Albrecht, 2021-03-19 This book focuses on the experiences of tourists visiting nature based destinations exploring current knowledge and providing insights into conceptual issues through the use of empirical evidence from five continents

Presented as three topics the contents discuss tourism and naturebased experiences by looking at the role and relevance of nature and the uniqueness of such experiences The book identifies visitor management challenges and provides explanations for the solutions reached The final section takes a more overarching destination management perspective that transcends the tourism product or business level and focuses on destination and generic issues like indicators or marketing implications The book also includes research based case studies which contribute to an overall understanding of the core issues involved in managing visitor experiences in nature based tourism
