### [The Causes of Economic Growth](#)

Rick Szostak, 2009-03-02 What are the causes of economic growth As billions of people still live in poverty this is perhaps the most important question in human science It is also a very complex one as rates of economic growth are influenced by a

multitude of economic as well as political geographical and sociological factors This books attempts to advance a nuanced understanding of the process of economic growth by synthesizing the insights of several social science disciplines Different theories and methods employed by economists and other social scientists to study the causes of economic growth are analyzed and it is shown how and why those insights should be integrated by applying best practice techniques of interdisciplinary analysis Scholars and practitioners are thus provided with a wide array of potential strategies for encouraging growth as well as guidance on how these strategies may interact **Global Inequality** Kenneth

McGill,2016-01-01 Inequality is currently gaining considerable attention in academic policy and media circles From Thomas Piketty to Robert Putnam there is no shortage of economic sociological or political analyses But what does anthropology with its focus on the qualitative character of relationships between people have to offer Drawing on current scholarship and illustrative ethnographic case studies McGill argues that anthropology is particularly well suited to interrogating global inequality not just within nations but across nations as well The book is designed to be used flexibly in a variety of undergraduate classes from introductory cultural anthropology to courses on globalization economic and political anthropology and inequality Brief accessibly written and peppered with vivid ethnographic examples that bring contemporary research to life **Global Inequality** is a unique offering for undergraduate anthropology courses *Elgar*

Sean O' Dubhghaill,2019-07-22 The first anthropological account of the Irish diaspora in Europe in the 21st century this book provides a culture centric examination of the Irish diaspora Focusing less on an abstract or technical definition of Irish self identification the author allows members of this group to speak through vignettes and interview excerpts providing an anthropological lens that allows the reader to enter a frame of self reference This book therefore provides architecture to understand how diasporic communities might understand their own identities in a new way and how they might reconsider the role played by mobility in changing expressions of identity Providing firsthand experiential and narrative insight into the Irish diaspora in Europe this volume promises to contribute an anthropological perspective to historical accounts of the Irish

overseas theoretical works in Irish studies and sociological examinations of Irish identity and diaspora      **Legalism** Georgy Kantor, Thomas Benedict Lambert, Hannah Skoda, 2017 This volume brings together anthropologists and historians to examine how property and ownership operate and are understood across contexts ranging from Roman provinces to modern day piracy in Somalia Among other things it examines the way legal property regimes intertwine with economic moral ethical and political prerogatives      **The British National Bibliography** Arthur James Wells, 2009      *Elgar Encyclopedia of Political Anthropology* Arpad Szakolczai, Paul O'Connor, 2025-09-10 This Encyclopedia explores the anthropological underpinnings of politics Featuring biographical entries that reconstruct the life works of key theorists from across the globe alongside topical entries on a range of issues in political anthropology it poses the question what does it mean to be human in contemporary times      Kinship in Action Andrew Strathern, Pamela J Stewart, 2015-07-02 For courses in Social Organization Kinship and Cultural Ecology Kinship has made a come back in Anthropology Not only is there a line of noted general introductory works and readers in the topic but theoretical discussions have been stimulated both by technological changes in mechanisms of reproduction and by reconsiderations of how to define kinship in the most productive ways for cross cultural comparisons In addition kinship studies have moved away from the minutiae of kin terminological systems and the kinship algebra often associated with these to the broader analysis of processes historical changes and fundamental cultural meanings in which kin relationships are implicated In this changed and changing context both Andrew Strathern and Pamela J Stewart both of the University of Pittsburgh bring together a number of interests and concerns in order to provide pointers for students as well as scholars in this field of study Taking an explicitly processual approach the authors examine definitions of terms such as kinship itself approach the topic in a way that is invariably ethnographic and deploy materials from field areas where they themselves have worked      **Self in the World** Keith Hart, 2022-03-11 Eminent anthropologist Keith Hart draws on the humanities popular culture and his own experiences to help readers explore their own place in history We each embark on two life journeys one out into the world the other inward to the self With these journeys in mind anthropologist amateur economist and globetrotter Keith Hart reflects on a life of learning sharing and remembering to offer readers the means of connecting life's extremes individual and society local and global personal and impersonal dimensions of existence and explores what it is that makes us fully human This is a work of great originality Keith Hart has had an unorthodox academic career and it has liberated him in many ways from academic pieties His background in African ethnography gives him a fascinating angle on all sorts of things not least the possibility of a more African influenced global future The book is full of surprises and mind shifting observations I actually couldn't put it down Sherry B Ortner UCLA From the introduction People have many sides but I will focus here on two Each of us is a biological organism with a historical personality that together make us a unique individual But we cannot live outside society which shapes us in unfathomable ways Human beings must learn to be self reliant not self interested in small and large ways no one will brush your teeth for you or save
