Boyd,2004-01-01 This book examines the Free Trade Area of the Americas FTAA an ambitious venture in regional market  
integration which builds on the principles of the North American Free Trade Agreement It assesses the long term corporate  
and public policy measures to cope with the increased monetary fiscal and structural interdependence that will be required if  
the benefits of the FTAA are to be realized The contributors suggest that with enlightened US leadership and the cooperation  
of Brazil Mexico and Argentina the FTAA could eventually match the EU in the world economy and as a multilateral leader  
Initiatives to promote a culture of relational cooperation in a system of liberalized global commerce are stressed In Latin  
America there is an urgent need for such cooperation in order to enhance the region s lackluster growth rate and reduce the  
occurrences and severity of financial crises The United States Canada and Mexico will also benefit from the development of  
dynamic structural links with their regional neighbours The authors highlight the importance for US policy initiatives to be  
complemented by constructive and harmonious corporate collaborations This spirit of alliance capitalism will help ensure the  
FTAA promotes social justice as well as economic efficiency This fully integrated volume written by leading specialists in the  
field will become an indispensable source for analysis of the prospects and role of the FTAA in the global economy It will be  
warmly welcomed by informed readers such as international business experts bankers corporate executives economists  
dealing with fiscal and monetary integration and those interested in Latin American business
