Collected Stories of Fantasy and Science Fiction Howard Fast, 2018-09-25 A pair of imaginative science fiction story collections from the 1 New York Times bestselling author of Spartacus Freedom Road and the Immigrants saga Over his long and illustrious career New York Times bestselling author and prolific novelist Howard Fast proved himself a master of any literary genre from historical fiction in Spartacus to family generational drama in his bestselling Immigrants saga Although his output in fantasy and science fiction is relatively modest these two short story collections reminiscent of classic Twilight

Zone episodes demonstrate that Fast's imagination knew no boundaries. The General Zapped an Angel. Nearly forty years after the publication of his first story, *Wrath of Purple*, in the science fiction magazine *Amazing Stories*, Fast returned to the genre with a set of nine supremely entertaining tales. In this collection, a Vietnam general shoots down what appears to be an angel; a man sells his soul to the devil for a copy of the next day's *Wall Street Journal*; and a group of alien beings bestow a mouse with human thought and emotion. These stories amply display Fast's considerable gifts as a writer: his clear, concise, often elegant prose; his sense of humor; his gift of sympathetic imagination; and sheer talent as a storyteller. *Tangent: A Touch of Infinity*. This follow-up to *The General Zapped an Angel* offers thirteen brisk and engrossing science fiction stories. In *The Hoop*, a scientist builds a portal to an unknown destination which the mayor of New York City hijacks to use as a garbage dump until the location's surprising and hilarious revelation. And in *The Egg*, set three thousand years in the future, a research team discovers an egg, something they have never seen before, cryogenically frozen in a nuclear bunker. Fast, a master of economy, spins his stories quickly and most effectively. Associated Press.

Proud New Monkey, UITSU & more... 10 all-new short stories. Jack Calverley, 2024-08-01. Explore worlds, meet people, and share their futures in 10 original science fiction short stories: sometimes true to life, sometimes metaphoric, always absorbing. From time travel to telepathy, from AI to aliens, from the conscious mind to what comes after, science fiction is nothing if not the literature of ideas, and it's all here. In a world where the future is entirely determined, everything known in advance, Gary's diary unexpectedly goes blank. One unfortunate must negotiate peace before the missile nose cone that imprisons him delivers its payload. All civilisations end, but what ends the Age of AI? And why is Terri only too grateful that telepathy is a one-way street? Aside from which, is honesty the best policy when everyone else lies? How do you make sense of memories when your ultra-smart implant is removed? Would a uniform gelatinous mass of happy conscious substance make for a perfect world? And what does UITSU mean? Journey from the satirically dark to the fizzy and light while the future comes at you. Non-stop, the time to read is now.
