**Remaking the Republic** Christopher James Bonner, 2020-03-20 Citizenship in the nineteenth century United States was an ever moving target The Constitution did not specify its exact meaning leaving lawmakers and other Americans to struggle over the fundamental questions of who could be a citizen how a person attained the status and the particular privileges citizenship afforded Indeed as late as 1862 U S Attorney General Edward Bates observed that citizenship was now as little understood in its details and elements and the question as open to argument and speculative criticism as it was at the founding of the Government Black people suffered under this ambiguity but also seized on it in efforts to transform their nominal freedom By claiming that they were citizens in their demands for specific rights they were Christopher James Bonner argues at the center of creating the very meaning of American citizenship In the decades before and after Bates s lament free African Americans used newspapers public gatherings and conventions to make arguments about who could be a citizen the protections citizenship entailed and the obligations it imposed They thus played a vital role in the long fraught process of determining who belonged in the nation and the terms of that belonging Remaking the Republic chronicles the various ways African Americans from a wide range of social positions throughout the North attempted to give meaning to American citizenship over the course of the nineteenth century Examining newspapers state and national conventions public protest meetings legal cases and fugitive slave rescues Bonner uncovers a spirited debate about rights and belonging among African Americans the stakes of which could determine their place in U S society and shape the terms of citizenship for all Americans

**The War on Welfare** Marisa Chappell, 2012-02-02 Why did the War on Poverty give way to the war on welfare Many in the United States saw the welfare reforms of 1996 as the inevitable result of twelve years of conservative retrenchment in American social policy but there is evidence that the seeds of this change were sown long before the Reagan Revolution and not necessarily by the Right The War on Welfare Family Poverty and Politics in Modern America traces what Bill Clinton famously called the end of welfare as we know it to the grassroots of the War on Poverty thirty years earlier Marshaling a broad variety of sources historian Marisa Chappell provides a fresh look at the national debate about poverty welfare and economic rights from the 1960s through the mid 1990s In Chappell s telling we experience the debate over welfare from multiple perspectives including those of conservatives of several types liberal antipoverty experts national liberal organizations labor government officials feminists of various persuasions and poor women themselves During the Johnson and Nixon administrations deindustrialization stagnating wages and widening economic inequality pushed growing numbers of wives and mothers into the workforce Yet labor unions antipoverty activists and moderate liberal groups fought to extend the fading promise of the family wage to poor African Americans families through massive federal investment in full employment and income support for male breadwinners In doing so however these organizations condemned programs like Aid to Families with Dependent Children AFDC for supposedly discouraging marriage and breaking up families Ironically their arguments paved the way for increasingly successful right wing attacks on both welfare and the War on Poverty itself

*America and the Black Body* Carol E. Henderson, 2009 *America and the Black Body* is a timely exploration into the creative literary and visual uses of the black body in American print and visual culture More specifically this volume contemplates the social development of American identity and the multifarious ways this identity coalesces in the small gestures of preclusion that establish discernable markers of national belonging Such investigations underscore issues of power and disenfranchisement of race class and gender that mediate the representations of the black male and the black female body in real and imagined ways as it also reveals the invisible social and political ties that connect white men and women s identities to these racial imaginings Book Jacket
