Food and Nutrition Paul Fieldhouse, 2013-12-14 As someone who was trained in the clinical scientific tradition it took me several years to start to appreciate that food was more than a collection of nutrients and that most people did not make their choices of what to eat on the biologically rational basis of nutritional composition This realization helped to bring me to an understanding of why people didn't always eat what I believed was good for them and why the patients I had seen in hospital as often as not had failed to follow the dietary advice I had so confidently given When I entered the field of health education I quickly discovered the famous World Health Organization definition of health as being a state of complete physical mental and social well being and not merely the absence of disease Health was a triangle and I had been guilty of virtually ignoring two sides of that triangle As I became involved in practical nutrition education initiatives the deficiencies of an approach based on giving information about nutrition and physical health became more and more apparent The children whom I saw in schools knew exactly what to say

when asked to describe a nutritious diet they could recite the food guide and list rich sources of vitamins and minerals but none of this intellectual knowledge was reflected in their own actual eating habits

**Christmas in Yiddish Tradition** Jordan Chad,2025-11-18 Offers the provocative argument that Jews had long celebrated Christmas in the Old World This book seeks to answer a perplexing question Why were Christmas traditions once transmitted in Yiddish a language exclusive to non Christians Back in Europe Yiddish speaking Jews traditionally let loose on Christmas Eve with feasting drinking dancing and gambling Scholars have previously assumed this Christmas Eve vacation from Torah study to have been some sort of antagonistic counterculture to Christians celebrating Christmas But Christmas in Yiddish Tradition reveals that the Christmas traditions transmitted in Yiddish were very similar to those transmitted in other European languages Drawing on a wealth of documents Jordan Chad argues that rather than European Jews being antagonistic towards Christmas their Christmas Eve celebrations were exactly what they looked like Jews celebrating Christmas The volume offers the surprising argument that while Jews never celebrated the birth of Jesus Christmas did not actually become the strictly Christian holiday that it is today until the period when Jews migrated to the New World Prior to that time Jewish midwinter traditions developed as variants of midwinter traditions that were widespread across neighboring European communities Christmas in Yiddish Tradition recounts how Jews and Christians over the past millennium each awaited supernatural visits from diverse versions of Santa Claus They only came to fully Christianize their concept of midwinter in modern times at which point the place of Christmas in the Jewish collective memory evolved from the year s jolliest vacation to its most dangerous disturbance The volume uncovers the story of how Christmas once flourished in a language exclusive to non Christians and how modern Jews and Christians ultimately came to forget about the time when they celebrated Christmas in tandem

**Wrapped & Stuffed Foods** Mark McWilliams,2013-07-01 Contains essays presented at the 2012 Oxford Symposium on Food and Cookery [1,000 Jewish Recipes](#) , [The Fat of the Land](#) Harlan Walker,2003 Proceedings of the Oxford Symposium on Food and Cooking for the year 2002 The subject is The Fat of the Land **Religious Calendars** Emma Johnson,AI,2025-03-06 Religious Calendars explores how religion profoundly influences our understanding of time by

examining the diverse timekeeping systems used across various faiths It reveals how calendars aren't just about marking days but are integral to defining sacred moments festivals and life cycle events reflecting core values and historical experiences Delving into Jewish Christian Islamic Hindu and Buddhist traditions the book uncovers the intricate methodologies used to reconcile lunar and solar cycles showcasing how cultural adaptations have shaped their evolution For example the Jewish lunar calendar connects to agricultural cycles and historical events like Passover while the Islamic lunar calendar dictates a fixed cycle of religious observances This exploration isn't just historical it extends to the modern world considering the impact of globalization and secularization on these traditional systems The book adopts a comparative approach highlighting both the commonalities and differences in how cultures make sense of time within a divine context By drawing upon primary religious texts historical documents and insights from fields like anthropology and astronomy *Religious Calendars* provides a comprehensive and interdisciplinary perspective The book progresses from foundational principles to detailed analyses of specific calendars culminating in discussions about their contemporary relevance and adaptation
