Twilight Issues in International Arbitration George Bermann,2023-03-09 There are many issues of arbitral practice

that remain largely unaddressed or very poorly addressed in the sources to which tribunals and counsel conventionally turn for procedural guidance the arbitration agreement the *lex arbitri* and rules of procedure This book brings together the most frequently recurring of such twilight issues so called because all participants in the arbitral process when facing them find themselves in the dark showing in each case where it is best for arbitrators counsel and parties to look for solutions offering logic certainty and predictability The issues ably covered by the author include among others the following Is a non signatory bound by or entitled to invoke an arbitration agreement When may *res judicata* or collateral estoppel subject Should a tribunal issue an anti suit injunction When may a tribunal treat as mandatory a law other than the chosen one On what basis may a witness invoke testimonial privilege When may a tribunal sanction counsel for what it considers misconduct By what standards is a determination of corruption to be made How should a tribunal determine the interest rate applicable to an award On what basis are costs to be allocated Examining in turn the guidance that may be provided by normative sources national law and if so which one simple exercise of good judgment or international standards derived from soft law arbitral jurisprudence international law and scholarly and professional commentary the analysis clearly shows how when conventional sources of legal guidance are unavailing decisions on important matters of arbitral practice and procedure are best made The book will prove of major relevance and value to any and all stakeholders in the international arbitral process whether commercial or investor state

 Kröll, Andrea K. Bjorklund, Franco Ferrari, 2023-03-02 The Compendium like an encyclopedia contains entries for most of the
 foundational principles and concepts underlying arbitration Each entry takes a holistic view of international arbitration as
 they tackle core concepts from both a commercial and an investment arbitration perspective focusing on the fundamental
 issues underlying the various topics rather than on the solutions adopted in any particular jurisdiction thus making the
 Compendium a truly cross border transnational resource This innovative approach will allow readers to identify the
 commonalities as well as the differences between commercial and investment arbitration whether and where cross
 fertilization has taken place and what consequences it can have This approach allows the Compendium to be a tool in
 promoting the creation of a culture of international arbitration that considers commercial arbitration and investment
