research suggests the idea of intimate relationships has to extend beyond the biological assumption of kinship relations The idea of fiction is also not free from the biological imagination or the persistent dichotomy of nature culture nurture nature This edited volume resurrects the idea of fiction and fictive ness to understand how intimate relationships may use these particular labels translate into practices or create an experiential understanding around relationships The chapters in this book reengage the idea of fiction by exploring the ambiguity within household relationships the process of making and engaging with a craft and skill and the intricacies of making children through IVF and third party involvement They challenge societal norms of marriage and being married by reframing shared substances and the relationality they carry and by remembering deceased ties through acts of resurrection Through vivid illustrations of life and living in South Asia each chapter contributes to an understanding of how fiction and reality are mutually creating each other This book will be beneficial to students academics and scholars of anthropology particularly those interested in kinship and the sociology of the family The chapters in this book were originally published as a special issue of Contemporary South Asia

The Pineapple from Domestication to Commodification Victoria Avery, Melissa Calaresu, 2025-10-15 The pineapple s discovery by European colonisers in the late fifteenth century and its remarkable global trajectory from an early modern object of rarity desire and horticultural innovation to a cheap canned consumable and fair trade logo today is a story of modern globalisation The Pineapple from Domestication to Commodification is a wide ranging interdisciplinary volume intended to provoke timely debate and generate radical rethinking of an overly familiar fruit with associations from luxury to kitsch It deliberately problematizes the pineapple by investigating understudied tensions between its representational power and the historical and political contexts of its worldwide production and consumption This connects the global and local at the heart of contemporary debates about the nature and origins of our food It will have cross disciplinary appeal for scholars of politics economics history plant sciences food and material culture as well as for broader audiences interested in food gardening the environment and visual arts

Handbook of the American Short Story Erik Redling, Oliver Scheiding, 2022-01-19. The American short story has always been characterized by exciting aesthetic innovations and an immense range of topics. This handbook offers students and researchers a comprehensive introduction to the multifaceted genre with a special focus on recent developments due to the rise of new media. Part I provides systematic overviews of significant contexts ranging from historical political backgrounds, short story theories developed by writers, print and digital culture to current theoretical approaches and canon formation. Part II consists of 35 paired readings of representative short stories by eminent authors charting major steps in the evolution of the American short story from its beginnings as an art form in the early nineteenth century up to the digital age. The handbook examines historically, methodologically and theoretically the coming together of the enduring narrative practice of compression and concision in American literature. It offers fresh and original readings relevant to studying the American short story and shows how the genre performs American culture.

Thinking Design Through Literature Susan Yelavich, 2019-08-28. This book deploys literature to explore the social lives of objects and places. The first book of its kind, it embraces things as diverse as escalators, coins, skyscrapers, pottery, radios and robots and encompasses places as various as home, country, cities, streets and parks. Here, fiction, poetry and literary non-fiction are mined for stories of design which are paired with images of contemporary architecture and design. Through the work of authors such as Carson, Aires, Nicholson, Baker, Lydia Davis, Orhan Pamuk and Virginia Woolf, this book shows the enormous influence that places and things exert in the world.

Where I Live Now Lucia Berlin, 2017-04-01. The New York Times bestselling author of *So Long* contemplates the human condition in this short story collection for fans of Grace Paley, Alice Munro. The elusive nature of happiness is a compelling theme in *Where I Live Now*. The survivors in these stories, many of them society's marginal or excluded people fighting alcohol or drug addiction, bearing emotional scars, recognize it all too well. They mourn the lost dreams of youth, the roads not taken. They suffer the damage life inflicts: the ache of loneliness, the pain of separation, the fear of death. Set mainly in Los Angeles, Lucia Berlin's gritty working class stories bridge the gap between the Americas' rich and poor, North and South, Anglo and Hispanic. While her style has been compared to Raymond Carver's and her dream and drink addicted characters to Richard Yates's, her fictional territory and fatalistic humor are hers alone. Praise for *Where I Live Now*: Berlin's literary model is Chekhov, but there are extra-literary models too, including the extended jazz solo with its surges, convolutions and asides. This is writing of a very high order. August Kleinzahler, *London Review of Books*. This remarkable collection occasionally put me in mind of Annie Proulx's *Accordion*.
