determination long fought for by southerners, the lessons of six decades of a history of war and peace agreements is both telling and compelling. This analysis is offered by the real experts on Sudan rather than the usual story offered by journalists and pundits. In addition to an Introduction by the editors, all founders or current or past presidents of the SSA, the essays by Sudanese and non-Sudanese explore the often bitter history of North-South relations and loss of life, leading to the consideration of a range of options from a continuation of national unity under revised terms to federation or redivision to full separation of the South and the constitution of a new African state. The role of the Khartoum government's pursuit of policies of Islamization and Islamism for a quarter of a century across multiple regimes is also treated. The central question of constructing a sustainable peace, irrespective of the outcome in 2011, is detailed along with the essential consideration of women and gender perspectives to sustain any peace negotiated. This book is a must reading in advance of or in response to the crucial events as they unfold in Sudan in 2011 and beyond.

Hope for the Afflicted Jairo de Oliveira, 2023-06-29. There is a humanitarian disaster unfolding before our eyes, a global tragedy that affects men, women, and children. We are referring to the largest humanitarian crisis of our generation, which has shaped our world and produced over 100 million people forcibly displaced globally. Amid such a challenging scenario, the global church is called to consider some unavoidable questions such as: How can Christians respond to the current migration crisis? What are some resources available to Christians to help them?

transform this tragic reality What are some strategic approaches for bringing hope to asylum seekers and refugees In this book Jairo de Oliveira deals with these and many other related questions based on his interactions with the Fur a Muslim people group from Darfur Sudan living as asylum seekers and refugees in Jordan in the Middle East After providing a thorough historical background and cultural analysis of Fur the author commends a contextualization model and fruitful practices that emerged from his study of the people Hope for the Afflicted serves as a manual and practical guide for those who feel called to engage the current migration crisis by proclaiming the hope of the gospel and discipling asylum seekers and refugees worldwide
