Essentials of Western Veterinary Acupuncture Samantha Lindley,Mike Cummings,2008-04-15 The field of pain research is rapidly expanding in both human and veterinary medicine and has helped increase our understanding of acupuncture However many are still highly sceptical about the use of acupuncture and prefer for it to remain far from orthodox veterinary practice This book seeks to challenge common misgivings by showing how veterinary acupuncture works for small and large animals and why it should be established as an orthodox form of treatment Written from a Western approach rather than a traditional Chinese Medicine approach it explains the background and history of acupuncture and includes key information on safety aspects understanding pain and how acupuncture can help practical aspects such as types of needles and methods of restraint and related techniques Not intended as a techniques manual this book is a preparatory text for those considering taking an acupuncture course and those wishing to gain a solid understanding of the subject

Non Pharmacological Therapies in the Management of Osteoarthritis Yves Henrotin,Kim Bennell,Francois Rannou,2012-03-31 Osteoarthritis is a chronic disease prevalent among the elderly Its most prominent feature is the progressive destruction of articular cartilage which results in impaired joint motion severe pain and ultimately disability Its

prevalence and its impact on daily life pose a significant public health problem Today a cure for osteoarthritis remains elusive and the management of the disease is largely palliative focusing on the alleviation of symptoms Current recommendations include a combination of pharmacological and non pharmacological treatments The term non pharmacological includes physical therapy and rehabilitation but also nutraceuticals All guidelines on osteoarthritis management highlight the importance of weight loss and physical activity to improve the functional status of patients A number of alternative therapies are also commonly suggested by physicians and physiotherapists in their daily practice The efficacy of these therapies is not evidenced by strong clinical trials This category includes education information electrotherapy ultrasound electromagnetic field spa hydrotherapy acupuncture etc Non Pharmacological Therapies in the Management of Osteoarthritis reviews the clinical relevance of these therapies and the difficulties in conducting high quality trials assessing their efficacy This e book presents supportive scientific evidence for their efficacy and explains the mechanism of action of nutraceuticals targeting osteoarthritis It also includes many example of exercises mobilization and manipulation techniques directly useful for medical professionals
